O.T STERILE CORRIDOR					
Sl. No	Description	Qty	Unit	Rate	Amount
CEILING FOR STERILE CORRIDOR					
1	Aluminum ceiling structure made up of Aluminum square bars and pipe fitted with Calcium silicate boards. Calcium Silicate Ceiling is also called as calcium silicate false ceiling or calcium silicate ceiling board, which is classified as fiber cement reinforced calcium silicate products made up of Portland cement, fine silica, special cellulose fibers and selected fillers to offers amazing features in impact resistance, fireproof, waterproof, sound adsorption and heat isolation.	1,350.00	Sq Feet	280.00	3,78,000.00
FILLING OF JOINTS, CAVITY AND IMPORTED ANTIBACTERIAL PAINT FOR CEILING AND WALL INCLUDING THE OT STORE ROOM					
2	Coating & Filling of all joints and cavities with metallic Epoxy filler and sanded flush to provide a joint less finish and then sprayed with a water based liquid plastic aseptic and self sterilizing wall coating system, which protects against the growth of micro-organism, such as mould, fungi, yeast and bacteria on its surface, equivalent to a minimum dry film thickness of 300 micron.	3,900.00	Sq Feet	75.00	2,92,500.00
PERIPHERAL LIGHTS					
3	Supply & installation of Recess mounted IP54 protocol, non-hygroscopic based peripheral lights 600mmx600mm to be mounted on false ceiling for clean room application and digital dimmable ballast.	12.00	Sets	5,800.00	69,600.00
Valve Box					
4	Four Gases Valve Boxes, M.S with Powder coated with Glass cover and lock	2.00	Set	4,500.00	9,000.00
5	Six Gases Valve Boxes, M.S with Powder coated with Glass cover and lock	4.00	Set	6,500.00	26,000.00
				Total	7,75,100.00

Terms and Conditions:

1. GST - 18% Extra as applicable
2. Installation charges- INR 70,000.00 + G.S.T
3. Payment - 30% advance along with firm order, 40% after delivery of materials, 20% on Running Bill basis, and 10% after installation within one month.
4. Warranty: One year for all materials from date of handing over.
5. Security measures shall be taken by Hospital authority, no responsibility shall be taken by company, if materials from site are stolen or displaced.
6. Hospital authority shall provide one room with lock where raw materials should be kept before installation.
7. Hospital authority shall provide one room with electricity supply within Hospital premises for labour accommodation.
8. Delivery time: 8 Weeks

ANNEXURE -I

TERMS AND CONDITIONS

1. Scope of Work

Sl. No.	Description	Qty	Unit	Rate	Amount	Remarks
1	Pre-Fabricated PUF Panel Wall and ceiling panel, with EGP steel (thickness not less than 0.8 mm front) and PPGL steel (thickness of 0.5 mm at the back) filled with 50 mm Polyurethane foam for wall and 30 mm for ceiling	165	SqMtr	2,350.00	3,87,750.00	Tata/Jindal/ma ke panel's only one front wall will be metal
2	Coating Filling of all joints and cavities with metallic Epoxy filler and sanded flush to provide a joint less finish and then sprayed with a water based liquid plastic aseptic and self sterilizing wall coating system, which protects against the growth of micro-organism, such as mould, fungi, yeast and bacteria on its surface. Equivalent to a minimum dry film thickness of 300 micron.	165	SqMtr	950.00	1,56,750.00	Liquid plastic steridex sikka/skk
3	Supply & installation of Automatic hermetically sealed sliding Door. Automation operated hermetically sealed doors (1500mm wide 2100mm height) automation for door with microprocessor based electronic control unit for controlling movement of open/closing timer with low noise level high quality motor for motorized function. The acceleration and speed of the door can be adjusted by software operated controller. The system comes complete with elbow switch/ foot switch/& radar switch (touch less sensor) for operation of door complete with glass vision window of 300mmx300 mm along with all necessary accessories etc	1	Set	2,85,000.00	2,85,000.00	Metaflex
4	Providing supply, installation of membrane type operation theatre control panel mounted flush in the theatre wall with distribution board complete with all accessories etc. The control panel comprising of the following: 1. no day time digital clock, 1 no elapsed time digital clock, 1 hands free telephone, Medical gas alarms (5 gas), Temperature & Humidity display control and Hepa status. Peripheral light control	1	Set	1,25,000.00	1,25,000.00	
5	Supply installation of plain air ceiling system with unidirectional airflow. Plenum unit holding structure & top plenum are made of aluminum sheet 1.6mm thick with aluminum extrusion frame & sealed gasket conforming to din 4799 standards for the air distribution system with heap filter having efficiency 99.97% down to 0.3 micron. The laminar flow systems shall have such design that it provides. S class hepa filter. The filter housing terminals are made of a one piece frame and plenum with perfect tightness feature. Diffuser 2 layer monofilament precision woven polyester of uniform porosity with an open area of sufficient resistance to create laminar from diffuser face and integral lighting provide an illumination level in excess of 1500 lux in OT area and 10000 lux other electronic stepless dimming down to 5% without flicker. Size 2400x2400x300mm	1	Set	2,45,000.00	2,45,000.00	
6	Supply & installation of 2 plate dimmable X-Ray viewing screen (Size 1150x648mm)	1	Set	18,000.00	18,000.00	
7	Supply & installation of operating writing list board (magnetic) of size 948mmx648mm complete with all accessories	1	Set	9,800.00	9,800.00	

