d.	Date of Valuation Report	30 June 2021
e.	Name of the Developer of the Property	Owners themselves
	Type of Developer	Property built by owner's themselves

**1. PHYSICAL CHARACTERISTICS OF THE PROPERTY**

**BRIEF DESCRIPTION OF THE PROPERTY UNDER VALUATION**

**Snapshot of the Asset/ Property Under Valuation**

This Valuation report is prepared for the Residential property situated at the aforesaid address having total land area admeasuring 425.33 sq.yds (355.63 sq.mtr) as per the copy of Sale deeds provided to us by the bank.

The subject property is a lease hold property purchased by M/s. Standard Apartments Pvt. Ltd. The owner company has purchased two independent houses i.e. Plot 39 and Plot No. 40 via virtue of two separate sale deeds dated: 02/03/1988 & 09/04/986 respectively. As per the sale deed provided to us the area of Plot No. 39 is 188.33 sq.yds. whereas the area of the Plot No. 40 is 237 sq.yds. Both these plots are adjacent to each other and are merged to form a single plot.

The plot area according to the survey of plot no. 39 is 60'x39' which is 2340 sq.ft. and the area of plot no. 40 is 60'x31' which is 1860 sq.ft. Cumulatively the area is derived to be 4200 sq.ft./466.66 sq.yds we have considered plot area according to the copy of sale deed provided to us.

The property is being used as commercial cum residential, at ground floor there is showroom and Godown. The first floor and the second floor was locked at time of site survey.

The subject property is Built 2 & 1/2.Storey as per the sale deed. whereas on site survey it is seen that total Plot Area is covered and the subject property is G+1 and Tin shed on the second floor. No internal survey was done for first & second floor since both these floors was locked. we have considered the covered area according to the building bye law of Delhi for residential plot. The total covered area of the subject property is 800.1675 sq.mtr (8612.92 sq.ft) (As per MPD 2021).

The amalgamated property is a two side corner plot located in good developed locality of W.E.A. Karol Bagh. This is a good residential locality and the subject property can be clearly approached from a 40 ft. wide road. The subject property is located approx. 350 mtr. from the main Pusa Road.

This report only contains general assessment & opinion on the Guideline Value and the indicative, estimated Market Value of the property for which Bank has asked to conduct the Valuation and found as per the information given in the copy of documents provided to us and/ or confirmed by the owner/ owner representative to us at site which has been relied upon in good faith. It doesn't contain any other recommendations of any sort.

<b>a. Location attribute of the property</b>		
i.	Nearby Landmark	Near Karol Bagh Metro Station
ii.	Postal Address of the Property	Plot No. 39 & 40, Block No. 11-A, Khasra No. 5011/2602, W.E.A., Karol Bagh, New Delhi-110005
iii.	Area of the Plot/ Land	Approx. 355.63 sq.mtr. (425.33 sq.yds.) <i>Also please refer to Part-B Area description of the property. Area measurements considered in the Valuation Report is adopted from relevant approved documents or actual site measurement whichever is less. Verification of the area measurement of the property is done only based on sample random checking.</i>
iv.	Type of Land	Solid Land
v.	Independent access/ approach to the property	Clear independent access is available
vi.		Enclosed with the Report

	Google Map Location of the Property with a neighborhood layout map	Coordinates or URL: 28°38'48.0"N 77°11'09.6"E		
vii.	Details of the roads abutting the property			
	i. Main Road Name & Width	Pusa Road	80 ft.	
	ii. Front Road Name & width	W.E.A Brahampuri Road	40 ft.	
	iii. Type of Approach Road	Bituminous Road		
	iv. Distance from the Main Road	350 mtr.		
viii.	Description of adjoining property	Its a residential colony and all adjacent properties are used for residential purpose		
ix.	Plot No./ Survey No.	39 & 40		
x.	Zone/ Ward	Central Zone	Regar Pura	
xi.	Sub registrar	New Delhi		
xii.	District	Delhi		
xiii.	Any other aspect	<p>Valuation is done for the property found as per the information given in the copy of documents provided to us and/ or confirmed by the owner/ owner representative to us at site.</p> <p>Getting cizra map or coordination with revenue officers for site identification is a separate activity and is not part of the Valuation services.</p>

