6	Canteen	Ground	RCC	499.334	5375
7	Security Room	Ground	RCC	9	97
8	Meter Room	Ground	RCC	9	97
9	Pump Room Mumty	First	RCC	14.535	156
10	Scrap Yard	Ground	GI Shed	100	1076
11	Main Building (Mumty)	Mumty	RCC	257.989	2777
12	Canteen Mumty	Mumty	RCC	28.75	309
Total				8513.60	91640

As per the verbal information provided to us by the client the building structures are 7 years old and also as per our visual observation the building seems to be maintained in a good condition.

The subject property is located in Sector-05 of IMT Bawal which is a well -developed industrial area in Rewari district of Haryana. This property lies right on the Delhi-Jaipur National Highway NH-8 having road width of approx. 200 feet.

As per their company policy, the company representative allowed our surveyors to take very limited photographs of the property and none from inside the buildings.

The covered area of the buildings is taken from the copy of the approved building plans provided to us which was cross checked at the site by sample measurements by our surveyours. The company has also obtained Occupation Certificate for the building structures from HSIDC.

This report only contains general assessment & opinion on the Guideline Value and the indicative,

	estimated Market Value of the property for which Bank has asked to conduct the Valuation and found as per the information given in the copy of documents provided to us and/ or confirmed by the owner/ owner representative to us at site which has been relied upon in good faith. It doesn't contain any other recommendations of any sort.			
a.	Location attribute of the property			
i.	Nearby Landmark	Asahi India Glass Limited		
ii.	Postal Address of the Property	Plot No. 09, Sector-05, Phase-I, Industrial Estate Growth Centre, Bawal, District Rewari, Haryana 123501		
iii.	Area of the Plot/ Land	Approx. 28,350 sq.mtr.		
		Also please refer to Part-B Area description of the property. Area measurements considered in the Valuation Report is adopted from relevant approved documents or actual site measurement whichever is less. Verification of the area measurement of the property is done only based on sample random checking.		
iv.	Type of Land	Solid Land		
v.	Independent access/ approach to the property	Clear independent access is available		
vi.	Google Map Location of the Property with a neighborhood layout map	Enclosed with the Report		
		Coordinates or URL: 28°05'40.5"N 76°35'38.6"E		
vii.	Details of the roads abutting the property			
	i. Main Road Name & Width	NH-8	200 ft.	
	ii. Front Road Name & width	NH-8	200 ft.	
	iii. Type of Approach Road	Bituminous Road		
	iv. Distance from the Main Road	On main road		
viii.	Description of adjoining property	Notified Industrial area so all adjacent land use is Industrial		
ix.	Plot No./ Survey No.	Plot no. 09		
x.	Zone/ Sector	Industrial Estate	Sector 05	
xi.	Sub registrar	Bawal		
xii.	District	Rewari		
xiii.	Any other aspect	Valuation is done for the property found as per the information given in the copy of documents provided to us and/ or confirmed by the owner/ owner representative to us at site.		
		Getting cizra map or coordination with revenue officers for site identification is a separate activity and is not part of the Valuation services.		
	1. Identification of the property (Property found as per the information given in the documents provided to us and/ or confirmed by the owner/ owner representative to us on site.)	<input checked="" type="checkbox"/>	From Schedule of the Property mentioned in the deed	
		<input checked="" type="checkbox"/>	Done from the name plate displayed on the property	
		<input type="checkbox"/>	Identified by the owner	
		<input type="checkbox"/>	Enquired from local residents/ public	
		<input checked="" type="checkbox"/>	Identified by owner's representative	
		<input type="checkbox"/>	Identification of the property could not be done properly	
		<input type="checkbox"/>	Survey was not done	
2. Type of Survey		Full survey (inside-out with approximate measurements & photographs).		

VALUATION ASSESSMENT

M/S. UCAL FUEL SYSTEMS LIMITED

	3. Is property clearly demarcated by permanent/ temporary boundary on site	Yes demarcated properly	
	4. Is the property merged or colluded with any other property	No. It is an independent single bounded property	

