#### PART A PLANT & MACHINERY VALUATION PROCEDURE

Name & Address of Branch	State Bank Of India, SME Branch, Shahdara			
Name of Customer (s)/ Borrower Unit	M/s. JMW India Private Limited.			

S.NO.	CONTENTS	DESCRIPTION
1.	INTRODUCTION	
a.	Name of Property Owner	M/s. JMW India Private Limited.
	Address & Phone Number of the Owner	E-530-531, RIICO Industrial Area, Chopanki, Bhiwadi, District Alwar – 301019, Rajasthan
b.	Purpose of the Valuation	For Periodic Re-valuation of the mortgaged property
C.	Date of Inspection of the Property	9 December 2021
d.	Date of Valuation Report	9 December 2021
e.	Name of the Developer of the Property	Owners themselves
	Type of Developer	Not Applicable

2.	TECHNICAL DESCRIPTION OF THE	PLANT/ MACHINERY				
a.	Nature of Plant & Machinery	Copper Wire Production Plant				
b.	Size of the Plant	Medium scale Plant				
C.	Type of the Plant	Semi Automatic				
d.	Year of Installation/ Commissioning/ COD (Commercial Operation Date)	No such information provided dur	ing the site survey.			
	Production Capacity	No such information provided dur	ing the site survey.			
e.	Capacity at which Plant was running at the time of Survey	All the listed machines are installed at the project site and found to be operational during the site survey. Few machines i.e Rolling Mill, Electric Hoist, Payoff Unit Capacity were found to be not installed at the site and were found dismantled.				
f.	Number of Production Lines	No such information provided dur	ing the site survey.			
g.	Condition of Machines	Average.				
h.	Status of the Plant	Operational				
i.	Products Manufactured in this Plant	ufactured in this Plant Copper wire, Copper rod, Copper strip, Paper wire, Copper conductor				
j.	Recent maintenance carried out on	No such information provided dur	ing the site survey.			
k.	Recent upgradation, improvements if done any	None				
Ι.	Total Gross Block & Net Block of	Gross Block	Net Block			
m.	Assets	Rs.3,48,65,730/-	Not Provided			
n.	Any other Details if any	NA				
3.	LOCATION/ ADDRESS WHERE PLA	NT/ MACHINES ARE FOUND TO	BE INSTALLED			
	All the machineries were found to be in	n installed at the plant location of M	/s. JMW India Private Limited			
	at E-530-531, RIICO Industrial Area, Chopanki, Bhiwandi, District Alwar – 301019, Rajasthan.

### VALUATION ASSESSMENT M/S. JMW INDIA PRIVATE LIMITED.

4.	SURVEY DETAILS
I.	Machines has been surveyed by our Engineering Team on 09/12/2021.
11.	Site inspection was done in the presence of company's representative Mr. Akhilesh Tiwari.
111.	Our team examined & verified all the machines and utilities as per the list of machineries provided by the company.
IV.	The machines were found to be installed and operational at the subject property at the time of survey.
	Few machines i.e. Rolling Mill, Electric Hoist, Payoff unit Capacity were found to be not installed at the
	site and were found dismantled and in rusted condition.
V.	For cross checking of the machinery FAR (Fixed Asset Register) was provided to us.
VI.	Condition of the machines is checked through visual observation only. No technical/ mechanical/
	operational testing has been carried out to ascertain the condition and efficiency of machines.
VII.	Site Survey has been carried out on the basis of the physical existence of the assets rather than their technical expediency.
\/III	As per the overall site visit summary, the machines were found to be installed at the site except Rolling
VIII.	Mill, Electric Hoist, Payoff unit Capacity which were not installed and found in a dismantled condition
	at the site hence we have considered an extra depreciation for these machines.

