FUTUREVALUE ADVISORS INDIA PVT. LTD.(FVAIPL)

charges, Brokerage, Bank interest, selling cost, marketing cost, etc. pertaining to the sale/ purchase of this property are not considered while assessing the indicative estimated Market Value.

This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Fair Market Value. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.

Construction rates are adopted based on the present market replacement cost of construction and calculating applicable depreciation & deterioration factor as per its existing condition &specifications based on only visual observation of the structure. No structural, physical tests have been carried out in respect of it.

Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method.

The condition assessment and the estimation of the residual economic life of the structure is only based on the visual observations and appearance found during the site survey. We have not carried out any structural design or stability study; nor carried out any physical tests to assess structural integrity & strength.

Sale transaction method of the asset is assumed as free market transaction while assessing Indicative & Estimated Fair Prospective Market Value of the asset.

Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset has not been factored in the Valuation.

This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is not investigative in nature.

Fair Market Value\* suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him related to the subject asset at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, after proper marketing, wherein the parties, each acted knowledgeably, prudently and without any compulsion on the date of the Valuation.

Forced, under compulsion &constraint, obligatory sales transactions data doesn't indicate the Fair Market Value.

Realizable Value<sup>\*</sup> is the minimum prospective estimated value of the property which it may be able to realize at the time of actual property transaction factoring in the potential prospects of deep negotiations carried out between the buyer & seller for ultimately finalizing the transaction across the table. Realizable value may be 10-20% less than the Fair Market Value depending on the various salability prospects of the subject property and the needs of the buyer & the seller.

Liquidation Value The net amount that would be realized if a business is discontinued and its assets are sold individually. "LV is estimated realizable value of the assets of the CD if it were liquidated on the liquidation commencement date (LCD)."

When the asset is sold in liquidation, sale value will always be less than fair value,

VRN NO. IOVRVF/FVS/2021-2022/192 FILE NO.: VIS (2021-22)- PL-71-60-73

Page 5 of 21

IBBI Regn. No.- IBBI/RV/02/2019/11384

DIRECTOR& COO

FUTUREVALUE ADVISORS INDIA PVT. LTD.(FVAIPL)

since it depends on various factors such as type & future usage of asset, demand, prevailing site conditions & circumstances, mode of payment & transaction, general depression, negative sentiments, salvage value, as is where basis in case of land & building. Seller is official liquidator and the buyer may be motivated by the knowledge of the limitations of the seller under the circumstances. Since it is majorly as industrial usage limitation, the buyer would, essentially be already in the same business or be willing to enter the same line of business. Buyer will approach and search for similar attributes of property in primary & secondary market. Considering all the factors, location, market factors, ease of acquisition, Liquidation Value is estimated by discount and factoring unpaid liability on land component in Fair Value.

The liquidator may sell

- (a) An asset on a standalone basis;
- (b) The assets in a slump sale;
- (c) A set of assets collectively;
- (d) The assets in parcels;
- (e) The corporate debtor as a going concern; or
- (f) The business(s) of the corporate debtor as a going concern.

Difference between Cost, Price & Value: Generally these words are used and understood synonymously. However in reality each of these has a completely different meaning, premise and also having different definitions in the professional & legal terms. Therefore to avoid confusion, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.

The Cost of an asset represents the actual amount spend in the construction/ actual creation of the asset.

The Price is the amount paid for the procurement of the same asset.

The Value is defined as the present worth of future rights in the property/ asset and depends to a great extent on combination of various factors such as demand and supply, market situation, purpose, situation & needs of the buyer & seller, saleability outlook, usability factor, market perception & reputation, needs of the buyer & seller, saleability outlook, usability factor, market perception & reputation.

