PE	Axial Machine additional ANVIL unit spares	Machinery/ Tools/	18.7 K USD (+Applicable Govt Taxes)	New Model setup

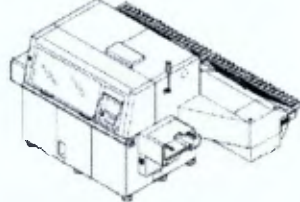

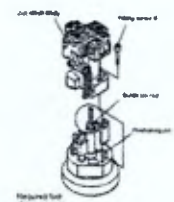

Purpose/ Detail

We have Axial machine at both line , This machine is used to insert and clinch Axial component , clinching issue is very frequent in these machines and it Requires long time to adjust clinching angle and setting because of very small and precise assembly.

So if we keep additional ANVIL assembly Spares in ready condition so that if clinching issue come , can be replaced with ok ANVIL Critical item with long delivery time.

Benefit

- Requirement for PCB Line
- During Axial machine breakdown we can make ready additional unit hence repair time will be less .
