e.	Name of the Developer of the Property	Owners themselves						
	Type of Developer	Property built by own	ner's themselves					

#### PHYSICAL CHARACTERISTICS OF THE PROPERTY 2.

#### BRIEF DESCRIPTION OF THE PROPERTY UNDER VALUATION

This opinion on Valuation report is prepared for the Land & Building of Sugar Mill & Distillery Plant situated at the aforesaid address. As per information provided during site visit, it was informed that the plant was established in year 1932. As per consolidated deed summary shared by the company, the land was purchased from Year 1932 to Year 2009 via total 304 nos. of sale deeds. We have received 9 copies of sale deed on sample basis to verify the ownership of the land, as per sale deeds, the ownership of land parcels is in favour of M/s DCM Ltd. & M/s DCM Shriram Industries Ltd. We have been provided land area statement of different section of the Sugar Plant and Distillery Plant. Details of the same are tabulated below:-

Land Area			
In Sqm	In Acre		
8,142	2.01		
23,308	5.76		
28,601	7.07		
5,358	1.32

### VALUATION ASSESSMENT M/S. DCM SHRIRAM INDUSTRIES LTD.

C&I Plant	10,740	2.65
ETP. Bio-Methanation & MEE Plant	46,945	11.60
Bio-Compost Yard No1	12,933	3.20
Sub-Total- A	1,11,033	27.44
Grand Total (A+B)	2.76.895	68.42

As per satellite measurement tools the total land area underneath the Plant is about 76 acre (refer annexure below). Thus, minimum of the two i.e. 68.42 acre is considered for valuation purpose.

As per observation made during site survey, the industrial plant is named as M/s Daurala Sugar Works under the ownership of M/s DCM Shriram Industries Ltd. (mentioned on Signboard of the company). Thus, it is assumed that the ownership of sugar mill lies with M/s DCM Shriram Industries Ltd.

The plant is in the rural area. The nearby land of the plant is agricultural in nature. Nature of land is not mentioned in the shared sale deed and we have not been provided copy of Change of Land Use (CLU). Since the plant is operational for a long time and this particular area is also notified as Industrial as per present Master Plan, thus, it is assumed that company has already received necessary document such as NOC or CLU from the concerned authority.

Details of building specifications such as year of construction, type of structure, floor height, nos. of floors, built-up area are not shared with us. However, we have received approved layout plan of the plant without area statement. Since the plant comprises multiple structures/building/shed which couldn't be measured physically due to paucity of time. Thus, we are not in position to comment upon total built-up area of the plant.

As per information shared during site survey, the plant was originally commissioned in year 1932 and multiple construction & modification have been made thereafter.

The subject property is accessible by 25ft wide Sardhana-Daurala road which is further connected by 4 lane Meerut-Muzaffarnagar Highway. All the basic and civic amenities are available within the close proximity of the subject property. As per observation made during side survey, it was observed that an irrigation canal passes between the plant.

Valuation is conducted of the property as shown on the site by the Bank/ customer of which photographs is also attached with the report and same is to be considered in this report irrespective of any details taken from any documents which might have been updated, changed or incorrect.

	documents which might have been appeared, changed of incorrect.

PART C	AREA DESCRIPTION OF THE PROPERTY
--------	----------------------------------

	Land Area considered for Valuation	68.42 Acre or 2,76,8	95 Sqm						
	Area adopted on the basis of	on the basis of Land Area statement & site survey both							
1.	Remarks & observations, if any	We have been provided land area details. We cross-checked by using satellite measurement tools to verify the land area within the plant boundary, which is approximately same as mentioned in the land area details shared. Thus, for valuation purpose, we have used land area details shared by the company.							
	Constructed Area considered for Valuation (As per IS 3861-1966)	Built-up Area							
2.	Area adopted on the basis of	FAR							
	Remarks & observations, if any	Company has shared one layout plan with us which was not having any area chart. Building area details was also not shared with us. Since physical measurement of each building couldn't be done due to vastness of plant. Therefore, FAR dated 31-03-2023 is considered for valuation purpose.							

#### Note:

- Area measurements considered in the Valuation Report pertaining to Land & Building is adopted from relevant approved documents or actual site measurement whichever is less. All area measurements are on approximate basis only.
- 2. Verification of the area measurement of the property is done based on sample random checking only.
- Area of the large land parcels of more than 2500 sq.mtr or of uneven shape, is taken as per property documents verified with digital survey through google which has been relied upon.
- Drawing Map, design & detailed estimation of the property/ building is out of scope of the Valuation services.

