	iii. Any violation from the approved Building Plan	No, since the C NOIDA	ompletion Certific	ate is issued b		
I.	Whether Property is Agricultural Land if yes, any conversion is contemplated	No not an agricult	ural property			
m.	Whether the property SARFAESI complaint	Yes				
n.	i. Information regarding municipal taxes	Property Tax No information available				
	(property tax, water tax, electricity bill)	Water Tax	No inform	ation available		
		Electricity Bill	No inform	ation available		
	ii. Observation on Dispute or Dues if any in payment of bills/ taxes	No such information	on came to knowle	dge on site		
	iii. Is property tax been paid for this property	Information not av owner.	ailable. Please cor	nfirm from the		
	iv. Property or Tax Id No.	Not provided				
0.	Whether entire piece of land on which the unit is set up / property is situated has been mortgaged or to be mortgaged	nit Yes, Mortgaged				
p.	Qualification in TIR/Mitigation suggested if any	Cannot comment since copy of TIR not made availal to us		not made availab		
q.	Any other aspect	<ul> <li>This is just an opinion report on Valuation based on the copy of the documents/ information provided to us by the client and has been relied upon in good faith of the property found as per the information given in the documents provided to us and/ or confirmed by the owner/ owner representative to us on site.</li> <li>Legal aspects, Title verification, Verification or authenticity of documents from originals or cross</li> </ul>				

		checking from any Govt. deptt. of the property have to be taken care by legal expert/ Advocate.
i.	Since how long owners owing the Property	11 years
ii.	Year of Acquisition/ Purchase	Year- 2008
iii.	Property presently occupied/ possessed by	Owner
iv.	Title verification	Legal aspects or Title verification have to be taken care by competent advocate.
٧.	Details of leases if any	NA

5.	ECONOMIC ASPECTS OF THE PROPERTY				
a.	Reasonable letting value/ Expected market monthly rental	NA			
b.	Is property presently on rent	No			
	i. Number of tenants	NA			
	ii. Since how long lease is in place	NA			
	iii. Status of tenancy right	NA			
	iv. Amount of monthly rent received	NA			
С.	Taxes and other outgoing	Owner company to provide this information			
d.	Property Insurance details	Owner company to provide this information			
e.	Monthly maintenance charges payable	Owner company to provide this information			
f.	Security charges, etc.	Owner company to provide this information			
g.	Any other aspect	NA			

6.	SOCIO - CULTURAL ASPECTS OF THE PROPERTY				
a.	Descriptive account of the location of the property in terms of Social structure of the area in terms of population, social stratification, regional origin, age groups, economic levels, location of slums/squatter settlements nearby, etc.				
b.	Whether property belongs to social infrastructure like hospital, school, old age homes etc.	No			

7.	FUNCTIONAL AND UTILITARIAN SERVICES, FACILITIES & AMENITIES					
a.	Description of the functionality & utility of the property in terms of :					
	i. Space allocation Yes					
	ii. Storage spaces	Yes				
	iii. Utility of spaces provided within the	Yes				
	building					
	iv. Car parking facilities	Yes				
	v. Balconies No					
b.	Any other aspect					

i. Drainage arrangements				Yes			
ii. Water Treatment Plant			No				
iii. Power Supply Permanent			Yes	Yes			
	arrangements	Auxiliary		Yes, D.G sets	6		
iv.	HVAC system	1		Yes			
۷.	Security provi	sions		Yes/ Private s	Yes/ Private security guards		
vi. Lift/ Elevators			Yes				
vii.	Compound wa	all/ Main Gate		Yes			
viii.	Whether gate	d society		No			
Internal development				•			
Garden/ Park/ Water bodies Inte		ernal roads	Pavements	Boundary Wall			
Land scraping							
	No	No		No	Yes	Yes	

8.	INFRASTRU	INFRASTRUCTURE AVAILABILITY					
a.	Description of	Aqua Infrastruc	ture availability	in terms of:			
	i. Water	Supply		Yes			
	ii. Sewera	age/ sanitation s	system	Undergrou	und		
	iii. Storm	water drainage		Yes			
b.	Description of	other Physical	Infrastructure fa	acilities in terms	s of:		
	i. Solid waste management			Yes, by th	Yes, by the local Authority		
	ii. Electric	city		Yes	Yes		
	iii. Road a	nd Public Trans	sport connectiv	ity Yes	Yes		
	iv. Availab	oility of other pu	blic utilities	Transport,	Market, Hosp	ital etc. are no	ot available in
	nearby			close vicin	iity