7.	RAW MATERIALS REQUIRED	& AVAILABILITY					
	Type of Raw Material:	Copper Cathode, Copper wire rod, Copper scrap.					
	Availability:	No Information available.					
8.	AVAILABILITY & STATUS OF UTILITIES						
	Power/ Electricity	Available					
	Water	Available					
	Road/ Transport	Avaialble					
9.	COMMENT ON AVAILABILITY						
	Availability:	Yes					
	Number of Labours working	No information provided during the site survey.					
	in the Factory						
10.		OSPECTS OF SUCH PLANTS/ MACHINERY					
	Individual machine sale on piece						
	<b>Reason:</b> This is a Mid scale Pl	ant and all are general used machines which can be used in similar					
	industry and cost of dismantling	and transporation will not be very high.					
11.		MACHINERY IN THE MARKET					
	Appears to be moderate as per general information available in public domain.						
12.	VALUATION PROEDURE						
a.	Basic Methodology: For arriving at fair market value of P&M & other fixed assets our engineering						
	team has rationally applied the mixture of <i>'sales comparison approach (market approach)' and the</i>						
	<u>'cost approach (depreciated replacement cost)'</u> . The fair market value of Plant & Machinery on the						
	date of valuation is its cost of reproduction & commissioning on that date less the depreciation & other						
	deterioration deductions (Technological, Economic, Functional obsolescence) or additions for good						
	maintenance from the date of commissioning of the machinery to the date of its valuation.						
b.	Core P&M Asset Valuation is done keeping in mind various factors like technology used, machines						
	availability, its condition, average age, maintenance & service and parts replacement availability of the						
	machines and more importantly demand in the market.						
C.	The list of machines and their de	tails were collected for the FAR (Fixed Asset Register) provided to us.					
	From the Fixed Asset Register List two key inputs, Date of Capitalization and Cost of capitalization are						
	taken which play vital role in evaluating used Plant & Machinery valuation.						
d.	All the listed machines are inst	alled at the project site and found to be operational during the site					
	survey. Few machines i.e. Rolling Mill, Electric Hoist, Payoff unit Capacity were found to be not						
	installed at the site and were found dismantled, hence we have considered an extra depreciation for						
	these machines.						
e.	For calculating Replacement C	cost of the machines as on date Cost Inflation Index is taken into					
	consideration since this Plant is	15-20 years old and since then fluctuation has occurred in the prices					
	of metals or industrial commodit	ies.

### VALUATION ASSESSMENT M/S. JMW INDIA PRIVATE LIMITED.

f.	Market & Industry scenario is also explored for demand of such Plants and it is found that not many
	plants of this type and scale are present in India and the demand for such items and plant & machinery
	is average.
g.	On the Depreciated Replacement Cost (DRC) deduction for obsolescence/ deterioration or addition for
	good maintenance has been taken to arrive at the estimated Prospective Fair Market Value of the
	machines.
h.	Underlying assumption for the evaluation of this Plant & Machinery is that it can be sold individually
	in market since demand of used & second hand machinery of this type is available in the market.
13.	CONSOLIDATED PLANT & MACHINERY VALUATION
	Consolidated valuation sheet of Plant & Machinery are mentioned below with depreciated current
	market value cumulated together. The cost of equipment considered from P&M List doesn't includes
	Pre-operative, Finance, and IDC Charges etc.

1. Asset items pertaining to Ms. JMW India Private Limited is only considered in this report.

2. The Machines considered for the Valuation are located at premises of M/s. JMW India Private Limited, E-530-531, RIICO Industrial Area, Chopanki, Bhiwadi, District Alwar - 301019, Rajasthan.

3. All the details related to the cost, date and description of the Plant & Machinery along with the related equipments has been provided to us the client and have been accepted in good faith by us

4. For evaluating the Gross current replacement cost of the machines and equipments, we have adopted the inflation rate occurred in the manufacturing of that respective commodity. For which we have used the whole sale price index provided by the Government through www.eaindustry.nic.in

5. During the site visit, plant was in operational condition. Our engineering team visited all the sections and inspected the machines and equipments on the basis of their physical existence and condition. No technical testing or performance evaluation of these machines was carried out. All the machines were verified at the site and found to be operational except Rolling Mill, Electric Hoist, Payoff unit Capacity were found to be not installed at the site and were found dismantled..