	ii. Name of the office of the Authority	Cannot comment since no approved map given to us		
	iii. Any violation from the approved Building Plan	Cannot comment since no approved map given to us		
l.	Whether Property is Agricultural Land if yes, any conversion is contemplated	No not an agricultural property		
m.	Whether the property SARFAESI complaint	Yes		
n.	i. Information regarding municipal taxes ( <i>property tax, water tax, electricity bill</i> )	Property Tax	Yes, last bill/ payment receipt attached	
		Water Tax	No information available	
		Electricity Bill	No information available	
	ii. Observation on Dispute or Dues if any in payment of bills/ taxes	No such information came to knowledge on site		
	iii. Is property tax been paid for this property	Tax receipt provided for year 2018-19		
	iv. Property or Tax Id No.	07089440000005531		
o.	Whether entire piece of land on which the unit is set up / property is situated has been mortgaged or to be mortgaged	Yes, as informed by owner/ owner representative.		
p.	Qualification in TIR/Mitigation suggested if any	TIR Not Provided to Us		
q.	Any other aspect	This is just an opinion report on Valuation based on the copy of the documents/ information provided to us by the client and has been relied upon in good faith of the property found as per the information given in the documents provided to us and/ or confirmed by the owner/ owner representative to us on site.  Legal aspects, Title verification, Verification of authenticity of documents from originals or cross		

		checking from any Govt. deptt. of the property have to be taken care by legal expert/ Advocate.
1.	Since how long owners owing the Property	The owner has purchased the aforesaid Houses in year 1986 & 1988
2.	Year of Acquisition/ Purchase	Latest sale deed executed in year- 1988
3.	Property presently occupied/ possessed by	Owner
4.	Title verification	Legal aspects or Title verification have to be taken care by competent advocate.
5.	Details of leases if any	NA

#### 4. ECONOMIC ASPECTS OF THE PROPERTY

a.	Reasonable letting value/ Expected market monthly rental	NA
b.	Is property presently on rent	No
	a) Number of tenants	No information available to us
	b) Since how long lease is in place	No information available to us
	c) Status of tenancy right	No information available to us
	d) Amount of monthly rent received	No information available to us
c.	Taxes and other outgoing	Owner Company to provide this information
d.	Property Insurance details	Owner Company to provide this information
e.	Monthly maintenance charges payable	Owner Company to provide this information
f.	Security charges, etc.	Owner Company to provide this information
g.	Any other aspect	NA

#### 5. SOCIO - CULTURAL ASPECTS OF THE PROPERTY

a.	Descriptive account of the location of the property in terms of Social structure of the area in terms of population, social stratification, regional origin, age groups, economic levels, location of slums/squatter settlements nearby, etc.	Urban Developed Area
b.	Whether property belongs to social infrastructure like hospital, school, old age homes etc.	No

#### 6. FUNCTIONAL AND UTILITARIAN SERVICES, FACILITIES & AMENITIES

a.	Description of the functionality & utility of the property in terms of :	
	a. Space allocation	Yes
	b. Storage spaces	Yes
	c. Utility of spaces provided within the building	Yes
	d. Car parking facilities	No
	e. Balconies	No
b.	Any other aspect	

	a. Drainage arrangements		Yes		
	b. Water Treatment Plant		No		
	c. Power Supply arrangements	Permanent	Yes		
		Auxiliary	No		
	d. HVAC system		No		
	e. Security provisions		No		
	f. Lift/ Elevators		No		
	g. Compound wall/ Main Gate		Yes		
	h. Whether gated society		No		
	i. Internal development				
Garden/ Park/ Land scraping	Water bodies	Internal roads	Pavements	Boundary Wall	
No	No	No	No	No	

**7. INFRASTRUCTURE AVAILABILITY**

a. Description of Aqua Infrastructure availability in terms of:													
i. Water Supply		Yes											
ii. Sewerage/ sanitation system		Underground											
iii. Storm water drainage		Yes											
b. Description of other Physical Infrastructure facilities in terms of:													
a. Solid waste management		No											
b. Electricity		Yes											
c. Road and Public Transport connectivity		Yes											
d. Availability of other public utilities nearby		Transport, Market, Hospital etc. available in close vicinity											
i. Proximity & availability of civic amenities & social infrastructure													
School		Hospital		Market		Bus Stop		Railway Station		Metro		Airport	
50 mtr		100 mtr		50 mtr		---		1.5 Km		500 mtr		22Km	
Availability of recreation facilities (parks, open spaces etc.)						Yes ample recreational facilities are available in the vicinity.							