	Availability of r spaces etc.)	ecreation facilit	ies (parks, open	Not much re vicinity.	creational activ	vities are avai	able in close

9.	MARKETABILITY ASPECTS OF THE PROPERTY:		
a.	Marke	etability of the property in terms of	
	i.	Location attribute of the subject property	Good
	ii.	Scarcity	Similar kind of properties are not easily available in this area.
	iii.	Market condition related to demand and supply of the kind of the subject property in the area	Good demand of such properties in the market
	iv.	Comparable Sale Prices in the locality	Please refer to Part C: Valuation Assessment of the Property.

b	).	Any other aspect which has relevance on the value or marketability of the property		No	
		i.	Any New Development in surrounding area	No	NA
		ii.	Any negativity/ defect/ disadvantages in the property/ location	No	NA

10.	ENGINEERING AND TECHNOLOGY ASP	ECTS OF THE PROPERT	Y:
a.	Type of construction & design	RCC framed pillar, beam, slab	column structure on RCC
b.	Method of construction	Construction done using workmanship based on arcl	•
С.	Specifications	-	
	i. Class of construction	Class A construction (Very	Good)
	ii. Appearance/ Condition of structures	Internal -Very Good	
		External - Very Good	
	iii. Roof	Floors/ Blocks	Type of Roof
		Main Building	RCC
	iv. Floor height	Varying from 10 ft. to 14 ft.	
	v. Type of flooring	Vitrified tiles, Granite, Simp	le marble, Wooden
	vi. Doors/ Windows	Aluminum flushed doors & panel doors	windows, Wooden frame &
	vii. Interior Finishing	Architecturally designed or and putty coated walls	elevated, Neatly plastered
	viii. Exterior Finishing	Structural glazing, Alum cladding	ninium composite panel
	ix. Interior decoration/ Special architectural or decorative feature	Good looking interiors. Med decoration.	lium use of interior
	x. Class of electrical fittings	Internal/ High quality fittings	used
	xi. Class of sanitary & water supply fittings	Internal/ High quality fittings	sused
d.	Maintenance issues	No maintenance issue, strue	cture is maintained properly
e.	Age of building/ Year of construction	Approx. 12 years	Around year-2007
f.	Total life of the structure/ Remaining life expected	Approx. 65-70 years	Approx. 55-60 years subject to proper and timely maintenance
g.	Extent of deterioration in the structure	No deterioration came ir observation	nto notice through visual
h.	Structural safety	Appears to be structurally s	table
i.	Protection against natural disasters viz.	Since this is a RCC struc	ture so should be able to
	earthquakes etc.	withstand moderate intensit	ty earthquakes. Comments
		are been made only based	on visual observation and
		not any technical testing.	
j.	Visible damage in the building if any	No visible damages in the s	tructure
k.	System of air conditioning	Fully centrally AC	
Ι.	Provision of firefighting	Automatic Water Sprinkler	system with alarm

m.	Status	s of Building Plans/ Maps	Sanctioned by competent a	uthority as per the transfer
			deed provided to us	
	i.	Is Building as per approved Map	Yes, Since Completion Cert	ificate is issued by NOIDA
	ii.	Details of alterations/ deviations/ illegal	□ Permissible Alterations	NA
		construction/ encroachment noticed in the structure from the original approved plan	□Not permitted alteration	NA
	iii.	Is this being regularized	Not required	·

11.	ENVIRONMENTAL FACTORS:	
a.	Use of environment friendly building materials like fly ash brick, other Green building techniques if any	Not known to us
b.	Provision of rainwater harvesting	Not known to us
С.	Use of solar heating and lighting systems, etc.	No
d.	Presence of environmental pollution in the vicinity of the property in terms of industries, heavy traffic, etc. if any	Yes, normal vehicular pollution present

