Name:</b> Mr. Shuvam (Property Consultant)  <b>Contact No.:</b> +91-9810075634  <b>Size of the Property:</b> Approx. 25,000 sq.mtr  <b>Rates/ Price informed:</b> Rs.5,000/- to Rs.5,500/- sq.mtr.  <b>Comment:</b> As per the discussion held with the above mentioned property dealer we came to know that the rates in the concerned area is Rs.5,000/- to Rs.5,500/- sq. mtr. for industrial land.</p> <p><b>2. Name:</b> SR Properties (Property Consultant)  <b>Contact No.:</b> +91-9810877866  <b>Size of the Property:</b> Approx. 30,000 sq. mtr  <b>Rates/ Price informed:</b> Rs.4,000/- to Rs.5,000/- sq.mtr.  <b>Comment:</b> As per the discussion held with the above mentioned property dealer we came to know that the rates in the concerned area is 4,500/- to Rs.5,000/- per sq. mtr. for industrial land away from main G.T. road and on main G.T. road the rates are about Rs.7,000/- to Rs.8,000/- per sq.mtr.</p> <p>As per our discussion with market participants and habitants of the subject locality we came to know the following information: -</p> <ol style="list-style-type: none"> <li>1. The prevailing land rate in the subject locality depends on the size, shape, frontage, approach road width, location.</li> <li>2. The subject locality is an old established industrial area of U.P.S.I.D.C, Sikandrabad.</li> </ol>

		<p>3. The prevailing market rate for the industrial land located within vicinity of subject land is ranging in between Rs.4,000/- to Rs.5,000/- per sq.mtr.</p> <p>4. The supply of the Industrial land in this area is good while demand is average as well.</p> <p>5. The circle rate in the subject locality is Rs.3,400/- per sq.mtr.</p> <p>As the subject property has very large land area and can be clearly approached from 50 ft. wide road. Therefore, considering all the above mentioned facts like size, shape, demand &amp; Supply gap, location, we are on the view that market rate for the subject land parcel would be Rs.4,500/- per sq.mtr. which we seems is reasonable.</p>
3.	Guideline rate obtained from the Registrar's office (an evidence thereof to be enclosed)	Guideline value: Land: 33428 sq.mtr X Rs.3,400/- per sq.mtr <b>= Rs.11,36,55,200/-</b>
4.	Assessed / adopted rate of valuation	<b>Rs.4,500/- per sq.mtr</b>
5.	Estimated value of land (A)	Market Value: Land: 33428 sq.mtr X Rs.4,500/- per sq.mtr <b>= Rs.15,04,26,000/-</b>

are very large so all the covered area details are taken as per the architectural map provided to us by the company in good faith only.

3. Presently the property market is not under a free market condition due to Covid Pandemic disruption. Currently, as per the micro & macro market research, the demand for property is weak and the enquiries and the transactions are negligible. In these uncertain times, people are likely to be very cautious in their expenditures in general and are and will be averse to lock up their available liquidity in the acquisition of fixed assets like property. A potential buyer of property if any, may consider acquiring a property only if he gets a really good bargain, at a substantial discount to the rates prevailing before the Covid Pandemic. Thus the Realizable Value in this Report has been adopted based on this consideration.
4. ## ENCLOSURE: IX – VALUER'S REMARKS