	5. City Categorization	Scale-C City	Semi Urban
	6. Characteristics of the locality	Good	Within notified industrial area

	a) Property location classification	On Wide Road	On Highway	None
	7. Property Facing	North Facing		
	Covered Built-up area description (Plinth/ Carpet/ Saleable Area)	Approx. 8513.60 sq.mtr. (91,640 sq.ft.)		
		Also please refer to Part B - Area description of the property. Area measurements considered in the Valuation Report is adopted from relevant approved documents or actual site measurement whichever is less. Verification of the area measurement of the property is done only based on sample random checking.		
b.	Boundaries schedule of the Property			
i.	Are Boundaries matched	Yes from the available documents		
ii.	Directions	As per Sale Deed/TIR/Allotment Letter	Actual found at Site	
	East	Plot no. 08	Plot no. 08	
	West	Plot no. 10	Plot no. 10	
	North	Road	Road	
	South	Vacant Plot	Vacant Plot	

3.	TOWN PLANNING/ ZONING PARAMETERS		
a.	Master Plan provisions related to property in terms of Land use	Industrial	
	i. Any conversion of land use done	Must have been obtained by HSIIDC	
	ii. Current activity done in the property	Industrial	
	iii. Is property usage as per applicable zoning	Yes	
	iv. Any notification on change of zoning regulation	No	
	v. Street Notification	Industrial	
b.	Provision of Building by-laws as applicable	PERMITTED	CONSUMED
	i. FAR/ FSI	Please refer to area chart description	Please refer to area chart description
	ii. Ground coverage	-----do-----	-----do-----
	iii. Number of floors	-----do-----	-----do-----
	iv. Height restrictions	-----do-----	-----do-----
	v. Front/ Back/ Side Setback	-----do-----	-----do-----
c.	Status of Completion/ Occupational certificate	Obtained	Dated 13/06/2012
d.	Comment on unauthorized construction if any	No, since Occupation Certificate is obtained and also by visual observation	
e.	Comment on Transferability of developmental rights	As per the norms of HSIIDC	
f.	1. Planning Area/ Zone	Industrial area of HSIIDC	
	2. Master Plan currently in force	Master Plan Bawal-2021	
	3. Municipal limits	Area not within Municipal limits	
g.	Developmental controls/ Authority	HSIIDC	
h.	Zoning regulations	Industrial	

VALUATION ASSESSMENT

M/S. UCAL FUEL SYSTEMS LIMITED

i.	Comment on the surrounding land uses & adjoining properties in terms of uses	Notified Industrial area so all adjacent land use is Industrial
j.	Comment of Demolition proceedings if any	Not in our knowledge
k.	Comment on Compounding/ Regularization proceedings	Not in our knowledge
l.	Any other aspect	
	i. Any information on encroachment	No
	ii. Is the area part of unauthorized area/ colony	No

4.	DOCUMENT DETAILS AND LEGAL ASPECTS OF THE PROPERTY			
a.	Ownership documents provided	Conveyance Deed	Occupation Certificate	None
b.	Names of the Legal Owner/s	M/s. UCAL Fuel Systems Limited		
c.	Constitution of the Property	Freehold property		
d.	Agreement of easement if any	Not required		
e.	Notice of acquisition if any and area under acquisition	No, as per general information available in the public domain		
f.	Notification of road widening if any and area under acquisition	No, as per general information available in the public domain		
g.	Heritage restrictions, if any	No		
h.	Comment on Transferability of the property ownership	Freehold property however prior permission needs to be taken from HSIIDC before transferring the property.		
i.	Comment on existing mortgages/ charges/ encumbrances on the property, if any	Not known to us	----

k.	Building plan sanction:			
	i. Authority approving the plan	HSIIDC		
	ii. Name of the office of the Authority	Vanijya Nikunj, Udyog Vihar, Phase V, Phase V, Udyog Vihar, Sector 19, Gurugram, Haryana 122008		
	iii. Any violation from the approved Building Plan	No, since Occupation Certificate is issued by HSIIDC		
l.	Whether Property is Agricultural Land if yes, any conversion is contemplated	No not an agricultural property		
m.	Whether the property SARFAESI complaint	Yes		
n.	i. Information regarding municipal taxes (<i>property tax, water tax, electricity bill</i>)	Property Tax	No information available	
		Water Tax	No information available	
		Electricity Bill	Yes, last bill/ payment receipt attached.	
	ii. Observation on Dispute or Dues if any in payment of bills/ taxes	No such information came to knowledge on site		
	iii. Is property tax been paid for this property	Information not available. Please confirm from the owner.		
	iv. Property or Tax Id No.	Not provided		

