Date of Site Visit	24-06-2021
Date of Valuation Report	20-07-2021

1.		Property Details			
i.	Address	Unit No.04, Ground Floor, Mani Villa Building on Municipal Premises No. 40 (Previously 40/34), Diamond Harbour Road, Behala, Mouza Shahpur, District South 24-Parganas, Kolkata, West Bengal			
ii.	Nearby Landmark	Near DAV Public School			
iii.	Google Map	Enclosed with the Report Coordinates or URL: 22°30'37.2"N 88°19'22.0"E			
iv.	Independent access to the property	Clear independent access is available			
v.	Type of ownership	Company owned as per copy of Legal Report			
vi.	Constitution of the Property	Free Hold as per the documents provided to us			
vii.	Is the property merged or colluded with any other property	No, its an independent singly bounded property No			
2.	Document Details	Status	Name of Approving Auth.		Approval No.
i.	Layout Plan	No information provided	---		---
ii.	Building plan	No information provided	---		---
iii.	Construction Permission	No information provided	---		---
iv.	Legal Documents	Available	Tenancy Agreement	Agreement of Nomination	Legal Report
3.	Physical Details of the Property				
i.	Adjoining Properties	Directions	As per Sale Deed/TIR		Actual found at Site
		North	Partly by premises no.102, diamond Harbour Road & partly land owned by Mr. Somnath Dey		Residential Apartments
		South	Partly by premises no. 90/31 Premises No.18B		Residential Apartments
		East	James Long Sarani Road		Road James Long Saroni
		West	15 ft. wide passage		Residential Apartments/ Passage
ii.	Are Boundaries matched	Yes			
iii.	Plot demarcation	Not applicable since subject property is a commercial unit as per the tenancy agreement			
iv.	Approved land Use	Group Housing Society as per property documents			

v.	Type of Property		Commercial Property as per the copy of tenancy agreement		NA
vi.	No. of bed rooms	Living/ Dining area	Toilets	Kitchen	Other rooms
	00	00	01	00	01-Main Room 01-Small Room
vii.	Total no. of floors of the property		B+G+5 (as per previous valuation report)		
viii.	Floor on which the property is located		Ground Floor		
ix.	Approx. age of the property		Approx. 32 Years		
x.	Residual age of the property		Approx. 30-35 years subject to proper and timely maintenance		
xi.	Type of structure		RCC framed pillar, beam, column structure on RCC slab		
xii.	Condition of the Structure		Average		
xiii.	Finishing of the building		Average		
4.	Tenure/ Occupancy/ Possession Details				
i.	Property presently possessed/ occupied by		Vacant (only used for storage purpose)		
ii.	Status of Tenure		NA		
iii.	No. of years of occupancy		NA		
iv.	Relationship of tenant or owner		NA		
5.	Stage of Construction		Constructed property in use		
	If under construction then extent of completion		NA		
6.	Violation in the property				
	i. Violation if any observed	ii. Nature and extent of violation		iii. Any other negativity, defect or drawback in the property	
	Cannot comment since copy of approved building plans/map not provided to us	Cannot comment since copy of approved building plans/map not provided to us		None	

7.	AREA DETAILS OF THE PROPERTY		
i.	Land area (as per documents/ site survey, whichever is less) (Not considered since this is a Built-up Dwelling Unit Valuation)		
	Area as per documents	Area as per site survey	Area considered for Valuation
	NA	NA	NA
	Area adopted on the basis of	NA	
	Remarks & Observations	Not relevant in our case as it is a commercial unit sold on FAR/FSI basis.	
ii.	Built-up/Sellable Area Details		
	Area as per documents	Area as per site survey	Area considered for Valuation
	1031 sq.ft / 95.78 sq.mtr	936 sq.ft / 86.95 sq.mtr (Carpet Area)	1031 sq.ft / 95.78 sq.mtr
	Area adopted on the basis of	Property documents with sample measurement	
	Remarks & Observations	Area measurements considered in the Valuation Report pertaining to Building is adopted from relevant documents produced to us or actual site measurement, whichever is less.	