#### xxxiv. Basis of computation & working

- Valuation of the asset is done as found & identified by the client/ owner/ owner representative to our engineers on site during site inspection unless otherwise mentioned in the report.
- Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work and based on the Standard Operating Procedures, Best Practices, Caveats, Limitations, Conditions, Remarks, Important Notes, Valuation TOR and definition of different nature of values.
- For knowing comparable market rates, significant discreet local enquiries have been made by us representing hypothetically as buyer or seller for the similar type of properties in the subject location. Based on this information and various factors of the property, a rate has been judiciously taken considering the factors of the subject property, market scenario and weighted adjusted comparison with the comparable properties unless otherwise stated.
- References regarding the prevailing market comparable rates are based on the verbal/informal/secondary/ tertiary information collected by our team from the local people/ property consultants/ recent deals/ demandsupply/ internet postings. This third-party information is relied upon as available or can be fetched within the limited time & resources of the assignment during market survey in the subject location. No written record is generally available for such market information and analysis has to be derived mostly based on the verbal information.
- Market Rates are rationally adopted based on the facts of the property which came to our knowledge during the course of the assessment considering many factors like nature of the property, size, location, approach, market situation and trends and comparative analysis with the similar assets. During comparative analysis, valuation metrics is prepared and necessary adjustments are made on the subject asset.
- The suggested indicative value is based on the prevailing market rates that came to our knowledge during secondary & tertiary market research and is not split into formal & informal payment arrangements. In Indian real estate sector most of the deals takes place includes both formal & informal payment components. Deals in complete formal payment component may realize relatively less value on transaction due to inherent added tax, stamp registration liabilities on the buyer.
- Secondary/ Tertiary costs related to asset transaction like Stamp Duty, Registration charges, Brokerage, Commission, Bank interest, Selling cost, Marketing cost, etc. pertaining to the sale/purchase of this property are not considered while assessing the indicative estimated Market Value.
- This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Market Value as described above. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.
- Area measurements considered in the Valuation Report pertaining to asset/ property is adopted from relevant approved documents or sample site measurement whichever is less unless otherwise mentioned. All area measurements are on approximate basis only.
- Verification of the area measurement of the property is done based on sample random checking only.
- Area of the large land parcels of more than 2500 sq.mtr or of uneven shape in which there can be practical difficulty in sample measurement, is taken as per property documents which has been relied upon unless otherwise stated.
- Drawing, Map, design & detailed estimation of the property/ building is out of scope of the Valuation services.
- Construction rates are adopted based on the present market replacement cost of construction and calculating applicable depreciation & deterioration factor as per its age, existing condition & specifications based on visual observation only of the structure. No structural, physical tests have been carried out in respect of it. No responsibility is assumed for latent defects of any nature whatsoever, which may affect

Page 18 of 43

d's first fully digital Automated Platform foi Integrating Valuation Life Cycle -A product of R.K. Associates www.valuationintelligentsystem.com

value, or for any expertise required to disclose such conditions.

- Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method unless otherwise stated.
- The condition assessment and the estimation of the residual economic life of the structure are only based
  on the visual observations and appearance found during the site survey. We have not carried out any
  structural design or stability study; nor carried out any physical tests to assess structural integrity & strength.
- Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset or on its
  owners has not been factored in the Valuation.
- This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is neither investigative in nature nor an audit activity.
- Valuation is done for the asset found on as-is-where basis which owner/owner representative/client/ bank
  has shown to us on site of which some reference has been taken from the information/ data given in the
  copy of documents provided to us which have been relied upon in good faith and we have assumed that it
  to be true and correct.
- The ownership, address in the report is only for illustration purpose which is taken from the documents
  provided to us. In case of any update in information, change of zoning, delimitation activity or inaccuracy in
  the documents or incorrect/fabricated/out-of-date documents provided to us or for any other reason beyond
  our control then we shall not be held responsible for it.