VALUATION ASSESSMENT

M/S. UCAL FUEL SYSTEMS LIMITED

o.	Whether entire piece of land on which the unit is set up / property is situated has been mortgaged or to be mortgaged	No information available to us
p.	Qualification in TIR/Mitigation suggested if any	Legal opinion has to be given by Advocate/ legal expert.
q.	Any other aspect	This is just an opinion report on Valuation based on the copy of the documents/ information provided to us by the client and has been relied upon in good faith of the property found as per the information given in the documents provided to us and/ or confirmed by the owner/ owner representative to us on site. Legal aspects, Title verification, Verification of authenticity of documents from originals or cross checking from any Govt. deptt. of the property have to be taken care by legal expert/ Advocate.
	1. Since how long owners owning the Property	Allotted in the year 2006 but Conveyance Deed executed in the year 2012
	2. Year of Acquisition/ Purchase	Allotted in the year 2006 but Conveyance Deed executed in the year 2012
	3. Property presently occupied/ possessed by	Owner
	4. Title verification	Legal aspects or Title verification have to be taken care by competent advocate.
	5. Details of leases if any	NA

5.	ECONOMIC ASPECTS OF THE PROPERTY	
a.	Reasonable letting value/ Expected market monthly rental	NA
b.	Is property presently on rent	No
	a) Number of tenants	NA
	b) Since how long lease is in place	NA
	c) Status of tenancy right	NA
	d) Amount of monthly rent received	NA
c.	Taxes and other outgoing	Owner company to provide this information
d.	Property Insurance details	Owner company to provide this information
e.	Monthly maintenance charges payable	Owner company to provide this information
f.	Security charges, etc.	Owner company to provide this information
g.	Any other aspect	NA

6.	SOCIO - CULTURAL ASPECTS OF THE PROPERTY	
a.	Descriptive account of the location of the property in terms of Social structure of the area in terms of population, social stratification, regional origin, age groups, economic levels, location of slums/squatter settlements nearby, etc.	Notified Industrial area.

b.	Whether property belongs to social infrastructure like hospital, school, old age homes etc.	No
----	---	----

7. FUNCTIONAL AND UTILITARIAN SERVICES, FACILITIES & AMENITIES					
a.	Description of the functionality & utility of the property in terms of :				
	a. Space allocation		Yes		
	b. Storage spaces		Yes		
	c. Utility of spaces provided within the building		Yes		
	d. Car parking facilities		Yes		
	e. Balconies		No		
b.	Any other aspect				
	a. Drainage arrangements		Yes		
	b. Water Treatment Plant		No		
	c. Power Supply arrangements	Permanent	Yes		
		Auxiliary	Yes, D.G sets		
	d. HVAC system		No, only individual ACs installed		
	e. Security provisions		Yes/ Private security guards		
	f. Lift/ Elevators		No		
	g. Compound wall/ Main Gate		Yes		
	h. Whether gated society		No		
	i. Internal development				
	Garden/ Park/ Land scraping	Water bodies	Internal roads	Pavements	Boundary Wall
	Yes	No	Yes	Yes	Yes

8.	INFRASTRUCTURE AVAILABILITY						
a.	Description of Aqua Infrastructure availability in terms of:						
	i. Water Supply			Yes			
	ii. Sewerage/ sanitation system			Underground			
	iii. Storm water drainage			Yes			
b.	Description of other Physical Infrastructure facilities in terms of:						
	a) Solid waste management			Yes, by selves			
	b) Electricity			Yes			
	c) Road and Public Transport connectivity			Yes			
	d) Availability of other public utilities nearby			Transport, Market, Hospital etc. available in close vicinity			
i.	Proximity & availability of civic amenities & social infrastructure						
	School	Hospital	Market	Bus Stop	Railway Station	Metro	Airport
	2.5 Km	1 Km.	04 Km.	01 km	12 Km	NA	NA
	Availability of recreation facilities (parks, open			This is a semi urban area. No recreational facility is			

spaces etc.)	available nearby.
--------------	-------------------

9. MARKETABILITY ASPECTS OF THE PROPERTY:			
i.	Marketability of the property in terms of		
	i. Location attribute of the subject property	Good	
	ii. Scarcity	Similar kind of properties are not easily available in this area.	
	iii. Market condition related to demand and supply of the kind of the subject property in the area	Moderate demand of the property because of its large size	
	iv. Comparable Sale Prices in the locality	Please refer to Part C: Valuation Assessment of the Property.	
ii.	Any other aspect which has relevance on the value or marketability of the property	No	
	i. Any New Development in surrounding area	Yes	Railway line proposed.
	ii. Any negativity/ defect/ disadvantages in the property/ location	No	----

