	Address and Phone no. of the owner/s				
5.	Brief description of the property	having total land a sq.yds.)  The identification of	y situated at the area admeasuring of the property is	prepared for the e aforesaid address (390.47 sq.mtr/ 467 done with the help of the property is done	
		on as-is where-is basis.  The property details like ownership, address, and land			
		area has been take 2020, provided to u a free hold resident	en on the basis on the basis on the bank. The tial property.	f TIR Dated – 17-02- ne subject property as	
		During our site vis	sit we have obse	rved that the subject	

property is 100% covered. But as pert the permissible FAR for residential building the FAR is 1.6. So, in this valuation report we have adopted the covered area of the subject property as per Haryana building bylaws.

In year 2014 Gurugram-Sohna-Nuh-Alwar road was declared as National Highway No. 248A vide Government of India notification dated 04.03.2014 was entrusted to Haryana PWD B&R which was subsequently entrusted to NHAI in year 2016. However subsequently in year 2018, proposal of 4-laning of Sohna- Nuh- Alwar has been dropped since Ministry of Road, Transport & Highways has proposed development of Delhi-Vadodara Greenfield Expressway which will run parallel to Sohna- Nuh- Alwar road (NH-248A).

Ever since announcement of Gurugram-Sohna-Nuh-Alwar road as National Highway in 2014 has sentimentally increased the real estate market to all time high due to expected future development in the nearby areas. The subject property is just ~300 mtrs away from this road stretch and therefore in 2015-16 real estate market was on upscale in this region.

However subsequently due to cancellation of making this stretch to 4 lane and due to announcement of other highways and stretches like Delhi-Vadodara Greenfield Expressway, KMP expressway this location has lost the real estate shine which was there in 2015-16 when the previous valuation was conducted. Also development which was expected to come alongside highway Gurugram-Sohna-Nuh-Alwar was transferred to some other places which further dent the real estate market of this region.

The subject property is located in the developing area of Firozpur Jhirka, Mewat (Nuh) and can be clearly approached from Colony Road which is Approximately 15 ft. wide & is approximately 250 meters away from main Nuh road.

This report only contains general assessment & opinion on the Guideline Value and the indicative, estimated Market Value of the property found on as-is-where basis on site for which the Bank/ customer has shown & asked us to conduct the Valuation for which photographs is also attached with the report. No legal aspects in terms of ownership or any other legal aspect is faken into

Name: Mr. Liyaqat. (Property Consultant)
		Contact No.: +91-9728375486 Size of the Property: Approx. 400 sq. yds. Rates/ Price informed: Rs.10,000/-to Rs.15,000/-per sq. yds.  Comment: As per our discussion, we came to know that the rates within vicinity of subject vicinity residential land is ranging between; Rs.8,000/-to Rs.12,000/- per sq. yds.
		<ol> <li>Name: Local Resident         Contact No.:         Size of the Property: Approx. 450 sq.yds.         Rates/ Price informed: Around Rs.12,000/- to         Rs.16,000/- per sq.yds.</li> <li>Comment: As per our discussion, we came to know that         the rates within vicinity of subject vicinity residential land         is ranging between; Rs.12,000/-to Rs.16,000/- per sq.         yds. The rates for residential plot is higher on main GMS         road.</li> </ol>
5		As, per our discussion with local habitant & market participant of the subject locality we came to know the following information:  1. Prevailing rate for residential plot in subject locality depends on size, shape, facing, approach road, width & distance of property from main road.  2. Prevailing market rate for residential plot in
		subject locality is ranging between Rs. 10,000 to Rs. 16,000/- per sq.yds.  3. The subject property is located in developing area of Firozpur Jhirka, District – Haryana.  4. The demand of the land in this locality is average

		and vacant plots are available in subject vicinity.  5. The circle rate of the subject vicinity is Rs. 4,000/-sq. yds.
		Keeping all the above mentioned points, factors like (size, Shape & location) into the consideration, we have adopted the rate of <b>Rs.15,000/- per sq.yds.</b> Which seems to be reasonable in our view.
4.	Circle rate obtained from the Registrar's office	Guideline Rate: Rs.4,000/- per sq.yds
	(an evidence thereof to be enclosed)	Land: 467 sq.yds X Rs.4,000/- per sq.yds
		= Rs.18,68,000/-
5.	Assessed / adopted rate of valuation	Rs.15,000/- per sq.yds.
6.	Estimated value of land(A)	Market Value:
		Land: 467 sq.yds X Rs.15,000/- per sq.yds
		= Rs.70,05,000/-

