PART C

#### CHARACTERISTICS DESCRIPTION OF THE ASSET

#### 1. BRIEF DESCRIPTION OF THE PROPERTY UNDER VALUATION

This valuation report is prepared for the commercial parking structure/ complex being developed on the aforesaid address having total land area admeasuring 2,500 sq. mtr.

As per the Concession Agreement dated 4<sup>th</sup> February 2011, the Commissioner, Municipal Corporation of Shimla (called as Concessioning Authority) decided to develop a parking complex at the aforesaid address through Public Private Participation (PPP) on Design, Build, Operate & Transfer (DBOT) basis. The Himachal Pradesh Development Board (HPDB) undertook, for and on behalf of the Concessioning Authority, the process of selection of a suitable concessionaire through the competitive bidding process, after issuing a Request for Proposal (RFP) document dated May 2010 inviting bids/proposals. After evaluation of the proposals so received, HPIDB, on behalf of the Concessioning Authority, accepted the proposal of M/s. Tantia Sanjauli Parkings Pvt. Ltd. (Concessionaire) and issued a Notice of Award dated 18<sup>th</sup> November 2010 to the Concessionaire.

Further to this, an indenture was made between the Concessioning Authority and the Concessionaire vide a concession agreement dated 4<sup>th</sup> February 2011 for a period of 30-years from the date of compliance. The Certificate of Compliance was signed between MCS & TSPL on 8<sup>th</sup> October 2012. So, effectively the concession period will end in the year 2042.

As per the sanctioned plan dated 20<sup>th</sup> September 2022, the company had planned to construct a total of 9 floors (Basement + Ground + 7) having proposed built-up area of 16,515.45 sq. mtr. Out of the same, Basement to 5<sup>th</sup> floors is being used for car parking and 6<sup>th</sup> & 7<sup>th</sup> floors are to be used as commercial space. The total proposed covered parking and commercial space admeasures 12,415.93 sq. mtr. (400 vehicles) and 3,933.32 sq. mtr. respectively.

As per the information received from the company's representative and observations made during the site visit, the structural work (beams, columns and slabs) of all 9 floors is completed, however, the project is still under construction and the work was going on the 7<sup>th</sup> floor. As on date, there a total of 8 employees (Asst. Engineer, accountant, electrician, supervisor, etc.) of the company and 20 skilled/unskilled contractor's labors. The project completion shall take about a year or two from the date of site visit.

Since it is an income-generating asset and shall be transferred back to the Concessioning Authority after the concession period, therefore this valuation is assessed through Discounted

Page 5 of 44

## VALUATION ASSESSMENT M/S TANTIA SANJAULI PARKINGS PRIVATE LIMITED

Cash Flow method. The concession period assumed in the financial projections is taken up to 2045 (30 years with three-year extension of the concession agreement) and total number of parking assumed is 400.

As per the TEV study report dated 4<sup>th</sup> January 2018 prepared by Dun & Bradstreet, the originally envisaged project cost was ₹ 40.61 Cr. and the projected total cost to complete the project was ₹ 50.87 Cr. As per the latest information made available by the company, the cost of completion of the project is ₹ 3.88 Cr. from the date of site visit.

In case of discrepancy in the address mentioned in the property documents and the property shown to us at the site due to change in zoning or administrative level at the site or client misled the valuer by providing the fabricated document, the valuation should be considered of the property shown to us at the site of which the photographs are also attached. Our responsibility will be only related to the valuation of the property shown to us on the site and not regarding matching from the documents or searching the property from our own. Banker to verify from district administration/ tehsil level the identification of the property if it is the same matching with the document pledged.

This report only contains general assessment & opinion on the Guideline Value and the indicative, estimated Market Value of the property found on as-is-where basis on site for which the Bank/ customer has shown & asked us to conduct the Valuation for which photographs is also attached with the report. No legal aspects in terms of ownership or any other legal aspect is taken into consideration. It doesn't contain any due-diligence other than the valuation assessment of the property shown to us on site. Information/ data/ documents given to us by Bank/ client has been relied upon in good faith. This report doesn't contain any other recommendations of any sort.

