iv.	Legal Documents	Available	<b>None. Only old valuation report is provided by the bank.</b>	None	None		
<b>4.</b>	<b>Physical Details of the Property</b>						
i.	Adjoining Properties	<b>Directions</b>	<b>As per Old Valuation Report</b>	<b>Actual found at Site</b>			
		<b>North</b>	Hare Krishna Building	Malviya Road			
		<b>South</b>	Ganga Niwas	Sanskriti Society			
		<b>East</b>	Park View CHS Ltd.	Sathaye College			
		<b>West</b>	P.M Road/ Shanti Vimal Building	Parle Udyan			
ii.	Are Boundaries matched	No					
iii.	Plot demarcation	Yes					
iv.	Approved land Use	Residential as per nearby activity seen on the site					
v.	Type of Property	Residential Apartment in low rise building					
vi.	No. of bed rooms	Living/ Dining area	Toilets	Kitchen	Other rooms		
	02	01	01	01			
vii.	Total no. of floors of the property	4 (Ground + First + Second + Third Floor)					

viii.	Floor on which the property is located	3 <sup>rd</sup> floor
ix.	Approx. age of the property	Approx. 40 Years Old
x.	Residual age of the property	Approx. 20-25 years subject to proper and timely maintenance
xi.	Type of structure	RCC framed pillar, beam, column structure on RCC slab
xii.	Condition of the Structure	Below Average
xiii.	Finishing of the building	Poor
<b>5.</b>	<b>Tenure/ Occupancy/ Possession Details</b>	
i.	Property presently possessed/ occupied by	Vacant, in possession of the bank
ii.	Status of Tenure	NA
iii.	No. of years of occupancy	NA
iv.	Relationship of tenant or owner	NA
<b>6.</b>	<b>Stage of Construction</b>	
	Constructed property vacant at present	
	If under construction then extent of completion	
<b>7.</b>	<b>Violation in the property</b>	
	<b>i. Violation if any observed</b>	<b>ii. Nature and extent of violation</b>
	Cannot comment since copy of approved building plans/map not provided to us	Cannot comment since copy of approved building plans/map not provided to us
		<b>iii. Any other negativity, defect or drawback in the property</b>
		No

8.	AREA DETAILS OF THE PROPERTY		
i.	Land area (as per documents/ site survey, whichever is less) (Not considered since this is a Built-up Dwelling Unit Valuation)		
	Area as per documents	Area as per site survey	Area considered for Valuation
	NA	NA	NA
	Area adopted on the basis of	NA	
	Remarks & Observations	Area measurements considered in the Valuation Report pertaining to Land is adopted from relevant documents produced to us or actual site measurement, whichever is less. All area measurements are on approximate basis only. Verification of the area measurement of the property is done based on sample random checking only. Area of the large land parcels of more than 2500 sq.mtr or of uneven shape, is taken as per property documents which has been relied upon.	
ii.	Constructed Carpet Area (As per IS 3861-1966)		
	Area as per documents	Area as per site survey	Area considered for Valuation
	630 sq. ft  (As per old Valuation Report)	623 sq. ft.	623 sq. ft. Carpet Area  747 sq. ft/69.45 sq. mtr. Built Up  Area approx..
	Area adopted on the basis of	Site measurements as well as old Valuation Report	
	Remarks & Observations	Area measurements considered in the Valuation Report pertaining to Building is adopted from relevant documents produced to us or actual site measurement, whichever is less. All area measurements are on approximate basis only. Verification of the area measurement of the property is done based on sample random checking only.	