# (RUPEES ONE CORE FORTY ONE LAKHS ONLY)

i.	Justification for more than 20% difference in Market & Circle Rate	Circle rates are determined by the District administration as per their own theoretical internal policy and Market rates are adopted based on current practical market dynamics which is explained clearly in Valuation Assessment Factors
ii.	Concluding comments & Disclosures if any	<ol> <li>The covered area of the subject property is taken as per the permissible FAR of Haryana Urban Development Authority. Since the property is 100% covered at site.</li> <li>R.K Associates has conducted the valuation of this property in 2015 also. Reasons attributed for change in valuation from previous valuation is as follows:</li> <li>In year 2014 Gurugram-Sohna-Nuh-Alwar road was declared as National Highway No. 248A vide Government of India notification dated 04.03.2014 was entrusted to Haryana PWD B&amp;R which was subsequently entrusted to NHAI in year 2016. However subsequently in year 2018, proposal of 4-laning of Sohna-Nuh- Alwar has been dropped since Ministry of Road, Transport &amp; Highways has proposed development of Delhi-Vadodara Greenfield Expressway which will run parallel to Sohna- Nuh- Alwar road (NH-248A).</li> </ol>

- 4. Ever since announcement of Gurugram-Sohna-Nuh-Alwar road as National Highway in 2014 has sentimentally increased the real estate market to all time high due to expected future development in the nearby areas. The subject property is just ~300 mtrs away from this road stretch and therefore in 2015-16 real estate market was on upscale in this region.
- 5. However subsequently due to cancellation of making this stretch to 4 lane and due to announcement of other highways and stretches like Delhi-Vadodara Greenfield Expressway, KMP expressway this location has lost the real estate shine which was there in 2015-16 when the previous valuation was conducted. Also development which was expected to come alongside highway Gurugram-Sohna-Nuh-Alwar was transferred to some other places which further dent the real estate market of this region.
- 6. Further on top of this, events such as demonetization, GST implementation and Covid in between 2016 to 2021 has drastically changed the real estate market specially for the high value properties in Scale B/C cities and town areas where cash transaction use to be a major component in the deal. Post demonetization and GST implementation and Covid the scenario has changed and demand for such kind of high value, large properties plunged since the target customers got reduced and more so due to cash crunch in the market.
- 7. All this forced for a realistic market price correction during last few years in this location where earlier in 2015-16 people were asking the prices as per their terms but now they have been more realistic in their demands due to above conditions.
- 8. Also in 2015 the valuation of the property including its construction was done on as-is-where basis considering the complete built-up area of 12465 sq.ft. However now due to the road widening information in the subject area the built-up area has been taken up as per the permissible FSI also more so because of change in institutional guidelines also for taking only either approved FSI or permissible FSI which was not in practice earlier for such kind of properties situated in unplanned areas. Therefore in the current valuation the area considered for valuation is 6724.80 sq. ft. whereas earlier it was 12465 sq.ft. due to which also the difference in valuation is coming. Also depreciation charged on the construction for 6-7 years has further reduced the value.
- 9. The identification is done by the owner's representative only and the valuation is given for the property which was shown to us at site on as-is-where-is basis.
- 10. This Valuation report is prepared based on the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct.

guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ Jayout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough to determine the exact lawful situation on ground for the Valuer. In case nothing specific is noted on the covered built-up area considered in the Valuation Report, the covered area present on the site as per site survey will be considered in the Valuation. 13. Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion. Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However our Valuation analysis can definitely help the stakeholders to make them informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction. This report is prepared on the RKA V-L1 (Basic) Valuation format as per the client requirement and scope of work. 15.