12.	ARCHITECTURAL AND AESTHETIC QUALITY OF THE PROPERTY:	
a.	Descriptive account on whether the building is modern, old fashioned, etc., plain looking or with decorative elements, heritage value if applicable, presence of landscape elements, etc.	Modern structure

13.	VALUATION:	
a.	Methodology of Valuation – Procedures	Please refer to Sub-Point 'n' of Point 1 of Part C:
	adopted for arriving at the Valuation	Valuation Assessment Factors of the report.
b.	Prevailing Market Rate/ Price trend of the	Please refer to the Sub-Point 'o' of Point 1 of Part C:
	Property in the locality/ city from property	Valuation Assessment Factors of the report and the
	search sites	screenshot annexure in the report.
С.	Guideline Rate obtained from Registrar's	Please refer to Part C: Valuation Assessment
	office/ State Govt. gazette/ Income Tax	Factors of the report and the screenshot annexure in
	Notification	the report.
d.	Summary of Valuation	For detailed Valuation calculation please refer to
		Points 1, 2, 3, 4, 5 & 6 of the Part C: Valuation
		Assessment Factors of the report.
	i. Guideline Value	Rs.14,11,66,350/-
	1. Land	Rs. 5,04,00,000/-
	2. Building	Rs. 9,07,66,350/-
	ii. Indicative Prospective Estimated Fair	Rs.25,82,00,000/-
	Market Value	
	iii. Expected Estimated Realizable Value	Rs.21,94,70,000/-
	iv. Expected Forced/ Distress Sale Value	Rs.19,36,50,000/-

	v. Valuation of structure for Insurance purpose	Rs.13,00,000/-
e.	i. Justification for more than 209 difference in Market & Circle Rate	6 Circle rates are determined by the District administration as per their own theoretical internal policy for determining the minimum valuation of the property for property registration purpose and Market rates are adopted based on prevailing market dynamics which is explained clearly in Valuation assessment factors.

due to	

		encumbrance on it, will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing.
		This Valuation report is prepared based on the facts of the property & market situation on the date of the survey. It is a well-known fact that the market value
		of any asset varies with time & socio-economic conditions prevailing in the
		country. In future property market may go down, property conditions may
		change or may go worse, property reputation may differ, property vicinity
		conditions may go down or become worse, property market may change due
		to impact of Govt. policies or effect of World economy, usability prospects of
		the property may change, etc. Hence before financing, Banker/ FI should take
		into consideration all such future risk while financing.
m.	Sale transaction method assumed	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.
n.	Best Sale procedure to realize maximum Value	Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.
0.	Methodology/ Basis of	
	Valuation	Market Value: Assessment of Premium charges to be paid on transfer of
		Lease hold rights and Building construction value is calculated on the basis of
		'Depreciated Replacement Cost approach'
		Valuation of the asset is done as found on as-is-where basis.
		Valuation is done based on the Valuation best practices, standard operating procedures and definitions prescribed by various organizations like IVSC, Income Tax of India, etc. as defined under.
		For knowing comparable market rates, significant discreet local enquiries have been made from our side representing ourselves as both buyer and seller for the similar properties in the subject area and thereafter based on this information and various factors of the property, a rate has been judiciously taken considering the market scenario.
		References regarding the prevailing market rates are based on the verbal/ informal/ secondary/ tertiary information collected during market survey in the subject area from the local people, property consultants, recent deals, demand-supply, internet postings which are relied upon. No written record is generally available for such market information and only the verbal information has to be relied upon.
		Market Rates are rationally adopted based on the facts of the property that came to our knowledge during the course of the assignment considering many factors like nature of the property, size, location, approach, market situation and trends.
		The indicative value has been suggested based on the prevailing market rates that came to our knowledge during secondary & tertiary market researches and does not split into formal & informal payment components.
		Secondary/ Tertiary costs related to asset transaction like Stamp Duty, Registration charges, Brokerage, Bank interest, selling cost, marketing cost, etc. pertaining to the sale/ purchase of this property are not considered while assessing the indicative estimated Market Value.
		This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Fair Market Value. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.