<b>9.</b>	<b>VALUATION ASSESSMENT</b>
<b>A.</b>	<b>ASSESSMENT FACTORS</b>

i.	Valuation Type	Built-up unit value (sold-purchased as a separate dwelling unit)	Residential flat Value
ii.	Scope of the Valuation	Non binding opinion on the assessment of Plain Asset Valuation of the property identified to us by the owner or through his representative.	
iii.	Property Use factor	<b>Current Use</b> Vacant	<b>Highest &amp; Best Use</b> Residential
iv.	Legality Aspect Factor	Assumed to be positive as per copy of documents & information produced to us. However Legal aspects of the property are out-of-scope of the Valuation Services.  Verification of authenticity of documents from originals or cross checking from any Govt. deptt. have to be taken care by Legal expert/ Advocate.	
v.	Land Physical factors	<b>Shape</b> Not Applicable	<b>Size</b> Not Applicable
vi.	Property location category factor	<b>City Categorization</b> Metro City	<b>Locality Categorization</b> Good
		Urban developed	Within urban developed area
		<b>Property Facing</b>	East Facing
vii.	Any New Development in surrounding area	None	
viii.	Any specific advantage/ drawback in the property	The property is in a very poor condition internally and needs extensive repairs and renovation to make it fit for use again. Moreover, the building in which it is located is in a very poor condition with no maintenance of any kind. There is no lift in the building. There is no Society formed in this building as per the information obtained from residents of other flats in the building.	
ix.	Property overall usability Factor	Low	
x.	Comment on Property Saleability Outlook	Will be hard to find buyers due to property dilapidated condition.	
xi.	Comment on Demand & Supply in the Market	Demand would be low due to poor condition of the flat and the building.	
xii.	Any other aspect which has relevance on the value or marketability of the property	<p>NA</p> <p>Valuation of the same asset/ property can fetch different values under different circumstances &amp; situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly an asset sold directly by an owner in the open market through free market transaction then it will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it, will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing.</p> <p>This Valuation report is prepared based on the facts of the property &amp; market situation on the date of the survey. It is a well-known fact that the market value of any asset varies with time &amp; socio-economic conditions prevailing in the country. In future property market may go down, property conditions may change or may go worse, property reputation may differ, property vicinity conditions may go down or become worse, property market may change due to impact of Govt. policies or effect of World economy, usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk while financing.</p>	
xiii.	Sale transaction method assumed	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.	
xiv.	Best Sale procedure to realize maximum Value	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.	

xv.	Methodology/ Basis of Valuation	<b>Govt. Guideline Value:Collector rates of Maharashtra</b>
		<b>Market Value:</b> Market Comparable Sales approach
		<p><i>Valuation of the asset is done as found on as-is-where basis.</i></p> <p><i>Valuation is done based on the Valuation best practices, standard operating procedures and definitions prescribed by various organizations like IVSC, Income Tax of India, etc. as defined under.</i></p> <p><i>For knowing comparable market rates, significant discreet local enquiries have been made from our side representing ourselves as both buyer and seller for the similar properties in the subject area and thereafter based on this information and various factors of the property, a rate has been judiciously taken considering the market scenario.</i></p> <p><i>References regarding the prevailing market rates are based on the verbal/ informal/ secondary/ tertiary information collected during market survey in the subject area from the local people, property consultants, recent deals, demand-supply, internet postings which are relied upon. No written record is generally available for such market information and only the verbal information has to be relied upon.</i></p> <p><i>Market Rates are rationally adopted based on the facts of the property that came to our knowledge during the course of the assignment considering many factors like nature of the property, size, location, approach, market situation and trends.</i></p> <p><i>The indicative value has been suggested based on the prevailing market rates that came to our knowledge during secondary &amp; tertiary market researches and does not split into formal &amp; informal payment components.</i></p> <p><i>Secondary/ Tertiary costs related to asset transaction like Stamp Duty, Registration charges, Brokerage, Bank interest, selling cost, marketing cost, etc. pertaining to the sale/ purchase of this property are not considered while assessing the indicative estimated Market Value.</i></p> <p><i>This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Fair Market Value. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.</i></p> <p><i>Construction rates are adopted based on the present market replacement cost of construction and calculating applicable depreciation &amp; deterioration factor as per its existing condition &amp; specifications based on only visual observation of the structure. No structural, physical tests have been carried out in respect of it.</i></p> <p><i>Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method.</i></p> <p><i>The condition assessment and the estimation of the residual economic life of the structure is only based on the visual observations and appearance found during the site survey. We have not carried out any structural design or stability study; nor carried out any physical tests to assess structural integrity &amp; strength.</i></p> <p><i>Sale transaction method of the asset is assumed as free market transaction while assessing Indicative &amp; Estimated Fair Prospective Market Value of the asset.</i></p> <p><i>Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset has not been factored in the Valuation.</i></p>