#### XXXV. ASSUMPTIONS

- a. Documents/ Information/ Data provided by the client/ property owner or his representative both written & verbally is true, complete, and correct without any fabrication and has been relied upon in good faith.
- Local verbal enquiries during micro market research came to our knowledge taken on record are assumed to be true & correct.
- c. The assets and interests valued are assumed to be free and clear of any liens or encumbrances unless stated otherwise. No hidden or apparent conditions regarding the subject assets or their ownership are assumed to exist. No opinion of title is rendered in this report and a good title is assumed unless stated otherwise.
- d. If this valuation is for the Bank then it is assumed that the valuation has been asked only after satisfying the authenticity of the documents given to us and the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report. I/ We assume no responsibility for the legal matters including, but not limited to, legal or title concerns.
- e. Payment condition during transaction of the subject property in the Valuation has been considered on all cash bases which includes both formal & informal payment components as per market trend.
- f. Sale transaction method of the asset is assumed as Free market transaction without any compulsion unless otherwise mentioned while assessing Indicative & Estimated Fair Prospective Market Value of the asset unless otherwise stated.
- g. If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report. This valuation report is prepared for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township is approved and complied with all relevant laws and the subject unit is also approved within the Group Housing Society/ Township.

#### XXXVI. SPECIAL ASSUMPTIONS

The Fair Market Value of Land & Building is in consonance of the complete Plant as a whole and should not be considered in isolation.

#### **VALUATION COMPUTATION OF BUILDING & CIVIL WORKS**

We have not been provided with copy of sanction plan or building area sheet of the plant. Physical measurement of each building/structure was not practically possible due to vastness of the property. As per FAR dated 31-03-2023, the Gross Block & Net Block of plant building is Rs. 17,57,08,496/- & Rs. 10,95,83,826/- respectively. As per information received during site survey, the plant was initially commissioned in year 1932 and multiple modifications, renovations & new constructions were made thereafter. Based on our analysis/experience and eye estimation of the buildings situated at the Plant, the Fair Market Value of building/structure & land development shall be anytime greater than the Net Book Value of building mentioned in the FAR. Thus, in the absence of key technical details and area statement, we have considered Net Book Value as Depreciated Value of Buildings for assigning the minimum value of the Buildings in the Plant.

## VALUATION ASSESSMENT M/S. DCM SHRIRAM INDUSTRIES LTD.

- a. We are independent of client/ company and do not have any direct/ indirect interest in the property.
- This valuation has been conducted by R.K Associates Valuers & Techno Engineering Consultants (P) Ltd. and its team of experts.
- c. This Valuation is done for the property found on as-is-where basis as shown on the site by the Bank/ customer of which photographs is also attached with the report.
- d. Reference of the property is also taken from the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. However, we do not vouch the absolute correctness of the property identification, exact address, physical conditions, etc. based on the documents provided to us since property shown to us may differ on site Vs as mentioned in the documents or incorrect/ fabricated documents may have been provided to us.
- e. Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents from originals or from any Govt. department, etc. has to be taken care by legal experts/ Advocates and same has not been done at our end.
- f. The valuation of an asset is an estimate of the worth of that asset which is arrived at by the Valuer in his expert opinion after factoring in multiple parameters and externalities. This may not be the actual price of that asset and the market may discover a different price for that asset.
- g. This report only contains opinion based on technical & market information which came to our knowledge during the course of the assignment. It doesn't contain any recommendations.
- h. This report is prepared following our Standard Operating Procedures & Best Practices and will be subject to Limitations, Conditions, Valuer's Remarks, Important Notes, Valuation TOS and basis of computation & working as described above.
- i. The use of this report will become valid only after payment of full fees as per the Payment Terms. Using this report or any part content created in this report without payment of charges will be seen as misuse and unauthorized use of the report.

#### 14. IMPORTANT KEY DEFINITIONS

Valuation TOR is available at www.rkassociates.org

Fair Value suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of the assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Fair Value without using the term "Market" in it describes that the value suggested by the Valuer may not mandatorily follow or may not be in complete consonance to the established Market in his expert opinion. It may or may not follow market dynamics. But if the suggested value by the valuer is not within the prevailing Market range or is assessed for an asset is located in an un-established Market then the valuer will give reasonable justification & reasoning that for what reasons the value suggested by him doesn't follow the prevailing market dynamics.

Fair Market Value suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice in consonance to the Market dynamics after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation. Here the words "in consonance to the established Market" means that the Valuer will give opinion within the realms & dynamics of the prevailing market rates after exhaustively doing the micro market research. However due to the element of "Fair" in it, valuer will always look for the factors if the value should be better than the market realms which is just & equitable backed by strong justification and reasoning.

