	Area adopted on the basis of	Property documents & site survey both
	Remarks & observations, if any	None
3.	Prevailing market rate (Along with details /reference of at least two latest deals/transactions with respect to adjacent properties in the areas)	References on prevailing market Rate/ Price trend of the property and Details of the sources from where the information is gathered (from property search sites & local information) 1. Name: Realstar Property (Property Consultant) Contact No.: +91-9412051495 Size of the Property: Approx. 150 sq.yds. Rates/ Price informed: Rs.25,000/- to Rs.26,000/- per sq.yds. Comment: As per the discussion held with the above mentioned property dealer we came to know that the rates for residential land in the concerned area is between Rs.24,000/- to Rs.25,000/- per sq.yds. The rates for residential land in the area completely depends on the size of the property and width of the road the property is situated on.
		2. Name: Pratap Dealers (Property Consultant) Contact No.: +91-8630218641 Size of the Property: Approx. 200 sq.yds Rates/ Price informed: Rs.25,000/- to Rs.27,000/- per yds. Comment: As per the discussion held with the above mentioned property dealer we came to know that the rates for commercial shops in the concerned area is between Rs.25,000/- to Rs.27,000/- per sq.yds. As per our discussion with habitants & market participants of the subject locality we came to know the following information: - 1. The prevailing land rate in the subject locality

		depends on the size, shape, frontage, approach road width, location and usage of the property. 2. The prevailing land rate for residential plot in subject locality is between Rs.24,000/- to Rs.27,000/- per sq.yds 3. The demand for the residential property in the locality is good because it is a developing residential area. 4. The subject locality has a good proximity to civic amenities and transportation facility. 5. The demand & supply for residential plots in the subject locality is moderate As the subject property is a medium size residential plot having very less frontage as compared to its depth Thus, keeping all the factors in mind (less frontage), we have adopted the rate of Rs.24,000/- per sq.yds. which seems reasonable in our opinion.
3.	Guideline rate obtained from the Registrar's office (an evidence thereof to be enclosed)	Rs.13,000/- per sq.mtr Guideline value: Land: 183.94 sq.mtr. X Rs.13,000/- sq.mtr. = Rs.23,91,220/-
4.	Assessed / adopted rate of valuation	Rs.24,000/- per sq.yds
5.	Estimated value of land (A)	Market Value: Land: 219.9 sq.yds X Rs.24,000/- per sq.yds = Rs.52,77,600/-

ENCLOSURE: VI - VALUER'S REMARKS

MR. SURESH GOYAL

Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ 12. guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough to determine the exact lawful situation on ground for the Valuer. In case nothing specific is noted on the covered built-up area considered in the Valuation Report, the covered area present on the site as per site survey will be considered in the Valuation. 13. Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion. 14 Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However our Valuation analysis can definitely help the stakeholders to make them informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction. 15. This report is prepared on the RKA V-L1 (Basic) Valuation format as per the client requirement and scope of work. This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of the property prevailing in the market based on the information provided by the client. No detailed analysis. audit or verification has been carried out of the subject property. 16 This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/ Bank/ Financial Institution which is using this report for mortgaging the property that they should consider all the different associated relevant & related factors & risks before taking any business decision based on the content of this report. All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report is 17. without stamp & signature then this should not be considered a valid paper issued from this office. 18 Defect Liability Period is 30 DAYS. We request the concerned authorized reader of this report to check the contents, data and calculations in the report within this period and intimate us in writing if any corrections are required or in case of any other concern with the contents or opinion mentioned in the report. Corrections only related to typographical, calculation, spelling mistakes will be entertained within the defect liability period. No request for any illegitimate value revision, date change or any other change will be entertained other than the one mentioned above. 19. R.K Associates encourages its customers to give feedback or inform concerns over its services through proper channel at valuers@rkassociates.org in writing within 30 days of report delivery. After this period no concern/ complaint/ proceedings in connection with the Valuation Services can be entertained due to possible change in situation and condition of the property. 20 Our Data retention policy is of ONE YEAR. After this period we remove all the concerned records related to the assignment from our repository. No clarification or query can be answered after this period due to unavailability of the data.