Bipul Dey

Adar

8	Supply & installation of Recess mounted IP54 protocol, non-hygroscopic based peripheral lights to be mounted on false ceiling for clean room application and digital dimmable ballast	6	Sets	6,500.00	39,000.00	
9	Two Shelves EGP storage unit	2	Sets	19,000.00	38,000.00	
10	SS304 pressure release Damper for exhaust excess pressure in OI	1	Set	26,000.00	26,000.00	
11	Supply & installation of seamless conductive tile flooring system, 2mm thick, having ESD/EMI(conductive) protection characteristics with perfectly curved flush covings, all joints welded properly (Roll or Tile)	65	SqMtr	2,450.00	1,59,250.00	Imported/ Ger floor/ Tarket
12	Pass Hatch Box. Having size in accordance to the requirement should not be lesser than 600x600mm made of stainless steel grade 304 having door interlocking, U.V light electronic controls.	1	Set	58,000.00	58,000.00	
13	Supply & installation of Anesthesia single Arm moveable pendent with 950 mm long arm having weight carrying capacity of more than 100 kg Six electrical sockets 5/15 ampere & data points one monitor shelf one sliding tray and 6 no's gas out let	1	Set	1,20,000.00	1,20,000.00	
14	Supply & installation of Surgeon double Arm moveable pendent with 800 mm long arm having weight carrying capacity of more than 100 kg Six electrical sockets 5/15 ampere & data points one monitor shelf one sliding tray and 6 no's gas out let	1	Set	1,45,000.00	1,45,000.00	
15	Bio Air conditioning air handling unit with AHU of 4500 cfm and for OT including Aluminum ducting of 24, and 22 Gauge with Nitril rubber insulation of 19mm for return and supply duct with Damper grill, Condensing unit of 8.5 TR and electrical panel Hospital have supply 3 phase supply till electrical panel	1	Set	5,60,000.00	5,60,000.00	AIRPRO, GME FOR AHU/BLUE STAR/Carrier FOR Condensing UNIT

				Total	22,02,400.00	

Note:

1. All charges are exclusive of GST @18%
2. The total OT Complex work on turnkey basis must meet the NABH OT Guidelines version 2 for Air Conditioning in Operation Theatres

2A. Payment Terms

- 30% advance along with the order
 - ❖ Advance along with the order – Rs 2 lacs
 - ❖ On dispatch of materials for wall panels & ceiling panels & laminar air flow with AC ducting from factory - Rs 3 lacs
 - ❖ On receiving the materials at the project site – Rs 3 lacs
 - ❖ On completion of work inside both the OTs panel work – Rs 5 lacs
- 20% payment on dispatch of all materials for both the OTs from the factory
- 20% payment on receipt of all materials for both the OTs at the project site
- 20% payment on Running Bill basis
- 10% after completion of the work and handover within one month from the date of commissioning

Adar

Bip Cc Dyl

2B. Additional Charges

- Installation charges - Rs 150000/- (One Lac fifty thousand only) plus GST @18%
- Delivery charges Rs 80000/- (Eighty thousand only) plus GST @18%