Notes for assumptions:

General:

FILE NO.: VIS(2022-23)-PL201-Q043-164-353

- We have considered revenue and cost-based model while making the future financial projections.
- The projections are forecasted for 30 years with three-year extension of the concession agreement; up to FY2044-45.
- As per information provided by the company/client, the major source of revenue is parking space. Further, the 6th and 7th floor is designated to commercial area which shall be leased out.
- As per our discussion with company official, the project is delayed on part of the Concessioning Authority & weather condition. In fact; during the site visit, there were some places where seepage was found and during the discussions with the site in charge, it was informed that it is an unavoidable condition on the site.
- As per the conditions agreed, all of the current off-street and on-street parking areas in a 3 km radius of the current site shall be withdrawn. The current site shall be the most convenient place for cars coming in the region to park. With a significant residential and commercial/office base in the current site, demand for car parking spaces amongst the customers would be high.
- The new investor would have to incur approx. ₹ 3.90 Cr. in order to complete the balance works of the project and generate revenue as specified in the projections

#### Revenue:

- As per historical analysis and trend the average growth rate from FY2018 to FY2021 is 7.6% excluding the COVID period. The same has been considered for the next five years for future projections.
- Since, the micro and macro-economic factors are favorable for the project and post COVID situations the tourism industry has seen a boost in its economy. Therefore, we have allocated a growth rate of 1% in revenue growth after every 5 years which seems to be fair and reasonable considering the appropriate economic factors.
- As per the market survey conducted during the site visit, the rental rates for commercial
  office spaces in the vicinity of the subject property ranges from ₹ 50/- to ₹ 60/- per sq. ft.
  per month. However, for the valuation purpose, as per the market trend, we have assumed
  that the entire floor can be sub-leased to a party or two (floor-wise) as a bare shell structure.

FILE NO.: VIS(2022-23)-PL201-Q043-164-353

Page 16 of 44

rid's first fully digital Automated Platform for Integrating Valuation Life Cycle -A product of R.K. Associates

Therefore, the rental rate of ₹ 45/- per sq. ft. per month is assumed to be fair and reasonable.

- Escalation in monthly rental from commercial space has been kept at 5% for every alternate year.
- The project also earns from advertisement. The banners can be placed from 1<sup>st</sup> Floor to 5<sup>th</sup> floor if the 6<sup>th</sup> and 7<sup>th</sup> floor is completely sub-leased as assumed for the purpose of this valuation exercise. The company charges around ₹ 50/- to ₹ 60/- per sq. ft. for the advertisement purpose as per the information received during the site visit. However, no written document has been shared with us. Therefore, on conservative ₹ 10.00 Lakhs per year has been assumed to be fair and reasonable if the project gets the completion certificate. An escalation of 5% every alternate year has been considered for the valuation purpose.

#### Discount Rate:

Due to unavailability of comparable listed companies, we cannot determine the cost of debt
and equity easily, hence, in this scenario we have considered the NIFTY-50 15 years return
as a proxy for discount rate (required rate of return for an unbiased investor) which is 11%.

#### Expenses:

- The expenses include the construction cost to be incurred, employee benefits and other
  expenses. This also includes an annual fee for concession period and O&M performance
  security starting from the date of construction completion (as per concession agreement).
- Escalation rate for the expenses is based on previous years' average w.r.t. revenue growth rate for those years, which is found fair and reasonable as per industry trends.

#### Scenarios:

Scenarios are defined based on the different discount rates assumed to estimate the NPV.

Without these enclosures/ documents report shall stand null &amp; void.</li> </ul>							
J.	The production of the control of the	aluer is that n	rospective	estimate	d amount in	his expert	& prudent	
	j. Fair Value suggested by the competent Valuer is that prospective estimated amount in his expert & pruder opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of the assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length.						evaluated arse of the with all its which the	

transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the

parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Integrating Valuation Life Cycle A product of R.K. Associates

Fair Value without using the term "Market" in it describes that the value suggested by the Valuer may not mandatorily follow or may not be in complete consonance to the established Market in his expert opinion. It may or may not follow market dynamics. But if the suggested value by the valuer is not within the prevailing Market range or is assessed for an asset is located in an un-established Market then the valuer will give reasonable justification & reasoning that for what reasons the value suggested by him doesn't follow the prevailing market dynamics.