8.	VALUATION ASSESSMENT		
A.	ASSESSMENT FACTORS		
i.	Valuation Type	Built-up unit value (sold-purchased as a seperate dwelling unit)	Commercial Unit Value
ii.	Scope of the Valuation	To assess Plain Asset Valuation.	
iii.	Property Use factor	Current Use Storage Purpose	Highest & Best Use Commercial
iv.	Legality Aspect Factor	Assumed to be positive as per copy of documents & information produced to us. However Legal aspects of the property are out-of-scope of the Valuation Services.	

		Verification of authenticity of documents from originals or cross checking from any Govt. depts. have to be taken care by Legal expert/ Advocate.			
v.	Land Physical factors	Shape	Size	Level	Frontage to depth ratio
		Not Applicable	Not Applicable	Not Applicable	Not Applicable
vi.	Property location category factor	City Categorization	Locality Categorization	Property location classification	Floor Level
		Scale-B City	Good	Road Facing	Ground Floor
		Urban developing	Within urban developed area	None	
		Property Facing	South Facing	None	
vii.	Any New Development in surrounding area	None			
viii.	Any specific advantage/ drawback in the property	Under Liquidation			
ix.	Property overall usability Factor	Good			
x.	Comment on Property Saleability Outlook	Since the property is under liquidation, buyers will be motivated with this fact & property may not fetch its open market value.			
xi.	Comment on Demand & Supply in the Market	Although the supply is constant, due to market conditions demand is low in the market.			
xii.	Any other aspect which has relevance on the value or marketability of the property	NA We have considered market as efficient. This Valuation report is prepared based on the facts of the property & market situation on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the country. In future property market may go down, property conditions may change or may go worse, property reputation may differ, property vicinity conditions may go down or become worse, property market may change due to impact of Govt. policies or effect of World economy, usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk while financing.			
xiii.	Sale transaction method assumed	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.			
xiv.	Best Sale procedure to realize maximum Value	Liquidation Sale (orderly)			
xv.	Methodology/ Basis of Valuation	Govt. Guideline Value:Collector rates of West Bengal Market Value: Market Comparable Sales approach <i>Valuation of the asset is done as found on as-is-where basis.</i> <i>Valuation is done based on the Valuation best practices, standard operating procedures and definitions prescribed by various organizations like IVSC, Income Tax of India, etc. as defined under.</i> <i>For knowing comparable market rates, significant discreet local enquiries have been made from our side representing ourselves as both buyer and seller for the similar properties in the subject area and thereafter based on this information and various factors of the property, a rate has been judiciously taken considering the market scenario.</i> <i>References regarding the prevailing market rates are based on the verbal/ informal/ secondary/ tertiary information collected during market survey in the subject area from the local people, property consultants, recent deals, demand-supply, internet postings which are relied upon. No written record is generally available for such</i>			

market information and only the verbal information has to be relied upon.

Market Rates are rationally adopted based on the facts of the property that came to our knowledge during the course of the assignment considering many factors like nature of the property, size, location, approach, market situation and trends.

The indicative value has been suggested based on the prevailing market rates that came to our knowledge during secondary & tertiary market researches and does not split into formal & informal payment components.

Secondary/ Tertiary costs related to asset transaction like Stamp Duty, Registration charges, Brokerage, Bank interest, selling cost, marketing cost, etc. pertaining to the sale/ purchase of this property are not considered while assessing the indicative estimated Market Value.

This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Fair Market Value. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.

Construction rates are adopted based on the present market replacement cost of construction and calculating applicable depreciation & deterioration factor as per its existing condition & specifications based on only visual observation of the structure. No structural, physical tests have been carried out in respect of it.

Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method.

The condition assessment and the estimation of the residual economic life of the structure is only based on the visual observations and appearance found during the site survey. We have not carried out any structural design or stability study; nor carried out any physical tests to assess structural integrity & strength.

Sale transaction method of the asset is assumed as free market transaction while assessing Indicative & Estimated Fair Prospective Market Value of the asset.

Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset has not been factored in the Valuation.

This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is not investigative in nature.

Fair Market Value^{*} suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him related to the subject asset at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, after proper marketing, wherein the parties, each acted knowledgeably, prudently and without any compulsion on the date of the Valuation.