### VALUER'S REMARKS - ENCLOSURE- VII

1.	This Valuation report is prepared based on the copies of the documents/ information which interested organization
	or customer could provide to us out of the standard checklist of documents sought from them and further based on
1	our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and
	we have assumed that it is true and correct. Verification or cross checking of the documents provided to us from
	the originals has not been done at our end.
2.	Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents, etc. have to be taken care by legal expert/ Advocate and same are not done at our end. It is assumed that the
	concerned Lender/ Financial Institution has asked for the valuation of that property for which the legal verification
	has been already taken and cleared by the competent Advocate before requesting for the Valuation report.
3.	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information
5.	came to our knowledge during the course of the work.
4.	Value varies with the Purpose/ Date/ Condition prevailing in the market. We recommend not to refer the indicative
	& estimated prospective Value of the asset given in this report if any of these points are different from the one
	mentioned aforesaid in the Report. We also recommend that the indicative estimated Value in the Valuation Report
	holds good only upto the period of 3 months from the date of Valuation.
5.	This report is having limited scope as per its fields & format to provide only the general basic idea of the value of
	the property prevailing in the market based on the documents/ data/ information provided by the client. The
	suggested indicative prospective estimated value should be considered only if transaction is happened as free
	market transaction.
6.	This Valuation report is prepared based on the facts of the property on the date of the survey. It is a well-known
	fact that the market value of any asset varies with time & socio-economic conditions prevailing in the country. In future property Market may go down, property conditions may change or may go worse, Property reputation may
	differ, Property vicinity conditions may go down, property conditions may change of may go worse, Property reputation may
	Govt. policies or effect of World economy, Usability prospects of the property may change, etc. Hence before
	financing, Banker/ FI should take into consideration all such future risk and should loan conservatively to keep the
	advanced money safe in case of the downward trend of the property value.
7.	Valuation of the same asset/ property can fetch different values in different situations. For eg. Valuation of a running/
	operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have
	considerable lower value. Similarly an asset sold directly by an owner in the market will fetch better value and if the
	same asset/ property is sold by any financer due to encumbrance on it will fetch lower value. Hence before
	financing, Banker/ FI should take into consideration all such future risks and should loan conservatively to keep the
-	advanced money safe in case of any such situation. Getting cizra map or coordination with revenue officers for site identification is not done at our end.
8. 9.	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just cross
J.	verified the identification of the property with reference to the documents produced for perusal. Method by which
	identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the
	correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be
	carried out. It is requested from the Bank to cross check from their own records/ information if this is the same
	property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or
	misrepresented the property due to any vested interest.
10.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where
	the subject property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities &
	districts where property number is either not assigned or not displayed on the properties clearly and also due to
	the presence of multiple/ parallel departments due to which ownership/ rights/ illegal possession/ encroachment
	issues are rampant across India and due to these limitations at many occasions it becomes tough to identify the
	property with 100% surety from the available documents, information & site whereabouts and thus chances of error,
	misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any
	such chances of error it is advised to the Bank to engage municipal/ revenue department officials to get the
	confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents
	are provided.
11.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated
	Township then approvals, maps of the complete group housing society/ township is out of scope of this report and
	this report will be made for the specific unit based on the assumption that complete Group Housing Society/
10	Integrated Township must be approved in all respect Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time different laws/
12.	guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro
	guideintes between regione, dates and no directione county of Dates ing Dyo Land and the regione, dates and no direction of county of Dates ing Dyo Land and the regione, dates and no direction of county of Dates ing Dyo Land and the regione, dates and no direction of county of Dates ing Dyo Land and the regione, and the regione