Fair Market Value suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice in consonance to the Market dynamics after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Here the words "in consonance to the established Market" means that the Valuer will give opinion within the realms & dynamics of the prevailing market rates after exhaustively doing the micro market research. However due to the element of "Fair" in it, valuer will always look for the factors if the value should be better than the market realms which is just & equitable backed by strong justification and reasoning.

Market Value suggested by the competent Valuer is that prospective estimated amount which is average price of the similar comparable assets prevailing in an open & established market during the near period of the date of valuation at which the subject asset/ property should be exchanged between a willing buyer and willing seller on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities at an arm's length transaction in an open, established & unrestricted market, in an orderly transaction, wherein the parties, each acted without any compulsion on the date of the Valuation.

Using the term "Market Value" without "Fair" omits the elements of proper marketing, acting knowledgeably & prudently.

Market and market participants can be sentimental, inclined towards the transaction without the element of complete knowledge & prudence about facts or due diligence of the asset therefore "each acted knowledgeably, prudently" has been removed from the marker Value definition.

Realizable Value is that minimum prospective estimated value of the asset/ property which it may be able to fetch at the time of actual property transaction factoring in the element of discount due to the prospects of deep negotiations between the buyer & seller when the parties in-principally find Fair Market Value reasonable and sits together to close the deal and the transaction across the table. Discount percentage on the Fair Market Value due to negotiation will depend on the nature, size, various salability prospects of the subject asset, the needs of the buyer & the seller and kind of payment terms. In some of the cases Realizable and Fair Market Value may also be equal.

Distress Sale Value\* is that value when the property is attached with any process such as mortgaged financing, financial or operational dues which is under any stress condition or situation and the stakeholders are under process of finding resolution towards it to save the property from being attached to a formal recovery process. In this type of sale, minimum fetch value assessed will always be less than the estimated Fair Market Value where the discount of percentage will depend upon various circumstances and factors such as nature, size, salability prospects of the property and kind of encumbrance on the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness & pressure of selling the property will be more on the seller than the buyer.

Liquidation Value is the amount that would be realized when an asset or group of assets are sold due

FILE NO.: VIS(2022-23)-PL201-Q043-164-353

Page 21 of 44

### VALUATION ASSESSMENT M/S TANTIA SANIAULI PARKINGS PRIVATE LIMITED

to any compulsion or constraints such as in a recovery process guided by statute, law or legal process, clearance sale or any such condition or situation thereof where the pressure of selling the asset/ property is very high to realize whatever maximum amount can be from the sale of the assets in a limited time for clearance of dues or due to closure of business. In other words, this kind of value is also called as forced sale value.

Difference between Cost, Price & Value: Generally, these words are used and understood synonymously. However, in reality each of these has a completely different meaning, premise and also having different definitions in professional & legal terms. Therefore, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.

The **Cost** of an asset represents the actual amount spend in the construction/ actual creation of the asset.

The Price is the amount paid for the procurement of the same asset.

The **Value** is defined as the present worth of future rights in the property/ asset and is a hypothetical or notional price that buyers and sellers are most likely to conclude for a good or service. Value is not a fact, but an estimate of the likely price to be paid for a good or service at a given time in accordance with a particular definition of value.

Therefore, in actual for the same asset/ property, cost, price & value remain different since these terms have different usage & meaning.