Market Value suggested by the competent Valuer is that prospective estimated amount which is average price of the similar comparable assets prevailing in an open & established market during the near period of the date of valuation at which the subject asset/ property should be exchanged between a willing buyer and willing seller on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities at an arm's length transaction in an open, established & unrestricted market, in an orderly transaction, wherein the parties, each acted without any compulsion on the date of the Valuation.

Using the term "Market Value" without "Fair" omits the elements of proper marketing, acting knowledgeably & prudently.

Market and market participants can be sentimental, inclined towards the transaction without the element of complete knowledge & prudence about facts or due diligence of the asset therefore "each acted knowledgeably, prudently" has been removed from the marker Value definition.

Realizable Value is that minimum prospective estimated value of the asset/ property which it may be able to fetch at the time of actual property transaction factoring in the element of discount due to the prospects of deep negotiations between the buyer & seller when the parties in-principally find Fair Market Value reasonable and sits together to close the deal and the transaction across the table. Discount percentage on the Fair Market Value due to negotiation will depend on the nature, size, various salability prospects of the subject asset, the needs of the buyer & the seller and kind of payment terms. In some of the cases Realizable and Fair Market Value may also be equal.

Distress Sale Value\* is that value when the property is attached with any process such as mortgaged financing, financial or operational dues which is under any stress condition or situation and the stakeholders are under process of finding resolution towards it to save the property from being attached to a formal recovery process. In this type of sale, minimum fetch value assessed will always be less than the estimated Fair Market Value where the discount of percentage will depend upon various circumstances and factors such as nature, size, salability prospects of the property and kind of encumbrance on the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness & pressure of selling the property will be more on the seller than the buyer.

Liquidation Value is the amount that would be realized when an asset or group of assets are sold due to any compulsion or constraints such as in a recovery process guided by statute, law or legal process, clearance sale or any such condition or situation thereof where the pressure of selling the asset/ property is very high to realize whatever maximum amount can be from the sale of the assets in a limited time for clearance of dues or due to closure of business. In other words, this kind of value is also called as forced sale value.

Difference between Cost, Price & Value: Generally, these words are used and understood synonymously. However, in reality each of these has a completely different meaning, premise and also having different definitions in professional & legal terms. Therefore, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.

The **Cost** of an asset represents the actual amount spend in the construction/ actual creation of the asset. The **Price** is the amount paid for the procurement of the same asset.

The **Value** is defined as the present worth of future rights in the property/ asset and is a hypothetical or notional price that buyers and sellers are most likely to conclude for a good or service. Value is not a fact, but an estimate of the likely price to be paid for a good or service at a given time in accordance with a particular definition of value.

Therefore, in actual for the same asset/ property, cost, price & value remain different since these terms have different usage & meaning.

#### **IMPORTANT NOTES**

<u>DEFECT LIABILITY PERIOD</u> - In case of any query/ issue or escalation you may please contact Incident Manager by writing at valuers@rkassociates.org. We try our level best to ensure maximum accuracy in the Calculations done, Rates adopted and various other data points & information mentioned in the report but still can't rule out typing, human errors, assessment or any other mistakes. In case you find any mistake, variation, discrepancy or inaccuracy in any data point mentioned in the report, please help us by bringing all such points into our notice in writing at <u>valuers@rkassociates.org</u> within 30 days of the report delivery, to get these rectified timely, failing which R.K Associates shouldn't be held responsible for any inaccuracy in any manner. Also, if we do not hear back anything from you within 30 days, we will assume that the report is correct in all respect and no further claim of any sort will be entertained thereafter. We would welcome and appreciate your feedback & suggestions in order to improve our services.

Our **DATA RETENTION POLICY** is of **ONE YEAR**. After this period we remove all the concerned records related to the assignment from our repository. No clarification or query can be answered after this period due to unavailability of the data.

<u>COPYRIGHT FORMAT</u> - This report is prepared on the copyright format of R.K Associates to serve our clients in the best possible way. Legally no one can copy or distribute this format without prior approval from R.K Associates. It is meant only for the organization as mentioned on the cover page of this report. Distribution or use of this format or any content of this report wholly or partially other than R.K Associates will be seen as unlawful act and necessary legal action can be taken against the defaulters.