1.	This Valuation report is prepared based on the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. Verification or cross checking of the documents provided to us from the originals has not been done at our end.
2.	Legal aspects for eg. Investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents, etc. have to be taken care by legal expert/ Advocate and same are not done at our end. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report.
3.	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work.
4.	Value varies with the Purpose/ Date/ Condition prevailing in the market. We recommend not to refer the indicative & estimated prospective Value of the asset given in this report if any of these points are different from the one mentioned aforesaid in the Report. We also recommend that the indicative estimated Value in the Valuation Report holds good only upto the period of 3 months from the date of Valuation.
5.	This report is having limited scope as per its fields & format <u>to provide only the general basic idea of the value of the property prevailing in the market</u> based on the documents/ data/ information provided by the client. The suggested indicative prospective estimated value should be considered only if transaction is happened <u>as free market transaction</u> .
6.	This Valuation report is prepared based on the facts of the property on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the country. In future property Market may go down, property conditions may change or may go worse, Property reputation may differ, Property vicinity conditions may go down or become worse, Property market may change due to impact of Govt. policies or effect of World economy, Usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk and should loan conservatively to keep the advanced money safe in case of the downward trend of the property value.
7.	Valuation of the same asset/ property can fetch different values in different situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly an asset sold directly by an owner in the market will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it will fetch lower value. Hence before financing, Banker/ FI should take into consideration all such future risks and should loan conservatively to keep the advanced money safe in case of any such situation.
8.	Getting cizra map or coordination with revenue officers for site identification is not done at our end.
9.	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just cross verified the identification of the property with reference to the documents produced for perusal. Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be carried out. It is requested from the Bank to cross check from their own records/ information if this is the same property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or misrepresented the property due to any vested interest.
10.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities & districts where property number is either not assigned or not displayed on the properties clearly and also due to the presence of multiple/ parallel departments due to which ownership/ rights/ illegal possession/ encroachment issues are rampant across India and due to these limitations at many occasions it becomes tough to identify the property with 100% surety from the available documents, information & site whereabouts and thus chances of error, misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error it is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents are provided.
11.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township must be approved in all respect.

## VALUATION ASSESSMENT

M/S. APL APOLLO TUBES LTD. | SIKANDRABAD PLANT |

12.	Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough to determine the exact lawful situation on ground for the Valuer. In case nothing specific is noted on the covered built-up area considered in the Valuation Report, the covered area present on the site as per site survey will be considered in the Valuation.
13.	Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion.
14.	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However our Valuation analysis can definitely help the stakeholders to make them informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction.
15.	This report is prepared on the RKA V-L1 (Basic) Valuation format as per the client requirement and scope of work. This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of the property prevailing in the market based on the information provided by the client. No detailed analysis, audit or verification has been carried out of the subject property.
16.	This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/ Bank/ Financial Institution which is using this report for mortgaging the property that they should consider all the different associated relevant & related factors & risks before taking any business decision based on the content of this report.
17.	All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report is without stamp & signature then this should not be considered a valid paper issued from this office.
18.	Defect Liability Period is <b>30 DAYS</b> . We request the concerned authorized reader of this report to check the contents, data and calculations in the report within this period and intimate us in writing if any corrections are required or in case of any other concern with the contents or opinion mentioned in the report. Corrections only related to typographical, calculation, spelling mistakes will be entertained within the defect liability period. No request for any illegitimate value revision, date change or any other change will be entertained other than the one mentioned above.
19.	R.K Associates encourages its customers to give feedback or inform concerns over its services through proper channel at <b>valuers@rkassociates.org</b> in writing within 30 days of report delivery. After this period no concern/ complaint/ proceedings in connection with the Valuation Services can be entertained due to possible change in situation and condition of the property.
20.	Our Data retention policy is of <b>ONE YEAR</b> . After this period we remove all the concerned records related to the assignment from our repository. No clarification or query can be answered after this period due to unavailability of the data.
21.	This Valuation report is governed by our (1) Internal Policies, Processes & Standard Operating Procedures, (2) R.K Associates Quality Policy, (3) Valuation & Survey Best Practices Guidelines formulated by management of R.K Associates, (4) Information input given to us by the customer and (4) Information/ Data/ Facts given to us by our field/ office technical team. Management of R.K Associates never gives acceptance to any unethical or unprofessional practice which may affect fair, correct & impartial assessment and which is against any prevailing law. In case of any indication of any negligence, default, incorrect, misleading, misrepresentation or distortion of facts in the report then it is the responsibility of the user of this report to immediately or at least within the defect liability period bring all such act into notice of R.K Associates management so that corrective measures can be taken instantly.
22.	R.K Associates never releases any report doing alterations or modifications by pen. In case any information/ figure of this report is found altered with pen then this report will automatically become null & void.