	Construction rates are adopted based on the present market replacement cost of construction and calculating applicable depreciation & deterioration factor as per its existing condition & specifications based on only visual observation of the structure. No structural, physical tests have been carried out in respect of it.
	Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method.
	The condition assessment and the estimation of the residual economic life of the structure is only based on the visual observations and appearance found during the site survey. We have not carried out any structural design or stability study; nor carried out any physical tests to assess structural integrity & strength.
	Sale transaction method of the asset is assumed as free market transaction while assessing Indicative & Estimated Fair Prospective Market Value of the asset.
	Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset has not been factored in the Valuation.
	This Valuation is conducted based on the macro analysis of the asset/ property and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is not investigative in nature.
	<b>Fair Market Value</b> <sup>#</sup> suggested by the competent Valuer <u>is that prospective estimated</u> <u>amount</u> in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him related to the subject asset at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, after proper marketing, wherein the parties, each acted knowledgeably, prudently and without any compulsion on the date of the Valuation.
	Forced, under compulsion & constraint, obligatory sales transactions data doesn't indicate the Fair Market Value.
	<b>Realizable Value^</b> is the minimum prospective estimated value of the property which it may be able to realize at the time of actual property transaction factoring in the potential prospects of deep negotiations carried out between the buyer & seller for ultimately finalizing the transaction across the table. Realizable value may be 10-20% less than the Fair Market Value depending on the various salability prospects of the subject property and the needs of the buyer & the seller.
	<b>Forced</b> / <b>Distress Sale Value</b> <sup>*</sup> is the value when the property has to be sold due to any compulsion or constraint like financial encumbrances, dispute, as a part of a recovery process, any defect in the property, legal issues or any such condition or situation. In this type of sale, minimum fetch value is assessed which can be 25-40% less than the estimated Fair Market Value based on the nature, size & salability prospects of the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness & pressure of selling the property is more than buying it. Therefore the Forced/ Distress Sale Value will always fetch significantly less value compare to the estimated Fair Market Value.
	<b>Liquidation Value</b> is the amount that would be realized when an asset or group of assets are sold on a piecemeal basis that is without consideration of benefits (or detriments) associated with a going-concern business. Liquidation value can be either in an orderly transaction with a typical marketing period or in a forced transaction with a shortened marketing period.

		unde mea term defin	<b>Prence between Cost, Price &amp; Value:</b> Generally these words are used and perstood synonymously. However in reality each of these has a completely different ning, premise and also having different definitions in the professional & legal s. Therefore to avoid confusion, it is our professional responsibility to describe the itions of these words to avoid ambiguity & confusion in the minds of the user of report.
	creat		<b>Cost</b> of an asset represents the actual amount spend in the construction/ actual tion of the asset.
			<b>Price</b> is the amount paid for the procurement of the same asset.
		depe supp outlo	<b>Value</b> is defined as the present worth of future rights in the property/ asset and ends to a great extent on combination of various factors such as demand and ly, market situation, purpose, situation & needs of the buyer & seller, saleability ok, usability factor, market perception & reputation. needs of the buyer & seller, ability outlook, usability factor, market perception & reputation.
			efore in actual for the same asset/ property, cost, price & value remain different these terms have different usage & meaning.
р.	Refe		t Rate/Price trend of the property and Details of the sources from where
	the in	nformation is gathered (fron	n property search sites & local information):
	i.	Name:	Mr. Nitin Gupta (Devika realtors & consultancy)
		Contact No.:	9818695095, 8130890952
		Nature of reference:	Property Consultant
		Size of the Property:	Not Specified
		Location:	Sector-125, Noida
		Rates/ Price informed:	Depends on type of plots
		Any other details/ Discussion held:	As per our discussion with Mr. Nitin we came to know that there are two types of plots selling in sector-125, Noida. First type is commercial corporate plots which has prevailing rates of Rs.1 lakh to 1.25 lakhs per sq.mtr and the other type of plots is I.T enabled service plots which has prevailing rate of Rs.60,000/- to Rs.80,000/- per sq.yds.
	ii.	Name:	Mr. Shwetak Ghosh
		Contact No.:	9990196660
		Nature of reference:	Property Consultant
		Size of the Property:	Not Specified
		Location:	Sector-125, Noida
		Rates/ Price informed:	Depends on type of plots
		Any other details/ Discussion held:	
	iii.	Name:	Buniyad Retail
		Contact No.:	9999906851
		Nature of reference:	Property Consultant
		Size of the Property:	Not specified
		Location:	Sector-125, Noida
		Rates/ Price informed:	Rs.1 lakh to Rs.1.25 lakhs per sq.yds
		Any other details/ Discussion	The general land rate in Noida, Sector-125 is Rs.1 lakh to Rs.1.25 lakhs per
		held	sq.yds

