	North & South	23 mtr as measured during site survey.
	East & West	34.4 mtr as measured from google
2.	Total extent of the plot	967 sq. yds. / 808.5 sq. mtr.
	Area adopted on the basis of	Property documents & site survey both
	Remarks & observations, if any	None
3.	Prevailing market rate (Along with details /reference of at least two latest deals/transactions with respect to adjacent properties in the areas)	References on prevailing market Rate/ Price trend of the property and Details of the sources from where the information is gathered (from property search sites & local information)
		 Name: Rathee properties(Property Consultant) Contact No.: +91-9416059504 Size of the Property: Approx.300 sq. yds. Rates/ Price informed: Rs.1,00,000/- to Rs.1,30,000/- per sq. yds. Comment: As per the discussion held with the above-mentioned property dealer we came to know that the rates in the concerned area for residential plot of ~300 sq. yds. is around Rs.1,00,000/- to Rs.1,30,000/- per sq. yds.
		2. Name: Hans Ji Property (Property Consultant) Contact No.: 9215222270 Size of the Property: Approx.400 sq. yds. Rates/ Price informed: Rs.1,00,000/- to Rs.1,30,000/- per sq. yds. Comment: As per the discussion held with the above-mentioned property dealer we came to know that the rates in the concerned area for residential plot of ~300 sq. yds. is around Rs.1,00,000/- to Rs.1,30,000/- per sq. yds. He also guided us that demand of the property in this locality is very good while availability is very less.
		During our micro-market research we came to know that:- 1. The subject property is located Urban developing area of Mansarovar Colony, Rohtak. 2. The demand of property in the subject location is good while availability is vey less for small plots.

M/S. TARUN SALES

		 Land parcel available nearby for sale are comparatively small to the subject property and as per participants of micro market, no such big parcels are available nearby. Therefore, less buyers would be available for it sale. The subject property is around 100 mtr from Rohtak road. The subject property is an intermittent plot surrounded by other small residential properties. The on-going market rate for the residential land of area~300-400 sq. yds. located within vicinity of subject land is ranging in between Rs.1,00,000/- to Rs.1,30,000/- per sq. yds. Circle rate in this area is Rs.21,000/- per sq. yd.
		Therefore, considering all the above mentioned facts like size, shape, demand & Supply gap, location and the fact that subject property is very big compared to the references available, so we have given a discount of around 30-35% on the actual rates of land prevailing in the market and we are on the view that market rate for residential land would be around Rs.70,000/- per sq. yds. which we seems is reasonable.
3.	Guideline rate obtained from the Registrar's office (an evidence thereof to be enclosed)	Guideline value: Rs.21,000/- per sq. yd. Land: Rs.21,000/- per sq. yd. X 967 sq. yds. = Rs.2,03,07,000/-
4.	Assessed / adopted rate of valuation	Rs.70,000/- per sq. yds.
5.	Estimated value of land (A)	Market Value: Land: Rs.70,000/- per sq. yds. X 967 sq. yds. = Rs.6,76,90,000/-

(RUPEES SEVEN CRORES AND TWENTY LAKHS ONLY)

í.	Justification for more than 20% difference in Market & Circle Rate	Circle rates are determined by the District administration as per their own theoretical internal policy and Market rates are adopted based on current practical market dynamics which is explained clearly in Valuation Assessment Factors Difference is due to higher demand and lesser supply of such type of properties in the subject area. We have confirmed this from below mentioned property dealers: 1. Name: Rathee properties- +91-9416059504 2. Name: Hans Ji Property - +91-9416059504
ii.	Concluding comments & Disclosures if any	3. Presently the property market is not under a free market condition due to Covid Pandemic disruption. Currently, as per the micro & macro market research, the demand for property is weak and the enquiries and the transactions are negligible. In these uncertain times, people are likely to be very cautious in their expenditures in general and are and will be averse to lock up their available liquidity in the acquisition of fixed assets like property. A potential buyer of property if any, may consider acquiring a property only if he gets a really good bargain, at a substantial discount to the rates prevailing before the Covid Pandemic. Thus the Realizable Value in this Report has been adopted based on this consideration.

scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough to determine the exact lawful situation on ground for the Valuer. In case nothing specific is noted on the covered built-up area considered in the Valuation Report, the covered area present on the site as per site survey will be considered in the Valuation. 13. Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion. 14 Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However our Valuation analysis can definitely help the stakeholders to make them informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction. 15. This report is prepared on the RKA V-L1 (Basic) Valuation format as per the client requirement and scope of work. This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of the property prevailing in the market based on the information provided by the client. No detailed analysis, audit or verification has been carried out of the subject property. This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/ Bank/ 16. Financial Institution which is using this report for mortgaging the property that they should consider all the different associated relevant & related factors & risks before taking any business decision based on the content of this report. All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report is 17. without stamp & signature then this should not be considered a valid paper issued from this office. Defect Liability Period is 30 DAYS. We request the concerned authorized reader of this report to check the contents, 18. data and calculations in the report within this period and intimate us in writing if any corrections are required or in case of any other concern with the contents or opinion mentioned in the report. Corrections only related to typographical, calculation, spelling mistakes will be entertained within the defect liability period. No request for any illegitimate value revision, date change or any other change will be entertained other than the one mentioned above. R.K Associates encourages its customers to give feedback or inform concerns over its services through proper channel 19 at valuers@rkassociates.org in writing within 30 days of report delivery. After this period no concern/ complaint/ proceedings in connection with the Valuation Services can be entertained due to possible change in situation and condition of the property.
