Memo. No. SEIAA/HR/15/61

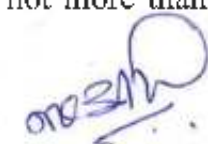

Date: 05-01-2015

Subject: Extension of validity of environment clearance granted for Group Housing Project measuring 62.9935 Acres at Village Maidawas and Badshahpur, Sector-65, Gurgaon, Haryana.

Please refer to your application dated 01.08.2014 seeking extension of validity of environment clearance granted for Group Housing Project measuring 62.9935 Acres at Village Maidawas and Badshahpur, Sector-65, Gurgaon, by SEIAA on 28.10.2009. The validity of environment clearance letter was up to 27.10.2014.

The case was taken up in the 78th meeting held on 16.12.2014. It was observed that project proponent clarified that the delay in completing the project is due to economic recession and time spent in getting the project financed from the bank. The project proponent also submitted photographs showing status of construction. The project proponent also under-took to declare that the construction under taken is as per environmentally cleared plans.

After details deliberations the Authority felt satisfied with the reasons given and decided to grant extension of validity of environmental clearance letter granted to the unit till the validity of license, in case the license is again revalidated than not more than 5 years with affect from 27.10.2014.

Member Secretary,
SEIAA, Haryana.