q.	Adopted Rates Justification	The location of the subject property is in the midst of developing area of Noida Sector- 125 and demand of the commercial plots is good. The subject land property is fully developed and being used for the office purpose by the concerned company. As per the present market survey & verbal communication with habitants and market participants of subject location we got the following information: -
		<ul> <li><i>i.</i> The market rates for commercial plots will depend upon the size, location &amp; shape.</li> <li><i>ii.</i> There are two types of plots on which sale purchase take place i.e. I.T enabled services plot and Commercial corporate plot.</li> <li><i>iii.</i> The general rate for commercial corporate plots are between Rs.1 lakh to 1.25 lakhs per sq.mtr.</li> <li><i>iv.</i> The general land rate for I.T enabled services plot is between Rs.60,000/- t0 80,000/- per sq.mtr.</li> <li><i>v.</i> Circle Rate for I.T enabled services land at Sector-125 is Rs.28,000/- per sq.mtr</li> <li><i>vi.</i> The subject property is located in the midst of developing area of sector-125 Noida and construction of other commercial buildings are in progress.</li> <li>And aforesaid project land shape is rectangular, area of land is medium, useful for office purpose &amp; its allotted for I.T enabled services as per the lease deed provided to us by the bank. Hence taking into consideration all these factors like size and shape of the plot, location of the property, market condition, and its allotment for I.T enabled services we are of the view that the appropriate rate range for such a land parcel cumulatively can be considered between Rs.60,000/- to Rs.80,000/- per sq.mtr. and for the valuation purpose we have adopted <b>Rs.70,000/- per sq.mtr.</b> which appears</li> </ul>
		to be reasonable in our view.

2.	VALUATION OF LAND Applicable		
	Particulars	Govt. Circle/ Guideline Value	Indicative & Estimated Prospective Fair Market Value
a.	Prevailing Rate range	Rs.28,000/- per sq.mtr	Rs.60,000/- to Rs.80,000/- per sq.mtr
b.	Rate adopted considering all characteristics of the property	Rs.28,000/- per sq.mtr	Rs.70,000/- per sq.mtr
C.	Total Land Area considered (documents vs site survey whichever is less)	1800 sq.mtr	1800 sq.mtr
d.	Total Value of land (A)	1800 sq.mtr X Rs.28,000/-per sq.mtr	1800 sq.mtr x Rs.70,000/- per sq.mtr
		Rs.5,04,00,000 /-	Rs.12,60,00,000/-

3.	VALUATION OF BUILDING STRUCTURE		
	Particulars	Govt. Circle/ Guideline Value	Indicative & Estimated Prospective Fair Market Value

		Rate range	Rs.15,000/- per sq.mtr	Basement : Rs.1,100 to Rs.1,400/- per sq.ft Ground floor to Eighth Floor : Rs.1,500/- to Rs.1,700/- per sq.ft
		Rate adopted	Rs.15,000/- per sq.mtr	Basement : Rs.1,300 per sq.ft Ground floor to Eighth Floor : Rs.1,600/- per sq.ft
a.	Structure Construction	Covered Area	6051.09 sq.mtr (65134 sq.ft)	Basement : 944.85 sq.mtr/ 10170 sq.ft Ground floor to Eighth Floor : 5106.24 sq.mtr/ 54964 sq. ft.
	Value	Class of construction	Class A construction (Very Good)	Class A construction (Very Good)
		Valuation Calculation	6051.09 sq.mtr X Rs.15,000/- per sq.mtr	Basement : 10170 sq.ft X Rs.1,300 per sq.ft = Rs.1,32,21,000/- Ground floor to Eighth Floor : 54964 sq.ft X Rs.1,600/- per sq.ft =
				Rs. 8,79,42,400/-
		Total Value	Rs.9,07,66,350/-	Rs.10,11,63,400/-
b.	Depreciation percentage (assuming salvage value % per year)		NA	NA (Above replacement rate is calculated after deducting the prescribed depreciation)
C.	Age Factor		2000 onwards	10-15 years old construction
d.	Structure Type/ Condition		Pucca (1.0)	RCC framed pillar, beam, column structure on RCC slab/ Very Good
e.	Estimated Construction Depreciated Replacement Value <b>(B)</b>		Rs.9,07,66,350/-	Rs.10,11,63,400/-