Therefore in actual for the same asset/ property, cost, price & value remain different

since these terms have different usage & meaning.

xvii,	Adopted Rates Justification	As per our discussion with the property dealers, we came to know that during this Covid Pandemic period there is virtually no enquiry either for sale or for purchase of any property and virtually no sale/ purchase is taking place since the Pandemic started. The real estate market is facing a very critical and uncertain phase. But according to these property dealers the rates quoted by them currently are for the Pre-Pandemic phase. According to them, because of the economic slowdown, losses suffered by businessmen, the loss of jobs or cuts in salaries of the salaried class and also the natural tendency of the people to conserve available liquidity instead of locking it up in an illiquid asset like property or other fixed assets during such economic prolonged, uncertain and distressful times. The demand for properties is expected to fall very significantly in the immediate aftermath of Covid Pandemic. The same is the opinion of a number of reputed real estate consultants who have released their reports on the likely impact on the Real Estate scenario because of disruption caused by the Covid-19 to the economy. Due to the ongoing pandemics the real estate market in all over India declines and the rates go down anywhere in the region of 5% to 10% or even upto 15% at some places.
		As per the telephonic discussion with the market participants we came to know that the prevailing rates in the concerned area vary from Rs.18,000/- to Rs.20,000/- per sq.ft. for 3 BHK freehold flats on ground floor. The rates of flats on first floor is around Rs.16,000/- to Rs.18,000/- per sq.ft. on Super Built-up area. Also, these rates may vary depending upon the, size of the flats, their location facing and constitution of property. Since this property is leasehold as no conveyance deed of the said property is provided. The rates of leasehold flats is somewhat lesser than freehold flats. Keeping all the things into consideration that may vary, we have adopted the rate range of of Rs.15,000/- to Rs.16,000/- per sq.ft. for 3 BHK flats on ground floor and Rs.14,000/- to Rs.16,000/- per sq.ft. on first floor for valuation purposes which seems reasonable in our view.

Factors
<ol> <li>The Subject Property is located in the prime location of the city and its maintained properly considering these factors we have adopted 20% less for arriving at liquidation Value.</li> <li>Currently, as per the micro &amp; macro market research, the demand for property is weak and the enquiries and the transactions are negligible. In these uncertain times, people are likely to be very cautious in their expenditures in general and are and will be averse to lock up their available liquidity in the acquisition of fixed assets like property. A potential buyer of property if any, may consider acquiring a property only if he gets a really good bargain, at a substantial discount to the rates prevailing before the Covid Pandemic.</li> <li>We are only provided with the Tenancy Agreement and agreement to sale and no other legal document was provided to us where we could have checked the Covered area details or the legality of the owner.</li> <li>The Liquidators hereby requested to verify the ownership of said property by the competent authority at its own level.</li> <li>This Valuation report is prepared based on the copies of the documents information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct.</li> <li>Legal aspects for eg. investigation of title, ownership rights, lien, charge mortgage, lease, verification of documents from originals, etc. has to be taken care by legal experts/ Advocates.</li> <li>This report only contains technical &amp; market information which came to knowledge during course of the assignment. It doesn't contain any recommendations.</li> <li>This report is prepared following our Standard Operating Procedures &amp; Best Practices, Limitations, Conditions, Remarks, Important Notes.</li> </ol>

9.	ASSUMPTIONS   REMARKS   LIMITING CONDITIONS						
i.	Qualification in TIR/Mitigation Suggested, if any: Cannot comment since copy of TIR is not provided						
ii.	Is property SARFAESI compliant Yes						
iii.	Whether property belongs to social infrastructure like hospital, school, old age home etc.: No						
İV.	Whether entire piece of land on which the unit is set up / property is situated has been mortgaged or to be mortgaged: Already mortgaged						
V.	Details of last two transactions in the locality/area to be provided, if available: Information couldn't be found.						
Vi.	Any other aspect which has relevance on the value or marketability of the property: This report is prepared following our standard operating procedures & best practices, limitations, conditions, remarks, Important Notes, Valuation TOR.						
	a. This Valuation report is prepared based on the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. Verification or cross checking of the copy of the documents provided to us from the originals has not been done at our end.						
	b. Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, etc. are not considered in this report. It is assumed and taken into account that the concerned Bank/ Financial Institution has got the legal verification cleared by the competent Advocate while requesting for the Valuation report.						
	c. Value varies with the Purpose/ Date/ Condition prevailing in the market. We recommend not to refer the Value