**8. MARKETABILITY ASPECTS OF THE PROPERTY:**

i. Marketability of the property in terms of		
	i. Location attribute of the subject property	Good
	ii. Scarcity	Similar kind of properties are not easily available in this area.
	iii. Market condition related to demand and supply of the kind of the subject property in the area	Good demand of such properties in the market
	iv. Comparable Sale Prices in the locality	Please refer to Part C: Valuation Assessment of the Property.
ii.	Any other aspect which has relevance on the value or marketability of the property	No

i. Any New Development in surrounding area	No	NA
ii. Any negativity/ defect/ disadvantages in the property/ location	No	NA

**9. ENGINEERING AND TECHNOLOGY ASPECTS OF THE PROPERTY:**

a.	Type of construction & design	RCC load bearing structure on pillar beam column and 9" brick walls and iron grids intact at the roof	
b.	Method of construction	Regular masonry construction using standard quality material	
c.	Specifications		
	a. Class of construction	Class C construction (Simple/ Average)	
	b. Appearance/ Condition of structures	Internal -Ordinary	
		External -Ordinary	
	c. Roof	<b>Floors/ Blocks</b>	<b>Type of Roof</b>
		Main Building	RCC
	d. Floor height	12 ft	
	e. Type of flooring	Kota stone, PCC	
	f. Doors/ Windows	Wooden frame & panel doors	
	g. Interior Finishing	Simple Plastered Walls	
	h. Exterior Finishing	Simple plastered walls	
	i. Interior decoration/ Special architectural or decorative feature	Simple plain looking structure.	
	j. Class of electrical fittings	External/ Normal quality fittings used	
	k. Class of sanitary & water supply fittings	Internal/ Normal quality fittings used	
d.	Maintenance issues	Yes building requires some maintenance	
e.	Age of building/ Year of construction	Approx. 35 years	Around year-1988
f.	Total life of the structure/ Remaining life expected	Approx. 30-35 years	Approx. 30-35 years subject to proper and timely maintenance
g.	Extent of deterioration in the structure	No major deterioration came into notice, only normal wear & tear	
h.	Structural safety	Appears to be structurally stable	
i.	Protection against natural disasters viz. earthquakes etc.	Since this is a RCC structure so should be able to withstand moderate intensity earthquakes. Comments are been made only based on visual observation and not any technical testing.	
j.	Visible damage in the building if any	No visible damages in the structure	
k.	System of air conditioning	No Aircondition installed	
l.	Provision of firefighting	No firefighting system installed	
m.	Status of Building Plans/ Maps	Cannot comment since no approved map given to us	
	6. Is Building as per approved Map	Cannot comment since no approved map given to us	
	7. Details of alterations/ deviations/ illegal construction/ encroachment noticed in	<input type="checkbox"/> Permissible Alterations	NA
		<input type="checkbox"/> Not permitted alteration	NA

	the structure from the original approved plan		
	8. Is this being regularized	No information provided	

<b>10.</b>	<b>ENVIRONMENTAL FACTORS:</b>		
a.	Use of environment friendly building materials like fly ash brick, other Green building techniques if any	Not known to us	
b.	Provision of rainwater harvesting	No	
c.	Use of solar heating and lighting systems, etc.	No	
d.	Presence of environmental pollution in the vicinity of the property in terms of industries, heavy traffic, etc. if any	Yes, normal vehicular pollution present	