4.	VALUATION OF ADDITIONAL BUILDING & SITE AESTHETIC WORKS		
	Particulars	Specifications	Depreciated Replacement Value
a.	Add extra for Architectural aesthetic developments, improvements (add lump sum cost)	Glass facade work & Aluminum panel cuddling	Rs. 65,00,000/-
b.	Add extra for fittings & fixtures (doors, windows, wood work, cupboards, modular kitchen, electrical/ sanitary fittings)		
C.	Add extra for services (Water, Electricity, Sewerage, Main gate, Boundary, Lift, Auxiliary power, AC, HVAC, Firefighting etc.)	Lump Sum value of Centralized AC in Building Lump Sum value of lifts	Rs.2,00,00,000/- Rs. 35,00,000/-
d.	Add extra for internal & external development (Internal roads, Landscaping, Pavements, Street lights, Green area development, External area landscaping, Land development, Approach road, etc.)	Lump Sum value of boundary wall	Rs. 10,00,000/-

e.	Depreciated Replacement Value (C)	ΝΑ	Rs.3,10,00,000/-

FILE NO.: RKA/FY19-20/352 Valuation TOR is available at www.rkassociates.org

#### VALUER'S REMARKS - ANNEXURE IX

1.	This Valuation report is prepared based on the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. Verification or cross checking of the documents provided to us from the originals has not been done at our end.
2.	Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents,
	etc. have to be taken care by legal expert/ Advocate and same are not done at our end. It is assumed that the
	concerned Lender/ Financial Institution has asked for the valuation of that property for which the legal verification has
	been already taken and cleared by the competent Advocate before requesting for the Valuation report.
3.	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information
	came to our knowledge during the course of the work.
4.	Value varies with the Purpose/ Date/ Condition prevailing in the market. We recommend not to refer the indicative &
т.	
	estimated prospective Value of the asset given in this report if any of these points are different from the one mentioned
	aforesaid in the Report. We also recommend that the indicative estimated Value in the Valuation Report holds good
	only upto the period of 3 months from the date of Valuation.
5.	This report is having limited scope as per its fields & format to provide only the general basic idea of the value of the
•	property prevailing in the market based on the documents/ data/ information provided by the client. The suggested
	indicative prospective estimated value should be considered only if transaction is happened as free market
	transaction.
6.	This Valuation report is prepared based on the facts of the property on the date of the survey. It is a well-known fact
	that the market value of any asset varies with time & socio-economic conditions prevailing in the country. In future
	property Market may go down, property conditions may change or may go worse, Property reputation may differ,
	Property vicinity conditions may go down or become worse, Property market may change due to impact of Govt.
	policies or effect of World economy, Usability prospects of the property may change, etc. Hence before financing,
	Banker/ FI should take into consideration all such future risk and should loan conservatively to keep the advanced
	money safe in case of the downward trend of the property value.
7.	Valuation of the same asset/ property can fetch different values in different situations. For eg. Valuation of a running/
	operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have
	considerable lower value. Similarly an asset sold directly by an owner in the market will fetch better value and if the
	same asset/ property is sold by any financer due to encumbrance on it will fetch lower value. Hence before financing,
	Banker/ FI should take into consideration all such future risks and should loan conservatively to keep the advanced
	money safe in case of any such situation.
8.	Getting cizra map or coordination with revenue officers for site identification is not done at our end.
9.	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just cross
	verified the identification of the property with reference to the documents produced for perusal. Method by which
	identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the
	correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be
	carried out. It is requested from the Bank to cross check from their own records/ information if this is the same
	property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or
	misrepresented the property due to any vested interest.
10.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where
10.	the subject property is surrounded by vacant lands having no physical demarcation or having any display of property
	survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities & districts
	where property number is either not assigned or not displayed on the properties clearly and also due to the presence
	of multiple/parallel departments due to which ownership/rights/illegal possession/encroachment issues are rampant
	across India and due to these limitations at many occasions it becomes tough to identify the property with 100%
	surety from the available documents, information & site whereabouts and thus chances of error, misrepresentation
	by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error it
	is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to
	ensure that the property shown to Valuer/ Banker is the same as for which documents are provided.
11.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated
	Township then approvals, maps of the complete group housing society/ township is out of scope of this report and
	this report will be made for the specific unit based on the assumption that complete Group Housing Society/Integrated
	Township must be approved in all respect.
12.	Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/
	guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro
1	gardonnoo bothoon regiono, states and no strict envisedbility of building bye Laws in india specially in non-metro