3. Delivery Schedule

- Overall project period is 12 weeks from the date of receipt of Work Order

4. Warranty

- 12 months from the date of commissioning of both the OTs

5. Client scope of work

- All Civil Works in the OT Complex
- All electrical works items and cable laying power sockets

Dear Sir,

As per your quotation PHC/Q/006/20-21, we are pleased to submit our work order as below:

Item Description	QTY	Unit	Rate	Amount
1. OXYGEN SYSTEM - 2 X 8 Oxygen Manifold with tail pipe NRV with SEMI AUTOMATIC CONTROL PANEL. Supply, testing and commissioning of Oxygen control panel to reduce the variables cylinder pressure down to constant line distribution pressure, with superior flow rate to the with demand of hospital. Two Stage regulators, safety valve takes on automatically from the empty cylinder to failed cylinder bunk visual indication of pressure from the control panel to the distribution systems, visual signal for empty cylinder bunk.	1	Set	1,05,000.00	1,05,000.00
2. EMERGENCY OXYGEN SYSTEM - 2 X 4 Emergency Oxygen Manifold with tail pipe NRV.	1	Set	38,500.00	38,500.00
3. 2 X 2 Nitrous Oxide Main Manifold tail pipe NRV with Semi automatic Control Panel. Supply, , testing and commissioning of Nitrous Oxide control panel to reduce the variables cylinder pressure down to constant line distribution pressure, with superior flow rate to the with demand of hospital. Two Stage regulators, safety valve takes on automatically from the empty cylinder to failed cylinder bunk visual indication of pressure from the control panel to the distribution systems, visual signal for empty cylinder bunk.	1	Set	55,500.00	55,500.00
4. 1 + 1 Cylinder Emergency Nitrous Oxide Manifold with tail pipe NRV and regulator.	1	Set	18,500.00	18,500.00

Anand Multispeciality Hospital Private Limited

E-mail : ruhab.bwn@gmail.com

5. 1 + 1 Carbon di Oxide Manifold with tail pipe NRV, regulator and heater.	1	Set	22,500.00	22,500.00
6. 1 Cylinder Emergency Carbon di Oxide Manifold with tail pipe NRV, regulator and heater.	1	Set	16,500.00	16,500.00
7. DUPLEX MEDICAL AIR SYSTEM - Oil Free Air-Supply, testing and commissioning of (Make Anest Iwata) Air cooled reciprocating type twin compressors capable to delivering at 8.5 Kg/sq.cm, 100% oil free, two stage with 10.00 HP, 3 phase motor base frame mounted.	1	Set	5,70,000.00	5,70,000.00
8. Air receiver tank (Make Mild Steel) capacity 600 liter for air compressor.	1	Set	45,000.00	45,000.00
9. TWIN VACUUM SYSTEM - Supply, testing and commissioning of twin vacuum pumps (Make Indo Air) reciprocating type air cooled single stage with 7.5 HP motor, starter, silencer, auto switch gear, on line filter.	1	Set	3,60,000.00	3,60,000.00
10. Common receiver tank (Make Mild Steel) 1000 liter for vacuum system.	1	Set	52,250.00	52,250.00
11. Air Dryer - (Make Trident) 45 C.F.M airflow with pre filter.	1	Set	85,000.00	85,000.00
12. Carbon activated three stage bacteria filter.	1	Set	26,600.00	26,600.00
13. Imported Air Regulators to reduce air pressure 4.2 bar and 7 bar.	2	Set	5,225.00	10,450.00
14. Copper Pipe - The pipes (Make Max Flow) will be accompanied with manufactures test certificate for the physical properties & chemical composition. Supply, testing and commissioning of copper pipe including tee, bend socket, reducer, consumables and fixtures etc. All copper fittings are imported. Solid drawn, seamless, De- oxidized non- arsenical half hard tempered and de greased copper pipe conforming to EN: 13348:2008. All copper pipe will be de greased and both sides of pipe is capped with manufacture test certificate. The pipe sizes to be used are:				
14a. 12 mm x 0.7 mm thick.	800	Mtr	313.50	2,50,800.00
14b. 15 mm x 0.9 mm thick.	1800	Mtr	449.35	8,08,830.00
14c. 22 mm x 0.9 mm thick.	1000	Mtr	589.00	5,89,000.00
14d. 28 mm x 0.9 mm thick.	300	Mtr	722.00	2,16,600.00
14e. 42 mm x 1.2 mm thick.	100	Mtr	1,890.50	1,89,050.00
15. GAS OUTLETS Points Front loading PB (AMICO U.S.A type) indian makes double parking, online facility service.				
15a. Gas outlet points for Oxygen.	220	Sets	1,615.00	3,55,300.00
15b. Gas outlet points for Nitrous Oxide.	10	Sets	1,615.00	16,150.00
15c. Gas outlet points for Air 4 bar.	50	Sets	1,615.00	80,750.00
15d. Gas outlet points for Air 7 bar.	5	Sets	1,615.00	8,075.00
15e. Gas outlet points for Vacuum.	160	Sets	1,615.00	2,58,400.00
15f. Gas outlet points for CO2.	5	Sets	1,615.00	8,075.00
16. Isolation Ball Valves with Brass end fittings. The isolation valves will be non lubricate ball type, suitable for oxygen service. All valves shall be pneumatically tested for twice the working pressure and Factory de- greased for medical gas service before supply.				
16a. 12mm.	22	Sets	1,040.00	22,880.00
16b. 15mm.	55	Sets	1,250.00	68,750.00
16c. 22mm.	25	Sets	1,700.50	42,512.50
16d. 28mm.	4	Sets	2,185.00	8,740.00
16e. 42mm.	4	Sets	2,802.50	11,210.00