<b>11.</b>	<b>ARCHITECTURAL AND AESTHETIC QUALITY OF THE PROPERTY:</b>		
a.	Descriptive account on whether the building is modern, old fashioned, etc., plain looking or with decorative elements, heritage value if applicable, presence of landscape elements, etc.	Old fashioned	

<b>12.</b>	<b>VALUATION:</b>		
i.	Methodology of Valuation – Procedures adopted for arriving at the Valuation	Please refer to <b>Sub-Point 'n' of Point 1 of Part C: Valuation Assessment Factors</b> of the report.	
ii.	Prevailing Market Rate/ Price trend of the Property in the locality/ city from property search sites	Please refer to the <b>Sub-Point 'o' of Point 1 of Part C: Valuation Assessment Factors</b> of the report and the screenshot annexure in the report.

f.	Property location category factor	City Categorization	Locality Categorization	Property location classification	Floor Level
		Metro City	Average	Normal location within locality	G+2
		Urban Developed	Within urban developed area	2 Side Open	
				None	
		Property Facing	North-East Facing		
g.	Any New Development in surrounding area	None		---	
h.	Any specific advantage/ drawback in the property	None			
i.	Overall property usability Factor	Normal			
j.	Comment on Property Salability Outlook	Easily sellable			
k.	Comment on Demand & Supply in the Market	Good demand of such properties in the market.			
l.	Any other aspect which has relevance on the	NA			

	value or marketability of the property	<p>Valuation of the same asset/ property can fetch different values under different circumstances &amp; situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly an asset sold directly by an owner in the open market through free market transaction then it will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it, will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing.</p> <p>This Valuation report is prepared based on the facts of the property &amp; market situation on the date of the survey. It is a well-known fact that the market value of any asset varies with time &amp; socio-economic conditions prevailing in the country. In future property market may go down, property conditions may change or may go worse, property reputation may differ, property vicinity conditions may go down or become worse, property market may change due to impact of Govt. policies or effect of World economy, usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk while financing.</p>
m.	Sale transaction method assumed	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.
n.	Best Sale procedure to realize maximum Value	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.
o.	Methodology/ Basis of Valuation	<p><b>Govt. Guideline Value:</b> Circle rates of Delhi(2020-21)</p> <p><b>Market Value:</b> Land Value is calculated on the basis of 'Market Comparable Sales approach' and Building construction value is calculated on the basis of 'Depreciated Replacement Cost approach'</p> <p><i>Valuation of the asset is done as found on as-is-where basis.</i></p> <p><i>Valuation is done based on the Valuation best practices, standard operating procedures and definitions prescribed by various organizations like IVSC, Income Tax of India, etc. as defined under.</i></p> <p><i>For knowing comparable market rates, significant discreet local enquiries have been made from our side representing ourselves as both buyer and seller for the similar properties in the subject area and thereafter based on this information and various factors of the property, a rate has been judiciously taken considering the market scenario.</i></p> <p><i>References regarding the prevailing market rates are based on the verbal/ informal/ secondary/ tertiary information collected during market survey in the subject area from the local people, property consultants, recent deals, demand-supply, internet postings which are relied upon. No written record is generally available for such market information and only the verbal information has to be relied upon.</i></p>

*Market Rates are rationally adopted based on the facts of the property that came to our knowledge during the course of the assignment considering many factors like nature of the property, size, location, approach, market situation and trends.*

*The indicative value has been suggested based on the prevailing market rates that came to our knowledge during secondary & tertiary market researches and does not split into formal & informal payment components.*

*Secondary/ Tertiary costs related to asset transaction like Stamp Duty, Registration charges, Brokerage, Bank interest, selling cost, marketing cost, etc. pertaining to the sale/ purchase of this property are not considered while assessing the indicative estimated Market Value.*

*This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Fair Market Value. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.*

*Construction rates are adopted based on the present market replacement cost of construction and calculating applicable depreciation & deterioration factor as per its existing condition & specifications based on only visual observation of the structure. No structural, physical tests have been carried out in respect of it.*

*Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method.*

*The condition assessment and the estimation of the residual economic life of the structure is only based on the visual observations and appearance found during the site survey. We have not carried out any structural design or stability study; nor carried out any physical tests to assess structural integrity & strength.*

*Sale transaction method of the asset is assumed as free market transaction while assessing Indicative & Estimated Fair Prospective Market Value of the asset.*

*Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset has not been factored in the Valuation.*

*This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is not investigative in nature*

***Fair Market Value<sup>#</sup>*** suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him related to the subject asset at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, after proper marketing, wherein the parties, each acted knowledgeably, prudently and without any compulsion on the date of the Valuation.