-	and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/
	layout from the approved/ applicable limits. There are also situations where properties are decades old when there
	was no formal Building Bye-Laws applicable when the construction must have been done. Due to such discrete/
	unplanned development in many regions sometimes it becomes tough to determine the exact lawful situation on
	ground for the Valuer. In case nothing specific is noted on the covered built-up area considered in the Valuation
	Report, the covered area present on the site as per site survey will be considered in the Valuation.
13.	Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is
	important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered
	by the consultant which became the basis for the Valuation report before reaching to any conclusion.
14.	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases
	will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts
	and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions,
	which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In
	the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis
	of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the
	buyers and sellers and the applicability of a discount or premium for control will also affect actual price achieved.
	Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The
	final transaction price is something on which the parties themselves have to agree. However our Valuation analysis
	can definitely help the stakeholders to make them informed and wise decision about the Value of the asset and can
	help in facilitating the arm's length transaction.
15.	This report is prepared on the RKA V-L3 (Medium) Valuation format as per the client requirement and scope of work.
	This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic
	idea of the value of the property prevailing in the market based on the information provided by the client. No detailed
	analysis, audit or verification has been carried out of the subject property.
16.	This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/
10.	Bank/ Financial Institution which is using this report for mortgaging the property that they should consider all the
	different associated relevant & related factors & risks before taking any business decision based on the content of
	this report.
17.	All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report
17.	is without stamp & signature then this should not be considered a valid paper issued from this office.
18.	Defect Liability Period is <u>30 DAYS</u> . We request the concerned authorized reader of this report to check the contents,
10.	data and calculations in the report within this period and intimate us in writing if any corrections are required or in
	case of any other concern with the contents or opinion mentioned in the report. Corrections only related to
	typographical, calculation, spelling mistakes will be entertained within the defect liability period. No request for any
10	illegitimate value revision, date change or any other change will be entertained other than the one mentioned above.
19.	R.K Associates encourages its customers to give feedback or inform concerns over its services through proper
	channel at valuers@rkassociates.org in writing within 30 days of report delivery. After this period no concern/
	complaint/ proceedings in connection with the Valuation Services can be entertained due to possible change in
	situation and condition of the property.
20.	Our Data retention policy is of ONE YEAR. After this period we remove all the concerned records related to the
	assignment from our repository. No clarification or query can be answered after this period due to unavailability of
	the data.
21.	This Valuation report is governed by our (1) Internal Policies, Processes & Standard Operating Procedures, (2) R.K
	Associates Quality Policy, (3) Valuation & Survey Best Practices Guidelines formulated by management of R.K
	Associates, (4) Information input given to us by the customer and (4) Information/ Data/ Facts given to us by our field/
	office technical team. Management of R.K Associates never gives acceptance to any unethical or unprofessional
	practice which may affect fair, correct & impartial assessment and which is against any prevailing law. In case of any
	indication of any negligence, default, incorrect, misleading, misrepresentation or distortion of facts in the report then
	it is the responsibility of the user of this report to immediately or atleast within the defect liability period bring all such
	act into notice of R.K Associates management so that corrective measures can be taken instantly.
22.	R.K Associates never releases any report doing alterations or modifications by pen. In case any information/ figure
	of this report is found altered with pen then this report will automatically become null & void.