#### IF REPORT IS USED FOR BANK/ FIS

**NOTE:** As per IBA Guidelines in case the valuation report submitted by the valuer is not in order, the banks / Fls shall bring the same to the notice of the valuer within 15 days of submission for rectification and resubmission. In case no such communication is received, it shall be presumed that the valuation report has been accepted.

At our end we have not verified the authenticity of any documents provided to us. Bank is advised to verify the genuineness of the property documents before taking any credit decision.

Valuation Terms of Services & Valuer's Important Remarks are available at <a href="https://www.rkassociates.org">www.rkassociates.org</a> for reference.

### ENCLOSURE IX: ANNEXURE: VII - MODEL CODE OF CONDUCT FOR VALUERS

#### Integrity and Fairness

- A valuer shall, in the conduct of his/its business, follow high standards of integrity and fairness in all his/its dealings with his/its clients and other valuers.
- 2. A valuer shall maintain integrity by being honest, straightforward, and forthright in all professional relationships.
- A valuer shall endeavor to ensure that he/it provides true and adequate information and shall not misrepresent any facts or situations.
- 4. A valuer shall refrain from being involved in any action that would bring disrepute to the profession.
- 5. A valuer shall keep public interest foremost while delivering his services.

#### **Professional Competence and Due Care**

- A valuer shall render at all times high standards of service, exercise due diligence, ensure proper care and exercise independent professional judgment.
- 7. A valuer shall carry out professional services in accordance with the relevant technical and professional standards that may be specified from time to time.
- A valuer shall continuously maintain professional knowledge and skill to provide competent professional service based on up-to-date developments in practice, prevailing regulations/guidelines and techniques.
- 9. In the preparation of a valuation report, the valuer shall not disclaim liability for his/its expertise or deny his/its duty of care, except to the extent that the assumptions are based on statements of fact provided by the company or its auditors or consultants or information available in public domain and not generated by the valuer.
- 10. A valuer shall not carry out any instruction of the client in so far as they are incompatible with the requirements of integrity, objectivity and independence.
- 11. A valuer shall clearly state to his client the services that he would be competent to provide and the services for which he would be relying on other valuers or professionals or for which the client can have a separate arrangement with other valuers.

#### Independence and Disclosure of Interest

- 12. A valuer shall act with objectivity in his/its professional dealings by ensuring that his/its decisions are made without the presence of any bias, conflict of interest, coercion, or undue influence of any party, whether directly connected to the valuation assignment or not.
- 13. A valuer shall not take up an assignment if he/it or any of his/its relatives or associates is not independent in terms of association to the company.
- 14. A valuer shall maintain complete independence in his/its professional relationships and shall conduct the valuation independent of external influences.
- 15. A valuer shall wherever necessary disclose to the clients, possible sources of conflicts of duties and interests, while providing unbiased services.
- 16. A valuer shall not deal in securities of any subject company after any time when he/it first becomes aware of the possibility of his/its association with the valuation, and in accordance with the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 or till the time the valuation report becomes public, whichever is earlier.
- 17. A valuer shall not indulge in "mandate snatching or offering" convenience valuations" in order to cater to a company or client's needs.
- 18. As an independent valuer, the valuer shall not charge success fee.
- 19. In any fairness opinion or independent expert opinion submitted by a valuer, if there has been a prior engagement in an unconnected transaction, the valuer shall declare the association with the company during the last five years.

#### Confidentiality

20. A valuer shall not use or divulge to other clients or any other party any confidential information about the subject company, which has come to his/its knowledge without proper and specific authority or unless there is a legal or professional right or duty to disclose.

#### Information Management

- 21. A valuer shall ensure that he/ it maintains written contemporaneous records for any decision taken, the reasons for taking the decision, and the information and evidence in support of such decision. This shall be maintained so as to sufficiently enable a reasonable person to take a view on the appropriateness of his/its decisions and actions.
- 22. A valuer shall appear, co-operate and be available for inspections and investigations carried out by the authority, any person authorised by the authority, the registered valuers organization with which he/it is registered or any other statutory regulatory body.
- 23. A valuer shall provide all information and records as may be required by the authority, the Tribunal, Appellate Tribunal, the registered valuers organization with which he/it is registered, or any other statutory regulatory body.
- 24. A valuer while respecting the confidentiality of information acquired during the course of performing professional services, shall maintain proper working papers for a period of three years or such longer period as required in its contract for a specific valuation, for production before a regulatory authority or for a peer review. In the event of a pending case before the Tribunal or Appellate Tribunal, the record shall be maintained till the disposal of the case.

