OBSERVATIONS:

1. We have been provided with the copy of Tax Invoices with cost of each machines received from manufactures of the machines by the borrower company.
2. As per the information provided by the company and as per the site survey these machines are installed at the subject property and is currently being used for manufacturing purposes.
3. We have contacted several suppliers for similar items and also enquired in the public domain. Accordingly we have got the quotation and price reference from public domain and we find that the price given in the Tax Invoice provided to us is well within the price range of similar items available in the market and seem to be reasonable.
4. Out of the total price quoted by the subject company in setting up the machines, around 90% of the amount has been vetted.
5. **Based on the information provided by the company (M/s. PRG International Electricals Pvt. Ltd.) and enquiries made by us in the open market and references found in the public domain for similar machines/items, it is certified that total market cost for setup the machines/items of similar specification should be around ₹7,00,00,000/- to ₹7,50,00,000/- and therefore the total purchase price of Rs.7,44,00,000/- (Excluding Tax) (as per the Tax Invoice and Project Cost file provided to us by the company) appears to be reasonable.**

Disclaimer:

1. *This Certificate is to be referred only for the purpose of the Cost Vetting of the Machinery & other auxiliary items purchased by the company as per the Tax Invoice and the list provided to us by the borrower company.*
2. *This cost vetting is done only on the basis of Tax Invoice and machinery inventory sheet provided to us by the company and we don't recommend any sort of recommendation in our Certificate.*
3. *The estimated cost verification of item to item can't exactly match as per our vetting due to several market consideration. In some of the items it is lower while in some of the items price comes to be higher but on an average the price as per list provided to us falls in the range as confirmed by us.*
4. *The purchase cost for supplementary machine tools such as Rotor tool, die, Blanking tool etc. completely depends on the desired specification, dimension and material of the tool as per the requirement of the manufacturer hence the cost of such tools cannot be vetted or verified independently. Hence the cost of such tools has been considered the same as per the invoices provided by the company and has been relied upon on good faith.*
5. *There can be variation in the estimated price if the specification & make of any items procured is different from the list provided to us during assessment. The estimated cost verification is made based on the third party information which has been relied upon in good faith.*
6. *The estimated price may vary at the time of actual procurement because of change in prices in the market for such kind of machinery/items for which we will not have any control. The cost vetting is only limited to the date of Certificate issued. We do not assume any responsibility in change of prices of the said machinery/items after this date.*
7. *This certificate doesn't include any work related to drawing, design, sketch plan, procurement of the machines.*
8. *Ownership and other legal point of view in respect of the asset is not considered in this report as same is out of scope of this certificate.*