	<p><i>This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is not investigative in nature.</i></p> <p><b>Fair Market Value<sup>#</sup></b> suggested by the competent Valuer <u>is that prospective estimated amount</u> in his expert &amp; prudent opinion of the subject asset/ property without any prejudice after he has carefully &amp; exhaustively evaluated the facts &amp; information came in front of him related to the subject asset at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open &amp; unrestricted market, after proper marketing, wherein the parties, each acted knowledgeably, prudently and without any compulsion on the date of the Valuation.</p> <p><i>Forced, under compulsion &amp; constraint, obligatory sales transactions data doesn't indicate the Fair Market Value.</i></p> <p><b>Realizable Value<sup>^</sup></b> is the minimum prospective estimated value of the property which it may be able to realize at the time of actual property transaction factoring in the potential prospects of deep negotiations carried out between the buyer &amp; seller for ultimately finalizing the transaction across the table. Realizable value may be 10-20% less than the Fair Market Value depending on the various salability prospects of the subject property and the needs of the buyer &amp; the seller.</p> <p><b>Forced/ Distress Sale Value<sup>*</sup></b> is the value when the property has to be sold due to any compulsion or constraint like financial encumbrances, dispute, as a part of a recovery process, any defect in the property, legal issues or any such condition or situation. In this type of sale, minimum fetch value is assessed which can be 25-40% less than the estimated Fair Market Value based on the nature, size &amp; salability prospects of the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness &amp; pressure of selling the property is more than buying it. Therefore the Forced/ Distress Sale Value will always fetch significantly less value compare to the estimated Fair Market Value.</p> <p><b>Liquidation Value</b> is the amount that would be realized when an asset or group of assets are sold on a piecemeal basis that is without consideration of benefits (or detriments) associated with a going-concern business. Liquidation value can be either in an orderly transaction with a typical marketing period or in a forced transaction with a shortened marketing period.</p> <p><b>Difference between Cost, Price &amp; Value:</b> Generally these words are used and understood synonymously. However in reality each of these has a completely different meaning, premise and also having different definitions in the professional &amp; legal terms. Therefore to avoid confusion, it is our professional responsibility to describe the definitions of these words to avoid ambiguity &amp; confusion in the minds of the user of this report.</p> <p>The <b>Cost</b> of an asset represents the actual amount spend in the construction/ actual creation of the asset.</p> <p>The <b>Price</b> is the amount paid for the procurement of the same asset.</p> <p>The <b>Value</b> is defined as the present worth of future rights in the property/ asset and depends to a great extent on combination of various factors such as demand and supply, market situation, purpose, situation &amp; needs of the buyer &amp; seller, saleability outlook, usability factor, market perception &amp; reputation. needs of the buyer &amp; seller, saleability outlook, usability factor, market perception &amp; reputation.</p> <p><i>Therefore in actual for the same asset/ property, cost, price &amp; value remain different since these terms have different usage &amp; meaning.</i></p>
--	---