#### Gifts and hospitality.

- 25. A valuer or his/its relative shall not accept gifts or hospitality which undermines or affects his independence as a valuer.
  - Explanation: For the purposes of this code the term 'relative' shall have the same meaning as defined in clause (77) of Section 2 of the Companies Act, 2013 (18 of 2013).
- 26. A valuer shall not offer gifts or hospitality or a financial or any other advantage to a public servant or any other person with a view to obtain or retain work for himself/ itself, or to obtain or retain an advantage in the conduct of profession for himself/ itself.

#### Remuneration and Costs.

- 27. A valuer shall provide services for remuneration which is charged in a transparent manner, is a reasonable reflection of the work necessarily and properly undertaken, and is not inconsistent with the applicable rules.
- 28. A valuer shall not accept any fees or charges other than those which are disclosed in a written contract with the person to whom he would be rendering service.

### Occupation, employability and restrictions.

- 29. A valuer shall refrain from accepting too many assignments, if he/it is unlikely to be able to devote adequate time to each of his/ its assignments.
- A valuer shall not conduct business which in the opinion of the authority or the registered valuer organisation discredits the profession.

#### Miscellaneous

- 31. A valuer shall refrain from undertaking to review the work of another valuer of the same client except under written orders from the bank or housing finance institutions and with knowledge of the concerned valuer.
- 32. A valuer shall follow this code as amended or revised from time to time

TO HE SE CONTRACTOR

The actual realizable value that is likely to be fetched upon sale of the asset under consideration shall entirely depend on the demand and supply of the same in the market at the time of sale.

16.	The actual realizable value that is likely to be fetched upon sale of the asset under consideration shall entirely depend on the
47	demand and supply of the same in the market at the time of sale.
17.	While our work has involved an analysis & computation of valuation, it does not include detailed estimation, design/ technical/
	engineering/ financial/ structural/ environmental/ architectural/ compliance survey/ safety audit & works in accordance with
	generally accepted standards of audit & other such works. The report in this work in not investigative in nature. It is mere an
	opinion on the likely estimated valuation based on the facts & details presented to us by the client and third party market
	information came in front of us within the limited time of this assignment, which may vary from situation to situation.
18.	Where a sketched plan is attached to this report, it does not purport to represent accurate architectural plans. Sketch plans
	and photographs are provided as general illustrations only.
19.	Documents, information, data including title deeds provided to us during the course of this assessment by the client is reviewed
	only upto the extent required in relation to the scope of the work. No document has been reviewed beyond the scope of the
	work. These are not reviewed in terms of legal rights for which we do not have expertise. Wherever any information mentioned
	in this report is mentioned from the documents like owners name, etc., it is only for illustration purpose and may not necessary
	represent accuracy.
20.	The report assumes that the borrower/company/business/asset complies fully with relevant laws and regulations applicable in
	its area of operations and usage unless otherwise stated, and that the companies/business/assets is managed in a competent
	and responsible manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a
	legal nature, including issues of legal title and compliance with relevant laws, and litigations and other contingent liabilities that
	are not recorded/reflected in the documents/ details/ information/ data provided to us.
21.	This valuation report is not a qualification for accuracy of land boundaries, schedule (in physical terms), dimensions &
	identification. For this land/ property survey report can be sought from a qualified private or Govt. surveyor.
22.	This Valuation report is prepared based on the facts of the property on the date of the survey. Due to possible changes in
	market forces, socio-economic conditions, property conditions and circumstances, this valuation report can only be regarded
	as relevant as at the valuation date. Hence before financing, Banker/ FI should take into consideration all such future risk and
	should loan conservatively to keep the advanced money safe in case of the downward trend of the property value.
23.	Valuation of the same asset/ property can fetch different values under different circumstances & situations. For eg. Valuation
20.	of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have
	considerable lower value. Similarly, an asset sold directly by an owner in the open market through free market transaction
	then it will fetch better value and if the same asset/ property is sold by any financer due to encumbrance on it, will fetch lower
	value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing and take decision
	accordingly.
24	N. C.
24.	Valuation is done for the property identified to us by the owner/owner representative. At our end we have just visually matched
	the land boundaries, schedule (in physical terms) & dimensions of the property with reference to the documents produced for
	perusal. Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of
	identifying the correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to
	be carried out. It is requested from the Bank to cross check from their own records/ information if this is the same property for
	which Valuation has to be carried out to ensure that owner has not misled the Valuer company or misrepresented the property
	due to any vested interest. Where there is a doubt about the precision position of the boundaries, schedule, dimensions of
	site & structures, it is recommended that a Licensed Surveyor be contacted.
25.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject
	property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal
	number / name plate on the property clearly. Even in old locations of towns, small cities & districts where property number is
	either not assigned or not displayed on the properties clearly and also due to the presence of multiple/ parallel departments
	due to which ownership/ rights/ illegal possession/ encroachment issues are rampant across India and due to these limitations
	at many occasions it becomes tough to identify the property with 100% surety from the available documents, information &
	site whereabouts and thus chances of error, misrepresentation by the borrower and margin of chances of error always persists
	in such cases. To avoid any such chances of error it is advised to the Bank to engage municipal/ revenue department officials
	to get the confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents
	are provided.
26.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then
	approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made
	for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township and the subject unit
	must be approved in all respect.
27.	Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ guidelines
	between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities
	& Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/
	applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws
	applicable the time when the construction must have been done. Due to such discrete/ unplanned development in many
	regions sometimes it becomes tough for the Valuer to determine the exact lawful situation on ground. Unless otherwise
	mentioned in the report, the covered area present on the site as per site survey will be considered in the Valuation.
28.	Area of the large land parcels of more than 2500 sq.mtr or of uneven shape in which there can be practical difficulty in sample
20.	measurement, is taken as per property documents which has been relied upon unless otherwise stated.
29.	Drawing Map, design & detailed estimation of the property/ building is out of scope of the Valuation services.
30.	Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important
50.	to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant
	which became the basis for the Valuation report before reaching to any conclusion.
	which became the basis for the valuation report before reaching to any condition.