### VALUATION ASSESSMENT

M/S TANTIA SANJAULI PARKINGS PRIVATE LIMITED

#### **ENCLOSURE: V - VALUER'S IMPORTANT REMARKS**

	ENGLOSONE. V - VALUER S IMPORTANT REMARKS
1.	Valuation is done for the asset found on as-is-where basis which owner/ owner representative/ client/ bank has shown/ identified to us on the site unless otherwise mentioned in the report of which some reference has been taken from the information/ data given in the copy of documents provided to us and informed verbally or in writing out of the standard checklist of documents sought from the client & its customer which they could provide within the reasonable expected time out of the standard checklist of documents sought from them and further based on certain assumptions and limiting conditions. The information, facts, documents, data which has become primary basis of the report has been supplied by the client which has been relied upon in good faith and is not generated by the Valuer.
2.	The client/ owner and its management/ representatives warranted to us that the information they have supplied was complete, accurate and true and correct to the best of their knowledge. All such information provided to us either verbally, in writing or through documents has been relied upon in good faith and we have assumed that it is true & correct without any fabrication or misrepresentation. I/We shall not be held liable for any loss, damages, cost or expenses arising from fraudulent acts, misrepresentations, or willful default on part of the owner, company, its directors, employee, representative or agents.
3.	Legal aspects for eg. Investigation of title, ownership rights, lien, charge, mortgage, lease, sanctioned maps, verification of documents provided to us such as title documents, Map, etc. from any concerned Govt. office etc. have to be taken care by legal expert/ Advocate and same is not done at our end. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property after satisfying the authenticity of the documents given to us for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report. I/ We assume no responsibility for the legal matters including, but not limited to, legal or title concerns.
4.	In the course of the valuation, we were provided with both written and verbal information. We have however, evaluated the information provided to us through broad inquiry, analysis and review but have not carried out a due diligence or audit of the information provided for the purpose of this engagement. Our conclusions are based on the assumptions and other information provided to us by the client during the course of the assessment.
5.	Getting cizra map or coordination with revenue officers for site identification is a separate activity and is not part of the Valuation services and same has not been done in this report unless otherwise stated.
6.	Wherever any details are mentioned in the report in relation to any legal aspect of the property such as name of the owner, leases, etc. is only for illustration purpose and should not be construed as a professional opinion. Legal aspects are out of scope of this report. Details mentioned related to legal aspect are only based on the copy of the documents provided to us and whatever we can interpret as a non-legally trained person. This should be cross validated with a legal expert. We do not vouch any responsibility regarding the same.
7.	We have made certain assumptions in relation to facts, conditions & situations affecting the subject of, or approach to this exercise that has not been verified as part of the engagement rather, treated as "a supposition taken to be true". If any of these assumptions prove to be incorrect then our estimate on value will need to be reviewed.
8.	This is just an opinion report based on technical & market information having general assessment & opinion on the indicative, estimated Market Value of the property for which Bank has asked to conduct the Valuation. It doesn't contain any other recommendations of any sort including but not limited to express of any opinion on the suitability or otherwise of entering into any transaction with the borrower.
9.	We have relied on the data from third party, external sources & information available on public domain to conclude the valuation. These sources are believed to be reliable and therefore, we assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. Where we have relied on the data, opinions or estimates from external sources, reasonable care has been taken to ensure that such data is extracted from authentic sources, however we still can't vouch its authenticity, correctness, or accuracy.
10.	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work and based on the Standard Operating Procedures, Best Practices, Caveats, Limitations, Conditions, Remarks, Important Notes, Valuation TOR and definition of different nature of values.
11.	Value varies with the Purpose/ Date/ Asset Condition & situation/ Market condition, demand & supply, asset utility prevailing on a particular date/ Mode of sale. The indicative & estimated prospective Value of the asset given in this report is restricted only for the purpose and other points mentioned above prevailing on a particular date as mentioned in the report. If any of these points are different from the one mentioned aforesaid in the Report then this report should not be referred.
12.	Our report is meant ONLY for the purpose mentioned in the report and should not be used for any other purpose. The Report should not be copied or reproduced for any purpose other than the purpose for which it is prepared for I/we do not take any responsibility for the unauthorized use of this report.
13.	We owe responsibility only to the authority/client that has appointed us as per the scope of work mentioned in the report. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions or advice given by any other person. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on part of the client or companies, their directors, employees or agents.