xvi.	References on prevailing market Rate/ Price trend of the property and Details of the sources from where the information is gathered (from property search sites & local information)	1.	Name:	Amal Realtors
			Contact No.:	+91-9820530902
			Nature of reference:	Property Consultant
			Size of the Property:	Approx. 650 sq.ft residential flat ( Carpet Area)
			Location:	Sir Phirozshah Mehta Road, Ville Parle (E), Mumbai-400064
			Rates/ Price informed:	Rs.35,000/- to Rs. 55,000/- per sq. ft on carpet area
			Any other details/ Discussion held:	As per discussion with the above mentioned property dealer we came to know that the rates in the subject location for residential flats depends upon the type of structure, whether the building is new or old. For newly constructed apartments in the locality the rates will vary from Rs.40,000/- to Rs.50,000/- per sq.ft on carpet area. He aslo said that for the flats in older buildings the rates may vary from Rs.35,000/- to Rs.40,000/- per sq. ft on carpet area.
			2.	Name:
		Contact No.:		+91-9867872224
		Nature of reference:		Property Consultant
		Size of the Property:		Approx. 650 sq.ft residential flat ( Carpet Area)
		Location:		Sir Phirozshah Mehta Road, Ville Parle (E), Mumbai-400064
		Rates/ Price informed:		Rs.30,000/- to Rs. 40,000/- per sq. ft on carpet area
		Any other details/ Discussion held:		As per the discussion with the above property dealer we came to know that the rates in the current location are around Rs. 30,000/- to Rs.40,000/- per sq.ft on carpet area
		3.		Name:
			Contact No.:	(99 Acre)
			Nature of reference:	General Information on Public domain
			Size of the Property:	Approx. 650 sq.ft residential flat ( Carpet Area)
			Location:	Sir Phirozshah Mehta Road, Ville Parle (E), Mumbai-400064
			Rates/ Price informed:	Rs.40,000/- to Rs. 50,000/- per sq. ft on carpet area
			Any other details/ Discussion held:	As per search on the public domain we came to know that the rates in the subject location for residential flats will vary from Rs.40,000/- to Rs.50,000/- per sq. ft on carpet area , however all these properties are newly constructed and not more than 5 years old
NOTE: The given information above can be independently verified to know its authenticity.				
xvii.	Adopted Rates Justification	As per conversation with the above mentioned property dealers and also the information collected on the public domain we came to know that the rates in the subject location for the residential flats depends upon		
		<div>1. Location of the flat</div> <div>2. Size of the flat.</div> <div>3. Floor on which the flat is located</div> <div>4. Amenities available in that building</div> <div>5. Facing of the flat</div> <div>6. Age of the building in which the flat is located</div> <div>As per property dealers the current market rates for the new residential flats varies from Rs.40,000/- to Rs.50,000/- per sq.ft. However for the flat's in the older buildings the rates may vary from Rs.30,000/- to Rs.40,000/- per sq.ft depending upon the location and condition of the building.</div> <div>The building in which this flat is located almost 40 years old and is in very poor and is very much run down from the inside. We learnt from the residents of other flats in this building that there is no proper maintenance of this building for a very long time and there is no Society existing in this building to take care of the building and maintain it. There are no facilities like lift, common area, etc. available in the building. Moreover,</div>		

		the flat is very much damaged and in very poor condition from inside and anyone wanting to use it again will have to spend substantial amount of money to repair and renovate it to make it fit for living again. Because of these factors it will be hard to sell this property as it will attract only few no. of buyers because of its condition. Keeping in view all these factors and the factors mentioned above we are of the view that the rates for this property should be Rs.25,000/- per sq. ft on carpet area and seems to be the reasonable rates for this property from our view.