31. Although every scientific method has been employed in systematically arriving at the value, there is, therefore, no indisputable

orld's first fully digital Automated Platform for
Integrating Valuation Life Cycle A product of R.K. Associates

www.valuationintelligentsystem.com

31.	single value and the estimate of the value is normally expressed as falling within a likely range.
32.	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of
32.	necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the
	same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made.
	Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the
	actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the
	circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers, demand & supply
	prevailing in the market and the applicability of a discount or premium for control will also affect actual price achieved.
	Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final
	transaction price is something on which the parties themselves have to agree. However, our Valuation analysis can definitely
	help the stakeholders to take informed and wise decision about the Value of the asset and can help in facilitating the arm's
	The property of the property o
22	length transaction.
33.	This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the
	micro, component, or item wise analysis. Analysis done is a general assessment and is not investigative in nature.
34.	This report is prepared on the RKA V-L1 (Basic) Valuation format as per the client requirement and scope of work. This report
	is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of
	the property prevailing in the market based on the information provided by the client. No detailed analysis, audit or verification
	has been carried out of the subject property. There may be matters, other than those noted in this report, which might be
	relevant in the context of the transaction and which a wider scope might uncover.
35.	This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/ Bank/
	Financial Institution which is using this report for mortgaging the property that they should consider all the different associated
	relevant & related factors & risks before taking any business decision based on the content of this report.
26	
36.	All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report is without
	stamp & signature then this should not be considered a valid paper issued from this office.
37.	As per IBA Guidelines & Bank Policy, in case the valuation report submitted by the valuer is not in order, the banks / FIs shall
	bring the same to the notice of the valuer within 15 days of submission for rectification and resubmission. In case no such
	communication is received, it shall be presumed that the valuation report has been accepted.
38.	Defect Liability Period is 15 DAYS. We request the concerned authorized reader of this report to check the contents, data,
	information, and calculations in the report within this period and intimate us in writing at valuers@rkassociates.org within 15
	days of report delivery, if any corrections are required or in case of any other concern with the contents or opinion mentioned
	in the report. If no intimation is received within 15 (Fifteen) days in writing from the date of issuance of the report, then it shall