10. ENGINEERING AND TECHNOLOGY ASPECTS OF THE PROPERTY:			
a.	Type of construction & design	RCC framed pillar, beam, column structure on RCC slab & GI shed mounted on iron pillars, trusses frame structure	
b.	Method of construction	Regular masonry construction using standard quality material	
c.	Specifications		
	a. Class of construction	Class B construction (Good)	
	b. Appearance/ Condition of structures	Internal -Good	
		External - Good	
	c.Roof	Floors/ Blocks	Type of Roof
		Main Building	RCC
	d. Floor height	10 – 35 ft	
	e. Type of flooring	Kota stone, Vitrified tiles, Ceramic Tiles, PCC	
	f. Doors/ Windows	Aluminum flushed doors & windowsSteel frame doors and windows and steel shutters	
	g. Interior Finishing	Simple Plastered Walls	
	h. Exterior Finishing	Simple plastered walls	
	i. Interior decoration/ Special architectural or decorative feature	Simple plain looking structure.	
j. Class of electrical fittings	Internal/ Normal quality fittings used		
	k.Class of sanitary & water supply fittings	Internal/ Normal quality fittings used	
d.	Maintenance issues	No maintenance issue, structure is maintained properly	
e.	Age of building/ Year of construction	Approx. 07 years	2012

f.	Total life of the structure/ Remaining life expected	Approx. 35-40 years for GI shed Approx. 60-65 years for RCC roofed	Approx. 30-35 years for GI shed Approx. 55-60 years for RCC roofed All subject to proper and timely maintenance
g.	Extent of deterioration in the structure	No deterioration came into notice through visual observation	
h.	Structural safety	Appears to be structurally stable	
i.	Protection against natural disasters viz. earthquakes etc.	Since this is a RCC structure so should be able to withstand moderate intensity earthquakes. Comments are been made only based on visual observation and not any technical testing.	
j.	Visible damage in the building if any	No visible damages in the structure	
k.	System of air conditioning	Partially covered with window/ split ACs	
l.	Provision of firefighting	Fire Extinguishers available	
m.	Status of Building Plans/ Maps	Sanctioned by competent authority	
	6. Is Building as per approved Map	Yes, since Occupation Certificate has been obtained from the concerned authority	
	7. Details of alterations/ deviations/ illegal construction/ encroachment noticed in the structure from the original approved plan	<input type="checkbox"/> Permissible Alterations	NA
		<input type="checkbox"/> Not permitted alteration	NA
	8. Is this being regularized	No information provided	

11.	ENVIRONMENTAL FACTORS:		
a.	Use of environment friendly building materials like fly ash brick, other Green building techniques if any	Not known to us	
b.	Provision of rainwater harvesting	Yes	
c.	Use of solar heating and lighting systems, etc.	No	
d.	Presence of environmental pollution in the vicinity of the property in terms of industries, heavy traffic, etc. if any	Yes, normal vehicular pollution present	

12.	ARCHITECTURAL AND AESTHETIC QUALITY OF THE PROPERTY:		
a.	Descriptive account on whether the building is modern, old fashioned, etc., plain looking or with decorative elements, heritage value if applicable, presence of landscape elements, etc.	Modern structure	

13.	VALUATION:		
i.	Methodology of Valuation – Procedures	Please refer to Sub-Point 'n' of Point 1 of Part C:	

VALUATION ASSESSMENT

M/S. UCAL FUEL SYSTEMS LIMITED

	adopted for arriving at the Valuation	Valuation Assessment Factors of the report.

		Scale-C City	Good	On Wide Road	NA
		Urban Developed	Within notified industrial area	On Highway	
				None	
		Property Facing	North Facing		
g.	Any New Development in surrounding area	Proposed railway line.		---	
h.	Any specific advantage/ drawback in the property	Yes, it is located right on the Delhi-Jaipur National Highway			
i.	Overall property usability Factor	Normal			
j.	Comment on Property Salability Outlook	Will be a little difficult to sell due to current weak market conditions			
k.	Comment on Demand & Supply in the Market	Moderate demand of the property because of its large size. And also weak economic conditions prevailing			
l.	Any other aspect which has relevance on the value or marketability of the property	NA			
		Valuation of the same asset/ property can fetch different values under different circumstances & situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly an asset sold directly by an owner in the open market through free market transaction then it will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it, will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while			