*Forced, under compulsion & constraint, obligatory sales transactions data doesn't indicate the Fair Market Value.*

***Realizable Value<sup>^</sup>*** is the minimum prospective estimated value of the property which it may be able to realize at the time of actual property transaction factoring in the potential prospects of deep negotiations carried out between the buyer & seller for ultimately finalizing the transaction across the table. Realizable value may be 10-20%

less than the Fair Market Value depending on the various salability prospects of the subject property and the needs of the buyer & the seller.

**Forced/ Distress Sale Value\*** is the value when the property has to be sold due to any compulsion or constraint like financial encumbrances, dispute, as a part of a recovery process, any defect in the property, legal issues or any such condition or situation. In this type of sale, minimum fetch value is assessed which can be 25-40% less than the estimated Fair Market Value based on the nature, size & salability prospects of the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness & pressure of selling the property is more than buying it. Therefore the Forced/ Distress Sale Value will always fetch significantly less value compare to the estimated Fair Market Value.

**Liquidation Value** is the amount that would be realized when an asset or group of assets are sold on a piecemeal basis that is without consideration of benefits (or detriments) associated with a going-concern business. Liquidation value can be either in an orderly transaction with a typical marketing period or in a forced transaction with a shortened marketing period.

**Difference between Cost, Price & Value:** Generally these words are used and understood synonymously. However in reality each of these has a completely different meaning, premise and also having different definitions in the professional & legal terms. Therefore to avoid confusion, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.

The **Cost** of an asset represents the actual amount spend in the construction/ actual creation of the asset.

The **Price** is the amount paid for the procurement of the same asset.

The **Value** is defined as the present worth of future rights in the property/ asset and depends to a great extent on combination of various factors such as demand and supply, market situation, purpose, situation & needs of the buyer & seller, saleability outlook, usability factor, market perception & reputation. needs of the buyer & seller, saleability outlook, usability factor, market perception & reputation.

Therefore in actual for the same asset/ property, cost, price & value remain different since these terms have different usage & meaning.

p. References on prevailing market Rate/Price trend of the property and Details of the sources from where the information is gathered (from property search sites & local information):

i.	Name:	Karol Bagh Properties
	Contact No.:	+91-9899958557
	Nature of reference:	Property Consultant
	Size of the Property:	Not Specified
	Location:	Block 9 and Block 14
	Rates/ Price informed:	Rs.6,00,00,000/- for 134 sq.yds
	Any other details/ Discussion held:	As per the discussion we came to know the following information :- The Availability of Plot size greater than 200 sq.yds is less and plot of size 100-150 are easily available. the rate resides in b/w Rs.3,75,000/- to Rs.4,42,000/- per sq.yds in the Area.
ii.	Name:	Sharma Property Associates
	Contact No.:	09350522746
	Nature of reference:	Property Consultant
	Size of the Property:	200 sq.yds
	Location:	WEA Karol Bagh

iii.	Rates/ Price informed:	Rs.3,50,000/- to Rs.4,20,000/-.
	Any other details/ Discussion held:	A plot of size 163 sq yds is available in the subject locality for 6,00,00,000/-
	Name:	Kundan Property
	Contact No.:	+919810002632
	Nature of reference:	Property consultant
	Size of the Property:	200 sq.yds
	Location:	WEA Karol Bagh
	Rates/ Price informed:	Rs.7,00,00,000/-
	Any other details/ Discussion held	The property that the concern person discussed about has lease hold Rights for the Land so the prices were around 3,00,000 to 3,50,000/- which is less as compare to the free hold land property.