**ENCLOSURE: VIII – VALUER’S REMARKS**

1.	This Valuation report is prepared based on the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. Verification or cross checking of the documents provided to us from the originals has not been done at our end.
2.	Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents, etc. have to be taken care by legal expert/ Advocate and same are not done at our end. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report.
3.	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work.
4.	Value varies with the Purpose/ Date/ Condition prevailing in the market. We recommend not to refer the indicative & estimated prospective Value of the asset given in this report if any of these points are different from the one mentioned aforesaid in the Report. We also recommend that the indicative estimated Value in the Valuation Report holds good only upto the period of 3 months from the date of Valuation.
5.	This report is having limited scope as per its fields & format <u>to provide only the general basic idea of the value of the property prevailing in the market based on the documents/ data/ information provided by the client. The suggested indicative prospective estimated value should be considered only if transaction is happened as free market transaction.</u>
6.	This Valuation report is prepared based on the facts of the property on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the country. In future property Market may go down, property conditions may change or may go worse, Property reputation may differ, Property vicinity conditions may go down or become worse, Property market may change due to impact of Govt. policies or effect of World economy, Usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk and should loan conservatively to keep the advanced money safe in case of the downward trend of the property value.
7.	Valuation of the same asset/ property can fetch different values in different situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly an asset sold directly by an owner in the market will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it will fetch lower value. Hence before financing, Banker/ FI should take into consideration all such future risks and should loan conservatively to keep the advanced money safe in case of any such situation.
8.	Getting cizra map or coordination with revenue officers for site identification is not done at our end.
9.	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just cross verified the identification of the property with reference to the documents produced for perusal. Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be carried out. It is requested from the Bank to cross check from their own records/ information if this is the same property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or misrepresented the property due to any vested interest.
10.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities & districts where property number is either not assigned or not displayed on the properties clearly and also due to the presence of multiple/ parallel departments due to which ownership/ rights/ illegal possession/ encroachment issues are rampant across India and due to these limitations at many occasions it becomes tough to identify the property with 100% surety from the available documents, information & site whereabouts and thus chances of error, misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error it is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents are provided.
11.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township must be approved in all respect..

12.	Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough to determine the exact lawful situation on ground for the Valuer. In case nothing specific is noted on the covered built-up area considered in the Valuation Report, the covered area present on the site as per site survey will be considered in the Valuation.
13.	Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion.
14.	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However our Valuation analysis can definitely help the stakeholders to make them informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction.
15.	This report is prepared on the RKA V-L1 (Basic) Valuation format as per the client requirement and scope of work. This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of the property prevailing in the market based on the information provided by the client. No detailed analysis, audit or verification has been carried out of the subject property.
16.	This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/ Bank/ Financial Institution which is using this report for mortgaging the property that they should consider all the different associated relevant & related factors & risks before taking any business decision based on the content of this report.
17.	All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report is without stamp & signature then this should not be considered a valid paper issued from this office.
18.	Defect Liability Period is <b>30 DAYS</b> . We request the concerned authorized reader of this report to check the contents, data and calculations in the report within this period and intimate us in writing if any corrections are required or in case of any other concern with the contents or opinion mentioned in the report. Corrections only related to typographical, calculation, spelling mistakes will be entertained within the defect liability period. No request for any illegitimate value revision, date change or any other change will be entertained other than the one mentioned above.
19.	R.K Associates encourages its customers to give feedback or inform concerns over its services through proper channel at <b>valuers@rkassociates.org</b> in writing within 30 days of report delivery. After this period no concern/ complaint/ proceedings in connection with the Valuation Services can be entertained due to possible change in situation and condition of the property.
20.	Our Data retention policy is of <b>ONE YEAR</b> . After this period we remove all the concerned records related to the assignment from our repository. No clarification or query can be answered after this period due to unavailability of the data.
21.	This Valuation report is governed by our (1) Internal Policies, Processes & Standard Operating Procedures, (2) R.K Associates Quality Policy, (3) Valuation & Survey Best Practices Guidelines formulated by management of R.K Associates, (4) Information input given to us by the customer and (4) Information/ Data/ Facts given to us by our field/ office technical team. Management of R.K Associates never gives acceptance to any unethical or unprofessional practice which may affect fair, correct & impartial assessment and which is against any prevailing law. In case of any indication of any negligence, default, incorrect, misleading, misrepresentation or distortion of facts in the report then it is the responsibility of the user of this report to immediately or atleast within the defect liability period bring all such act into notice of R.K Associates management so that corrective measures can be taken instantly.
22.	R.K Associates never releases any report doing alterations or modifications by pen. In case any information/ figure of this report is found altered with pen then this report will automatically become null & void.