World's first fully digital Automated Platform for Integrating Valuation Life Cycle -

Integrating Valuation Life Cycle A product of R.K. Associates

14. 15. 16.	This report is having limited scope as per its fields & format to provide only the general basic idea of the value of the property prevailing in the market based on the site inspection and documents/ data/ information provided by the client. The suggested indicative prospective estimated value should be considered only if transaction is happened as free market transaction.  The sale of the subject property is assumed to be on an all cash basis. Financial arrangements would affect the price at which the property may sell for if placed on the market.  The actual realizable value that is likely to be fetched upon sale of the asset under consideration shall entirely depend on the market and appeared and supply of the came in the market at the time of calc.		
16.	The sale of the subject property is assumed to be on an all cash basis. Financial arrangements would affect the price at which the property may sell for if placed on the market. 16.	price at which the property may sell for if placed on the market.  The actual realizable value that is likely to be fetched upon sale of the asset under consideration shall entirely depend		
	The actual realizable value that is likely to be fetched upon sale of the asset under consideration shall entirely depend		
17.	on the demand and supply of the same in the market at the time of sale		
17.	on the demand and supply of the same in the market at the time of sale.		
	While our work has involved an analysis & computation of valuation, it does not include detailed estimation, design technical/ engineering/ financial/ structural/ environmental/ architectural/ compliance survey/ safety audit & works in accordance with generally accepted standards of audit & other such works. The report in this work in not investigative in nature. It is mere an opinion on the likely estimated valuation based on the facts & details presented to us by the client and third party market information came in front of us within the limited time of this assignment, which may vary from situation to situation.		
18.	Where a sketched plan is attached to this report, it does not purport to represent accurate architectural plans. Sketch plans and photographs are provided as general illustrations only.		
19.	Documents, information, data including title deeds provided to us during the course of this assessment by the client is reviewed only upto the extent required in relation to the scope of the work. No document has been reviewed beyond the scope of the work. These are not reviewed in terms of legal rights for which we do not have expertise. Wherever any information mentioned in this report is mentioned from the documents like owners name, etc., it is only for illustration purpose and may not necessary represent accuracy.		
20.	The report assumes that the borrower/company/business/asset complies fully with relevant laws and regulations applicable in its area of operations and usage unless otherwise stated, and that the companies/business/assets is managed in a competent and responsible manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a legal nature, including issues of legal title and compliance with relevant laws, and litigations and other contingent liabilities that are not recorded/reflected in the documents/ details/ information/ data provided to us.		
21.	This valuation report is not a qualification for accuracy of land boundaries, schedule (in physical terms), dimensions & identification. For this land/ property survey report can be sought from a qualified private or Govt. surveyor.		
22.			
23.	Valuation of the same asset/ property can fetch different values under different circumstances & situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly, an asset sold directly by an owner in the open market through free market transaction then it will fetch better value and if the same asset/ property is sold by any financer due to encumbrance on it, will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing and take decision accordingly.		
24.	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just visually matched the land boundaries, schedule (in physical terms) & dimensions of the property with reference to the documents produced for perusal. Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be carried out. It is requested from the Bank to cross check from their own records/ information if this is the same property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or misrepresented the property due to any vested interest. Where there is a doubt about the precision position of the boundaries, schedule, dimensions of site & structures, it is recommended that a Licensed Surveyor be contacted.		
25.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities & districts where property number is either not assigned or not displayed on the properties clearly and also due to the presence of multiple/ parallel departments due to which ownership/ rights/ illegal possession/ encroachment issues are rampant across India and due to these limitations at many occasions it becomes tough to identify the property with 100% surety from the available documents, information & site whereabouts and thus chances of error, misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error it is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents are provided.  If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made for the specific unit based on the assumption that complete Group Housing Society/		
	Integrated Township and the subject unit must be approved in all respect.		

orld's first fully digital Automated Platform for Integrating Valuation Life Cycle -A product of R.K. Associates

27. Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/

27.	guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable the time when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough for the Valuer to determine the exact lawful situation on ground. Unless otherwise mentioned in the report, the covered area present on the site as per		
28.	site survey will be considered in the Valuation.  Area of the large land parcels of more than 2500 sq.mtr or of uneven shape in which there can be practical difficulty		
20	in sample measurement, is taken as per property documents which has been relied upon unless otherwise stated.		
30.	Drawing Map, design & detailed estimation of the property/ building is out of scope of the Valuation services.  Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion.		
31.			
32.	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers, demand & supply prevailing in the market and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However, our Valuation analysis can definitely help the stakeholders to take informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction.		
33.	This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component, or item wise analysis. Analysis done is a general assessment and is not investigative in nature.		
34.	This report is prepared on the RKA V-L1 (Basic) Valuation format as per the client requirement and scope of work. This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of the property prevailing in the market based on the information provided by the client. No detailed analysis, audit or verification has been carried out of the subject property. There may be matters, other than those noted in this report, which might be relevant in the context of the transaction and which a wider scope might uncover.		
35.	This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client Bank/ Financial Institution which is using this report for mortgaging the property that they should consider all the different associated relevant & related factors & risks before taking any business decision based on the content of this report.		
36.	All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report is without stamp & signature then this should not be considered a valid paper issued from this office.		
37.	As per IBA Guidelines & Bank Policy, in case the valuation report submitted by the valuer is not in order, the banks / FIs shall bring the same to the notice of the valuer within 15 days of submission for rectification and resubmission. In case no such communication is received, it shall be presumed that the valuation report has been accepted.		
38.	Defect Liability Period is 15 DAYS. We request the concerned authorized reader of this report to check the contents, data, information, and calculations in the report within this period and intimate us in writing at <a href="mailto:valuers@rkassociates.org">valuers@rkassociates.org</a> within 15 days of report delivery, if any corrections are required or in case of any other concern with the contents or opinion mentioned in the report. If no intimation is received within 15 (Fifteen) days in writing from the date of issuance of the report, then it shall be considered that the report is complete in all respect and has been accepted by the client upto their satisfaction & use and further to which R.K Associates shall not be held responsible in any manner. After this period no concern/ complaint/ proceedings in connection with the Valuation Services will be entertained due to possible change in situation and condition of the property.		
39.	Though adequate care has been taken while preparing this report as per its scope, but still we can't rule out typing, human errors, over sightedness of any information or any other mistakes. Therefore, the concerned organization is advised to satisfy themselves that the report is complete & satisfactory in all respect. Intimation regarding any discrepancy shall be brought into our notice immediately. If no intimation is received within 15 (Fifteen) days in writing from the date of issuance of the report, to rectify these timely, then it shall be considered that the report is complete in all respect and has been accepted by the client upto their satisfaction & use and further to which R.K Associates shall not be held responsible in any manner.		
40.	Our Data retention policy is of <u>ONE YEAR</u> . After this period we remove all the concerned records related to the assignment from our repository. No clarification or query can be answered after this period due to unavailability of the data.		
41.	This Valuation report is governed by our (1) Internal Policies, Processes & Standard Operating Procedures, (2) R.K. Associates Quality Policy, (3) Valuation & Survey Best Practices Guidelines formulated by management of R.K.

#### **Endorsement:**

### Signature of the Person who was present from the owner side to identify the property;

Undertaking: I have shown the correct property and provided the correct information about the property to the surveyor of R.K Associates to the best of my knowledge for which Valuation has to be prepared. In case I have shown wrong property or misled the valuer company in any way then I'll be solely responsible for this unlawfui act.

a. Name of the Person: Mr. 2.0 Showing.
b. Relation: Site Fuchwige / Progred Mg.
c. Signature: Oronbull
d. Date:

d. Date:

In case not signed then mention the reason for it: 

No one was available, 
Property is locked, 
Owner/ representative refused to sign it,  $\square$  Any other reason:

### Surveyor Signature who did site inspection:

Undertaking: I have inspected the property and cross verified the property details at site to the extent of a. Matching boundaries of the property, b. Sample measurement of its area, c. Physical condition, d. Property rates as per local information with what is mentioned in the property documents provided to me by the Bank/ interested organization. I have not come under influence of anyone during site inspection and have only recorded the true and factual details in the survey form which I come across during the site survey. I understand that giving any manipulative information in the survey form will lead to incorrect Valuation report which is an unlawful act and i'll be solely responsible for doing it.