<p>17. B P C Flow meter with Humidifier bottle : Back pressure Compensated flow meter shall be of accurate gas flow measurement with following features: Control within a range of 0-15 LPM. It will meet strict precision and durability standard. The flow meter body will be made of brash chrome plated materials. The flow tube and shroud components will be made of clear, impact resistant polycarbonate. Flow tube will have large and expended 0-15 lpm range for improved readability at low flows. Inter filter of stainless steel wire mesh to prevent entry of foreign particles. The humidifier bottle will be made of unbreakable polycarbonate material and autoclavable up to 140 degree centigrade temperature.</p>	150	Sets	522.50	78,375.00
<p>18. Ward Vacuum Unit with collection Jar 600ml. Ward Vacuum Units: Ward vacuum unit shall be of light weight and compact.</p> <p>The unit will consist of- A regulator should with stand up to 750 mH, A 600 ml reusable collection jar, made of unbreakable poly carbonate material and fully autoclavable up to 140 degree centigrade. A wall bracket for mounting the jar assembly on the wall. The vacuum regulator with instant ON/OFF switch will be infinitely adjustable and have vacuum gauge which indicates suction supplied by the regulator from overflowing. Suction controller must include an antibacterial.</p>	150	Sets	1,187.50	1,78,125.00
<p>19. Theatre Suction Unit: Mobile floor suction unit for operation theaters, with up 140 c autoclavable polycarbonate jars. Two such 2000 ml capacity jars, regulator with safety trap, having free moving castor wheels. Suction controller must have antibacterial filter. Adequate length of vacuum hose for use with terminal outlets.</p>	5	Sets	9,025.00	45,125.00
<p>20. Microprocessor based Digital type Line Pressure Alarm without isolation valves. Line pressure alarm (DIGITAL)</p> <p>The area line pressure alarm should be micro processor based which will monitor the pressure of medical gases like oxygen, nitrous oxide, compressed air and vacuum levels at a specific area of piped gas system in any hospital. The electronic circuitry should be such that if the pressure/vacuum in the gas pipe line drops below the present limit, the equipment should give an audio-visual alarm. Visual alarm will remain active even after pressing of MUTE button. But it should be come to normal condition when gas pressure/ vacuum return to normal level.</p> <p>The equipment should have following features:</p> <p>Four channel microprocessors controlled alarm for pneumatic & vertical services has the following features:</p> <ul style="list-style-type: none"> . Digital display of line pressure for the all the services with factory calibrated pressure sensors. . Color coded LED display of line pressure status (High-caution-normal-caution-low) . Audible alarm for high & low pressure condition. . Test and alarm acknowledge (MUTE) facility. (Alarm acknowledges time span should be programmable from 1 to 60min). . Programming facility of alarm limits from front panel (Password protected, preferably to be done through suppliers engineer). . Facility to connect to remote alarm box by potential free

