2. Two or more ducts with different nature of exhaust gases should neither be intermixed not be passed through a common chimney.
3. Adequate facilities should be provided for sampling viz sampling holes at specified locations and dimension platform of specified size and strength fully arrangements, electric connection and also provide sampling ports in stack etc.
4. The applicant/company shall comply with and carry out directive/orders issued by the Board in this consent order at all subsequent times without negligence of his/its part. The applicant/company shall be liable for such legal action against him as per provision of the law/act in case of violation of any order/directives. Issued at any time or non compliance of the terms and conditions of this consent order.
5. The disturbed condition in any of plant/plants of the factory which is likely to result increased emission or result in violation of emission standards mentioned in condition No. 7, 9, 15, 24 to _____ shall be forthwith reported to this Board telegraphically under intimation to the Member Secretary, Haryana State Pollution Control Board, Haryana.
6. The toxic chemicals materials should be handled with due safety. The storage of toxic chemicals should be such that in case of emergency the chemicals could be transferred to other empty tank automatically and which should be followed by an approved air pollution control equipment designed for worst conditions.
7. A green belt (having sufficient tall and dense tree) around the factory should be provided under intimation and approval of the Board.
8. All processes using toxic chemical/harmful gases should be equipped with an emergency siren system in working conditions for alarming the general public in case of any untoward incident.
9. The applicant shall furnish to all visiting officer and/or the State Board, any information regarding the construction/installation or operation of the establishment or emission control system and such other particulars as may be pertinent to prevention and control of air pollution. The industry shall also maintain and make available inspection book to the officers of the Board during their visits.
10. The air pollution control equipment of such specifications which shall keep the emissions within the emission standard as approved by the State Board from time to time shall be installed and operated in the premises where the industry in carrying on/ proposed to carry on its business.
11. The existing air pollution control equipment if required shall be altered or replaced in accordance with the direction of the Board.
12. All solid wastes arising in the factory premises shall be properly graded and disposed of by:-
 - (i). Land fill case of in material, care being taken to ensure that the material does not give rise to leachate which may percolate in ground water or carried away with storm run off.
 - (ii). Composting in case of bio degradable materials.
 - (iii). If the method of incineration is used for the disposal of solid waste the consent application should be processed separately and it should be taken up which consent is granted.
13. The industry shall submit an affidavit to the effect that the above conditions shall be complied with by them duly attested by 1st class Magistrate/Notary Public/Oath Commissioner.
14. The applicant shall make ensure that the emission of the air pollutant shall remain within in emission standards as approved by the State Board from time to time.
15. The applicant shall make an application for grant of fresh consent at least 30 days before the date of expiry of this consent.
16. Necessary fee as prescribed for obtaining renewal consent shall be paid by the applicant along with the consent application.
17. The applicant shall either:-
 - (a). Not later than 30 days from the date of consent order, certify in writing to the Member Secretary that the applicant had installed or provided for alternate electric power source sufficient to operate all the facilities installed by the applicant to maintain compliance with the terms and conditions of the consent.
 - (b). Not later than 30 days from the date of this consent certify in writing to the Member Secretary that upon the reduction loss or failure of one or more of the primary source of electric power to any facilities installed by the application to maintain in compliances with the term and conditions of this consent, the application shall proportionally reduce or otherwise control production and/or all emissions in order to maintain compliance with terms and conditions of this consent.

M/s Ask Home Furnishing Pvt.Ltd., Vill. Pathredi, Taru Road, Bilaspur Chowk, Gurgaon

18. There should not be any fugitive emission from the premises.
19. The Liquid effluent arising out of the operation of the air pollution control equipment shall also be treated in a manner as per the standards stipulated in the consent granted under Water (Prevention and Control of Pollution) Act, 1974 by this Board.
20. If due to any technological improvement or otherwise this Board is of opinion that all or any of the conditions referred to above required variation (including the change of any control equipment either in whole or in part) this Board after giving the applicant an opportunity of being heard vary all or such condition and there upon the applicant shall be bound to comply with the conditions so varied.
21. If the industry fails to adhere to any of the condition of this consent order, the consent so granted shall automatically lapse.
22. The consent under Water (Prevention and Control of Pollution) Act, 1974 and authorization under H.W (M & H) Rules, 1989 shall be valid for a period of five years from the date of issue.
23. (a). The industry shall discharge all the gases through a stack of minimum height.
(b). The height of stack shall conform to the following criteria.
(i). $H = 14.Q^{0.3}$ Where sulphur-dioxide is emitted.
 Q = Sulphur dioxide emission as K/hr.
(ii). $H = 74 Q^{0.27}$ where particulate matter is emitted.
 Q = particulate matter emission as tonne/hr. If by using the formula given above Stack height arrived is more than 9 m then this higher stack should be used.
(iii). The minimum stack height should not be 30 Mts.
24. Nothing in this consent shall be deemed to preclude the institution of any legal action nor receive the applicant from any responsibility. Liabilities of penalties to which the applicant is, or may be subject.
25. The industry shall maintain the following record to the satisfaction of the Board.
(a). The industries shall install separate energy meter and maintain log books for running or all air pollution control devices or pumps/motors used for running of same.
(b). Register showing the results of various tests conducted by industry for monitoring of stack emission and ambient air.
26. The industry shall provide adequate arrangement for fighting the accidental leakages discharge of any pollutants gas/liquids from the vessels, mechanical equipment etc. which are likely to cause environment pollution.
27. The consent being issued by the Board as above doesn't imply that unit performance conforms to law as required. The consent is being issued provisionally only with a view to accommodate the unit to provide it an opportunity to modify its operation immediately so as bring them in conformity with the law of the land.
28. The industry shall provide non-leached storage facilities for proper disposal of Hazardous wastes.
29. The industry shall provide acoustic chambers QW DG sets to control noise pollution and ensure noise level with the permissible limit.
30. The industry shall submit A/R with in 3 months in case of 17 categories and once in 6 months 19 categories L&M and keep all the parameters with in limit.
31. The industry shall submit on site/off site emergency plan.
32. The industry shall comply the public liability insurance Rule, 1991 as amended to date.
33. The industry shall submit Environmental Audit report once in a year.
34. The industry shall comply noise pollution (Regulation and Control) Rules, 2000.
35. The industry shall install ambient Air station in case of 17 & 19 categories large & medium.
36. The industry shall obtain environmental clearance if applicable as per EIA notification.
37. The industry shall inform to HO/RO office immediately by Fax in case of failure of APCM.
38. In case of by passing the emission, the consent shall be deemed revoke.
39. The industry shall comply all the direction/Rules/Instructions issue time to time by the Board.

Specific Conditions

40. Unit will submit original capital investment (Land, Building, Plant & Machinery without depreciation) within 15 days if found any balance consent fee unit will deposit same within 30 days otherwise granted consent shall be deemed revoked.
41. Unit will maintain acoustic enclosure and level of Nox, So2, Co2 & HC on D.G. set.
42. Unit will not discharge any type air emission except D.G. set.
43. That unit will deposit compounding/composition fee, if any.
44. That unit will run APCM regularly, if installed.
45. That unit will obtained clearance from Forest Department & other concerned authorities, if land of project is falls under section 4 & 5 of PLPA, 1900.
46. That if the land of the unit falls under section 4 & 5 of PLPA, 1900 & is within 500 meters from Aravali Plantation then consent so granted will deemed to be cancelled.
47. That the consent so granted is without prejudice to the action to be taken in respect of such past violations, if any.
48. Unit will submit the compliance report of above mentioned conditions No. 1 to 47 within 30 days.