Forced, under compulsion & constraint, obligatory sales transactions data doesn't indicate the Fair Market Value.

Realizable Value[^] is the minimum prospective estimated value of the property which it may be able to realize at the time of actual property transaction factoring in the

		<p>potential prospects of deep negotiations carried out between the buyer & seller for ultimately finalizing the transaction across the table. Realizable value is less than the Fair Market Value depending on the various salability prospects of the subject property and the needs of the buyer & the seller.</p> <p>Liquidation Value The net amount that would be realized if a business is discontinued and its assets are sold individually. "LV is estimated realisable value of the assets of the CD if it were liquidated on the liquidation commencement date (LCD)."</p> <p>When the asset is sold in liquidation, sale value will always be less than fair value, since it depends on various factors such as type & future usage of asset, demand, prevailing site conditions & circumstances, mode of payment & transaction, general depression, negative sentiments, salvage value, as is where basis in case of land & building. Seller is official liquidator and the buyer may be motivated by the knowledge of the limitations of the seller under the circumstances. Since it is majorly as industrial usage limitation, the buyer would, essentially be already in the same business or be willing to enter the same line of business. Buyer will approach and search for similar attributes of property in primary & secondary market. Considering all the factors, location, market factors, ease of acquisition, Liquidation Value is estimated by discount and factoring unpaid liability on land component in Fair Value.</p> <p>The liquidator may sell</p> <p>(a) An asset on a standalone basis;</p> <p>(b) The assets in a slump sale;</p> <p>(c) A set of assets collectively;</p> <p>(d) The assets in parcels;</p> <p>(e) The corporate debtor as a going concern; or</p> <p>(f) The business(s) of the corporate debtor as a going concern</p> <p>Difference between Cost, Price & Value: Generally these words are used and understood synonymously. However in reality each of these has a completely different meaning, premise and also having different definitions in the professional & legal terms. Therefore to avoid confusion, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.</p> <p>The Cost of an asset represents the actual amount spend in the construction/ actual creation of the asset.</p> <p>The Price is the amount paid for the procurement of the same asset.</p> <p>The Value is defined as the present worth of future rights in the property/ asset and depends to a great extent on combination of various factors such as demand and supply, market situation, purpose, situation & needs of the buyer & seller, saleability outlook, usability factor, market perception & reputation. needs of the buyer & seller, saleability outlook, usability factor, market perception & reputation.</p> <p>Therefore in actual for the same asset/ property, cost, price & value remain different since these terms have different usage & meaning.</p>

	Rates/ Price informed:	Rs.5,000/- to Rs.6,000/- per sq.ft.																					
	Any other details/ Discussion held:	According to the property dealer, at present during the continuing Covid pandemic, there are virtually no inquiries for real estate or any transactions taking place. The market is in an uncertain state and it is																					