		<p>financing.</p> <p>This Valuation report is prepared based on the facts of the property & market situation on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the country. In future property market may go down, property conditions may change or may go worse, property reputation may differ, property vicinity conditions may go down or become worse, property market may change due to impact of Govt. policies or effect of World economy, usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk while financing.</p>
m.	Sale transaction method assumed	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.
n.	Best Sale procedure to realize maximum Value	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.
o.	Methodology/ Basis of Valuation	<p>Govt. Guideline Value: HSIIDC Allotment Rates-2018</p> <p>Market Value: Assessment of Premium charges to be paid on transfer of Lease hold rights and Building construction value is calculated on the basis of 'Depreciated Replacement Cost approach'</p> <p><i>Valuation of the asset is done as found on as-is-where basis.</i></p> <p><i>Valuation is done based on the Valuation best practices, standard operating procedures and definitions prescribed by various organizations like IVSC, Income Tax of India, etc. as defined under.</i></p> <p><i>For knowing comparable market rates, significant discreet local enquiries have been made from our side representing ourselves as both buyer and seller for the similar properties in the subject area and thereafter based on this information and various factors of the property, a rate has been judiciously taken considering the market scenario.</i></p> <p><i>References regarding the prevailing market rates are based on the verbal/ informal/ secondary/ tertiary information collected during market survey in the subject area from the local people, property consultants, recent deals, demand-supply, internet postings which are relied upon. No written record is generally available for such market information and only the verbal information has to be relied upon.</i></p> <p><i>Market Rates are rationally adopted based on the facts of the property that came to our knowledge during the course of the assignment considering many factors like nature of the property, size, location, approach, market situation and trends.</i></p> <p><i>The indicative value has been suggested based on the prevailing market rates that came to our knowledge during secondary & tertiary market researches and does not split into formal & informal payment components.</i></p> <p><i>Secondary/ Tertiary costs related to asset transaction like Stamp Duty, Registration charges, Brokerage, Bank interest, selling cost, marketing cost, etc. pertaining to the sale/ purchase of this property are not considered while assessing the indicative estimated Market Value.</i></p> <p><i>This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Fair Market Value. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.</i></p> <p><i>Construction rates are adopted based on the present market replacement cost of</i></p>

construction and calculating applicable depreciation & deterioration factor as per its existing condition & specifications based on only visual observation of the structure. No structural, physical tests have been carried out in respect of it.

Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method.

The condition assessment and the estimation of the residual economic life of the structure is only based on the visual observations and appearance found during the site survey. We have not carried out any structural design or stability study; nor carried out any physical tests to assess structural integrity & strength.

Sale transaction method of the asset is assumed as free market transaction while assessing Indicative & Estimated Fair Prospective Market Value of the asset.

Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset has not been factored in the Valuation.

This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is not investigative in nature

Fair Market Value[#] suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him related to the subject asset at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, after proper marketing, wherein the parties, each acted knowledgeably, prudently and without any compulsion on the date of the Valuation.

Forced, under compulsion & constraint, obligatory sales transactions data doesn't indicate the Fair Market Value.

Realizable Value[^] is the minimum prospective estimated value of the property which it may be able to realize at the time of actual property transaction factoring in the potential prospects of deep negotiations carried out between the buyer & seller for ultimately finalizing the transaction across the table. Realizable value may be 10-20% less than the Fair Market Value depending on the various salability prospects of the subject property and the needs of the buyer & the seller.

Forced/ Distress Sale Value^{*} is the value when the property has to be sold due to any compulsion or constraint like financial encumbrances, dispute, as a part of a recovery process, any defect in the property, legal issues or any such condition or situation. In this type of sale, minimum fetch value is assessed which can be 25-40% less than the estimated Fair Market Value based on the nature, size & salability prospects of the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness & pressure of selling the property is more than buying it. Therefore the Forced/ Distress Sale Value will always fetch significantly less value compare to the estimated Fair Market Value.

Liquidation Value is the amount that would be realized when an asset or group of assets are sold on a piecemeal basis that is without consideration of benefits (or detriments) associated with a going-concern business. Liquidation value can be either in an orderly transaction with a typical marketing period or in a forced transaction with a shortened marketing period.