**NOTE:** The given information above can be independently verified to know its authenticity.

q.	<b>Adopted Rates Justification</b>	<p>As per the verbal and telephonic discussion with market participants of subject property we came to know the following information: -</p> <ul style="list-style-type: none"> <li>The prevailing land rate in the subject locality depends upon the size, shape, frontage, approach road width, distance from main road &amp; location of the plot.</li> <li>No such plots of size 400 sq.yds or above is available for sale in W.E.A. Karol Bagh and for large size plots two or more needs to be purchased and then merged.</li> <li>Prevailing land rates for small plots in subject locality of Karol Bagh is between Rs.3,50,000/- per sq.yds to Rs.4,25,000/- per sq.yds for the free hold property.</li> <li>The rate for the small Lease Hold Land property in the subject Locality is B/w Rs.3,30,000/- to Rs.3,75,000/- per sq.yds.</li> <li>The demand for residential plots in subject locality is good.</li> </ul> <p>As the subject property is a merged 2 side corner plot having land area approx. 425.33 sq.yds and the subject plots are lease hold land. Keeping the large size, location and constitution of the property we are of the view that the appropriate rate range of the subject property should be between Rs.3,00,000/- to Rs.3,50,000/- per sq.yds. and for valuation we have adopted land rate of <b>3,25,000/- per sq.yds.</b> which seems reasonable in our opinion.</p>

**VALUER'S REMARKS - ANNEXURE IX**

a)	This Valuation report is prepared based on the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. Verification or cross checking of the documents provided to us from the originals has not been done at our end.
b)	Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents, etc. have to be taken care by legal expert/ Advocate and same are not done at our end. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report.
c)	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work.
d)	Value varies with the Purpose/ Date/ Condition prevailing in the market. We recommend not to refer the indicative & estimated prospective Value of the asset given in this report if any of these points are different from the one mentioned aforesaid in the Report. We also recommend that the indicative estimated Value in the Valuation Report holds good only upto the period of 3 months from the date of Valuation.
e)	This report is having limited scope as per its fields & format to provide only the general basic idea of the value of the property prevailing in the market based on the documents/ data/ information provided by the client. The suggested indicative prospective estimated value should be considered only if transaction is happened as free market transaction.
f)	This Valuation report is prepared based on the facts of the property on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the country. In future property Market may go down, property conditions may change or may go worse, Property reputation may differ, Property vicinity conditions may go down or become worse, Property market may change due to impact of Govt. policies or effect of World economy, Usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk and should loan conservatively to keep the advanced money safe in case of the downward trend of the property value.
g)	Valuation of the same asset/ property can fetch different values in different situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly an asset sold directly by an owner in the market will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it will fetch lower value. Hence before financing, Banker/ FI should take into consideration all such future risks and should loan conservatively to keep the advanced money safe in case of any such situation.
h)	Getting cizra map or coordination with revenue officers for site identification is not done at our end.
i)	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just cross verified the identification of the property with reference to the documents produced for perusal. Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be carried out. It is requested from the Bank to cross check from their own records/ information if this is the same property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or misrepresented the property due to any vested interest.
j)	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities & districts where property number is either not assigned or not displayed on the properties clearly and also due to the presence of multiple/ parallel departments due to which ownership/ rights/ illegal possession/ encroachment issues are rampant across India and due to these limitations at many occasions it becomes tough to identify the property with 100% surety from the available documents, information & site whereabouts and thus chances of error, misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error it is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents are provided.
k)	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township must be approved in all respect.
l)	Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro

	and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough to determine the exact lawful situation on ground for the Valuer. In case nothing specific is noted on the covered built-up area considered in the Valuation Report, the covered area present on the site as per site survey will be considered in the Valuation.
m)	Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion.
n)	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However our Valuation analysis can definitely help the stakeholders to make them informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction.
o)	This report is prepared on the RKA V-L3 (Medium) Valuation format as per the client requirement and scope of work. This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of the property prevailing in the market based on the information provided by the client. No detailed analysis, audit or verification has been carried out of the subject property.
p)	This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/ Bank/ Financial Institution which is using this report for mortgaging the property that they should consider all the different associated relevant & related factors & risks before taking any business decision based on the content of this report.