			<p>expected that the market rates will fall once the Pandemic subsides since there is a considerable loss to the economy and businesses due to the Pandemic and consequent lockdown and the sentiments among the general people are very weak and people will hesitate a lot to lock up their available liquidity in an illiquid asset like in real estate in this environment. Due to the ongoing pandemics the real estate market in all over India declines and the rates go down anywhere in the region of 5% to 10% or even upto 15% at some places.</p> <p>As per the conversation with the above interested seller we came to know that the rates in the subject Building called Mani Villa are around Rs.5,500/- to Rs.6,000/- per sq. ft. on super area for the commercial units.</p>
	2.	Name:	Ms. Juman Sen
		Contact No.:	+91-9163553374
		Nature of reference:	Property Consultant
		Size of the Property:	Approx. 1000 (Super Area)
		Location:	Mani Villa, Diamond Harbour Road, Calcutta
		Rates/ Price informed:	Rs.5,000/- to Rs.6,000/- per sq. ft.
		Any other details/ Discussion held:	<p>According to the property dealer, at present during the continuing Covid pandemic, there are virtually no inquiries for real estate or any transactions taking place. The market is in an uncertain state and it is expected that the market rates will fall once the Pandemic subsides since there is a considerable loss to the economy and businesses due to the Pandemic and consequent lockdown and the sentiments among the general people are very weak and people will hesitate a lot to lock up their available liquidity in an illiquid asset like in real estate in this environment. Due to the ongoing pandemics the real estate market in all over India declines and the rates go down anywhere in the region of 5% to 10% or even upto 15% at some places.</p> <p>As per the conversation with the above property dealer we came to know that the rates in the subject location are around Rs.5,500/- to Rs.6,000/- per sq. ft. on super area for the commercial units.</p>
	NOTE: Because of Covid pandemic situation, sale instances were relied with the above mentioned.		
xvii.	Adopted Rates Justification	<p>As per our telephonic discussion with market participants of the subject locality we came to know that the prevailing market rates in the concerned area for commercial units depends upon the following factors: -</p> <ol style="list-style-type: none"> 1. Age and construction quality of the society/ building 2. Amenities available in the society/ building. 3. Distance of the property from main road. 4. Approach road width. 5. Floor on which the property is located. <p>The rates disclosed by the property dealers for ground floor property in subject building is in between Rs.5,000/- per sq.ft. to Rs.6,000/- per sq.ft. in the present market condition.</p> <p>As the subject property is a commercial unit in multistory building and located on Ground floor in an old society. Keeping all the aspects into the consideration that may affect the rates of the subject property we have adopted the rates of Rs.5,000/- per sq. ft. on Super area which seems reasonable from our point of view.</p>	

	As per our discussion with the property dealers, we came to know that during this Covid Pandemic period there is virtually no enquiry either for sale or for purchase of any property and virtually no sale/ purchase is taking place since the Pandemic started. The real estate market is facing a very critical and uncertain phase. But according to these property dealers the rates quoted by them currently are for the Pre-Pandemic phase. According to them, because of the economic slowdown, losses suffered by businessmen, the loss of jobs or cuts in salaries of the salaried class and also the natural tendency of the people to conserve available liquidity instead of locking it up in an illiquid asset like property or other fixed assets during such economic prolonged, uncertain and distressful times. The demand for properties is expected to fall very significantly in the immediate aftermath of Covid Pandemic. The same is the opinion of a number of reputed real estate consultants who have released their reports on the likely impact on the Real Estate scenario because of disruption caused by the Covid-19 to the economy. Due to the ongoing pandemics the real estate market in all over India declines and the rates go down anywhere in the region of 5% to 10% or even upto 15% at some places.

xiii.	Justification for more than 20% difference in Market & Circle Rate	Circle rates are determined by the District administration as per their own theoretical internal policy and Market rates are adopted based on current practical market dynamics which is explained clearly in Valuation Assessment Factors
xiv.	Concluding comments & Disclosures if any	<ol style="list-style-type: none"> As per the copy of legal report provided to us the owner of the subject property is James Long Properties Pvt. Ltd. and Niharika Constructions Pvt. Ltd. and an appropriate deed of conveyance should be registered in favor of M/s. Visa International Ltd., but as per the tenancy certificate the VISA International Ltd. is the owner of this property. So, The Liquidator is advised to take a note on the same. The Subject Property is located in the prime location of the city and it is maintained properly, considering these factors we have adopted only 25% less for arriving at liquidation Value.

		<p>3. Currently, as per the micro & macro market research, the demand for property is weak and the enquiries and the transactions are negligible. In these uncertain times, people are likely to be very cautious in their expenditures in general and are and will be averse to lock up their available liquidity in the acquisition of fixed assets like property. A potential buyer of property if any, may consider acquiring a property only if he gets a really good bargain, at a substantial discount to the rates prevailing before the Covid Pandemic.</p> <p>4. This Valuation report is prepared based on the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct.</p> <p>5. As per the document i.e Agreement of nomination provided the document is not registered i.e neither stamp duty nor any stamp of the registrar office is on it.</p> <p>6. Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents from originals, etc. has to be taken care by legal experts/ Advocates.</p> <p>7. This report only contains technical & market information which came to knowledge during course of the assignment. It doesn't contain any recommendations.</p> <p>8. This report is prepared following our Standard Operating Procedures & Best Practices, Limitations, Conditions, Remarks, Important Notes, Valuation TOR.</p>