Difference between Cost, Price & Value: Generally these words are used and understood synonymously. However in reality each of these has a completely

		<p><i>different meaning, premise and also having different definitions in the professional & legal terms. Therefore to avoid confusion, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.</i></p> <p><i>The Cost of an asset represents the actual amount spend in the construction/ actual creation of the asset.</i></p> <p><i>The Price is the amount paid for the procurement of the same asset.</i></p> <p><i>The Value is defined as the present worth of future rights in the property/ asset and depends to a great extent on combination of various factors such as demand and supply, market situation, purpose, situation & needs of the buyer & seller, saleability outlook, usability factor, market perception & reputation. needs of the buyer & seller, saleability outlook, usability factor, market perception & reputation.</i></p> <p><i>Therefore in actual for the same asset/ property, cost, price & value remain different since these terms have different usage & meaning.</i></p>

q.	Adopted Rates Justification	<i>The subject property is situated in sector-05 Bawal. The rates in the vicinity varies as per the distance of the property from the NH-8. The rates in the subject vicinity varies within the range of Rs. 8,500 – Rs. 10,000/- per sq.mtr. Keeping in mind the large size of the plot and considering the property is situated on NH-8 we are of the view to adopt a rate of Rs. 9,000/- per sq. mtr. which we feel is reasonable</i>

VALUATION OF LAND <i>Applicable</i>			
	Particulars	Govt. Circle/ Guideline Value	Indicative & Estimated Prospective Fair Market Value
i.	Prevailing Rate range	Rs. 7,696/- per sq.mtr	Rs.8,500 – Rs. 10,000/- per sq.mtr

4	IMT Rohtak (Phase I - III)	7200

VALUER'S REMARKS - ANNEXURE VIII

a)	This Valuation report is prepared based on the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. Verification or cross checking of the documents provided to us from the originals has not been done at our end.
b)	Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents, etc. have to be taken care by legal expert/ Advocate and same are not done at our end. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report.
c)	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work.
d)	Value varies with the Purpose/ Date/ Condition prevailing in the market. We recommend not to refer the indicative & estimated prospective Value of the asset given in this report if any of these points are different from the one mentioned aforesaid in the Report. We also recommend that the indicative estimated Value in the Valuation Report holds good only upto the period of 3 months from the date of Valuation.
e)	This report is having limited scope as per its fields & format <u>to provide only the general basic idea of the value of the property prevailing in the market</u> based on the documents/ data/ information provided by the client. The suggested indicative prospective estimated value should be considered only if transaction is happened <u>as free market transaction</u> .
f)	This Valuation report is prepared based on the facts of the property on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the country. In future property Market may go down, property conditions may change or may go worse, Property reputation may differ, Property vicinity conditions may go down or become worse, Property market may change due to impact of Govt. policies or effect of World economy, Usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk and should loan conservatively to keep the advanced money safe in case of the downward trend of the property value.
g)	Valuation of the same asset/ property can fetch different values in different situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly an asset sold directly by an owner in the market will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it will fetch lower value. Hence before financing, Banker/ FI should take into consideration all such future risks and should loan conservatively to keep the advanced money safe in case of any such situation.
h)	Getting cizra map or coordination with revenue officers for site identification is not done at our end.
i)	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just cross verified the identification of the property with reference to the documents produced for perusal. Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be carried out. It is requested from the Bank to cross check from their own records/ information if this is the same property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or misrepresented the property due to any vested interest.
j)	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities & districts where property number is either not assigned or not displayed on the properties clearly and also due to the presence of multiple/ parallel departments due to which ownership/ rights/ illegal possession/ encroachment issues are rampant across India and due to these limitations at many occasions it becomes tough to identify the property with 100% surety from the available documents, information & site whereabouts and thus chances of error, misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error it is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents are provided.
k)	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township must be approved in all respect..

l)	Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough to determine the exact lawful situation on ground for the Valuer. In case nothing specific is noted on the covered built-up area considered in the Valuation Report, the covered area present on the site as per site survey will be considered in the Valuation.
m)	Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion.
n)	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However our Valuation analysis can definitely help the stakeholders to make them informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction.
o)	This report is prepared on the RKA V-L3 (Medium) Valuation format as per the client requirement and scope of work. This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of the property prevailing in the market based on the information provided by the client. No detailed analysis, audit or verification has been carried out of the subject property.
p)	This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/ Bank/ Financial Institution which is using this report for mortgaging the property that they should consider all the different associated relevant & related factors & risks before taking any business decision based on the content of this report.
q)	All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report is without stamp & signature then this should not be considered a valid paper issued from this office.
r)	Defect Liability Period is 30 DAYS .