contracts to be provided in the alarm box. Should be small and compact design and light weight (within 3 kg) Highly sensitive gas pressure sensors & CE marked power supply. Alarm box should have powder coated MS material. Nut & nipple to be provided for connection with pneumatic supply line. Low voltage internal operation with input power supply of 220 V AC. Wall mounting facility. Low voltage operation for safety. High/ Low indication. Test facility. Mute/ silence Facility. The alarm should be designed to meet the requirements of NFPA99/equivalent standard.				
20a. 2 Gases.	3	Sets	15,575.00	46,725.00
20b. 3 Gases.	2	Set	21,375.00	42,750.00
20c. 5 Gases.	1	Set	28,025.00	28,025.00
21. Low Pressure suction tube.	300	Mtr	76.00	22,800.00
			Total	47,82,847.50

Terms and Conditions:

1. **Warranty:** One year for all materials from the date of installation.
2. **Payment Terms:** INR 12,00,000.00 against delivery of copper pipes; INR 4,00,000.00 after Copper pipe Installation at ground, first and second floor; INR 8,00,000.00 against delivery of gas outlet points and Isolation Ball valves; INR 5,00,000.00 after Installation of all gas outlets and Ball valves; INR 8,00,000.00 against dispatch of rest of the materials; Rest after installation within one month.
3. **G.S.T:** 18% extra as applicable as on time of invoicing.
4. **Installation Charges:** INR 3, 50,000.00 + G.S.T applicable will be paid partly during the time of project work.
5. **Delivery, packing and Insurance:** INR 1, 20,000.00 + G.S.T applicable.
6. Civil work and Scaffolding in our scope.
7. Final invoice amount may vary from actual measurement.
8. Security measures shall be taken by Hospital authority.
9. Hospital authority will provide one room with lock where raw materials should be kept before installation.
10. Hospital authority will provide one room with electricity supply within Hospital premises for labour accommodation
- 11: 3% Copper scrap will be under our head.

Dear Sir,
As per your quotation PHC/Q/012/20-21, we are pleased to submit our work order for third floor
as below:

Item Description	QTY	Unit	Rate	Amount
1. Copper Pipe - The pipes (Make Max Flow) will be accompanied with manufactures test certificate for the physical properties & chemical composition. Supply, testing and commissioning of copper pipe including tee, bend socket, reducer, consumables and fixtures etc. All copper fittings are Imported. Solid drawn, seamless, De-oxidized non-arsenical half hard tempered and de greased copper pipe conforming to EN: 13348:2008. All copper pipe will be de greased and both sides of pipe is capped with manufacture test certificate. The pipe sizes to be used are:				
1a. 12 mm x 0.7 mm thick.	180	Mtr	313.50	56,430.00
1b. 15 mm x 0.9 mm thick.	440	Mtr	449.35	1,97,714.00
1c. 22 mm x 0.9 mm thick.	200	Mtr	589.00	1,17,800.00
2. GAS OUTLETS Points front loading PB (AMICO U.S.A type) Indian make double parking, online facility service.				
2a. Gas outlet points for Oxygen.	53	Sets	1,615.00	85,595.00
2c. Gas outlet points for Air 4 bar.	10	Sets	1,615.00	16,150.00
2e. Gas outlet points for Vacuum.	43	Sets	1,615.00	69,445.00
3. Isolation Ball Valves with Brass end fittings. The isolation valves will be non lubricate ball type, suitable for oxygen service. All valves shall be pneumatically tested for twice the working pressure and Factory de- greased for medical gas service before supply.				
3a. 12mm.	8	Sets	1,040.00	8,320.00
3b. 15mm.	12	Sets	1,250.00	15,000.00
3c. 22mm.	12	Sets	1,700.50	20,406.00
3d. 28mm.	1	Sets	2,185.00	2,185.00
4. B P C Flow meter with Humidifier bottle: Back pressure Compensated flow meter shall be of accurate gas flow measurement with following features: Control within a range of 0-15 LPM. It will meet strict precision and durability standard. The flow meter body will be made of brush chrome plated materials. The flow tube and shroud components will be made of clear, impact resistant polycarbonate. Flow tube will have	53	Sets	522.50	27,692.50
