Conditions of FORM L-1A

Form No. S (H/O/W) 003/53J (S100198)

- 1. Licensed premises shall conform to the description of location and facilities and to the approved plan as mentioned on the body of the licence.
- 2. Licensed premises shall have prominently marked thereon the number of the licence held for it.
- 3. The emergency telephone numbers of local fire service, police and the principal marketing company or supplier of the compressed gas, and telephone numbers, shall be conspicuously displayed in the licensed premises.
- 4. The licensed premises shall not be used for any purpose other than the purpose for which the licence is granted.
- 5. The compressed gas shall be stored only in the vessels specified in the licence and shown in the approved plan attached hereto.
- 6. Storage vessel shall at all times maintain requisite safety distance from any other facility, building, boundary, fencing or protected works as specified in appropriate plan as specified in rule 22.
- 7. Suitable hard stand for parking of the vehicle during loading or unloading of any compressed gas shall be provided. The following minimum safety distances shall be maintained between the centre of the hard stand and the storage vessel or the point of installation, as well as between the loading or unloading points, and storage vessel or boundary line of installation as specified under item (ii) of sub-rule 22 of Rule 22.
- 8. Valves of the vessel shall be maintained in good operating condition.
- 9. Alteration of the position of the vessel and no replacement of the vessel shall be effected except with the previous sanction, in writing, of the licensing authority as specified in the rules.
- 10. Any vessel before being repaired or ex-haused shall be made free of compressed gas and thoroughly cleaned in a safe manner. When a vessel is opened for cleaning or repair, no lamp or any description either ordinary or electric, electric cables or fans and no articles, appliances or equipment capable of igniting flammable vapours shall be brought near the vessel.
- 11. No person shall cause to repair or repair either by the use of fire welding, hot riveting or brazing any vessel used for the storage of flammable gas unless it has been thoroughly cleaned and gas-freed or otherwise prepared for safely carrying out such work and certified in writing, by a competent person, to have been so prepared. After the vessel has been certified as gas-free, the certificate shall be preserved by the licensee for a period of not less than three months and produced to the licensing authority on demand.
- 12. No person shall enter any vessel used for the storage of a toxic or corrosive gas unless he is adequately protected by means of protective clothing, gas masks and such other equipments as may be required in the specific case.
- 13. Compressed gas shall be filled into or removed from the vessel through designated pipes of required specification and through transfer facilities shown in the approved plan.
- 14. The vessel shall not be filled between the hours of sunset and sunrise, unless adequate lighting of approved type is provided and except in such manner and such other condition or conditions as are specifically endorsed on the licence by the licensing authority.
- 15. All operations in the licensed premises shall be carried out by persons competent in such operation. Every person managing or employed on or in connection with the licensed premises shall abstain from any act whatsoever which tends to cause fire or explosion and which is not reasonably necessary and to the best of his ability shall prevent any other person from doing such act.
- 16. The licensee shall provide for each licensed premises a minimum of two portable foam type or dry chemical type fire extinguishers of 9 kg. capacity each, which shall be kept ready at convenient location for immediate use in the event of any fire in addition to other fire fighting or other mitigating facilities required for flammable or toxic gases.
- 17. All valves in the premises must be permanently marked in a manner clearly indicating the direction of opening and shutting the valve.
- 18. Access to the licensed premises shall be given at all reasonable times to any of the officers specified in rule 22 and every facility shall be afforded to such officers for ascertaining that the rules and the conditions of this licence are duly observed.
- 19. If the licensing authority calls upon the holder of a licence by a notice in writing to execute any repairs in the licensed premises which are, in the opinion of such authority, necessary for the safety of the premises, the holder of the licence shall execute the repairs within such period as may be specified in the notice.
- 20. Every vessel shall be outside any building and shall be supported on well designed calculations.
- 21. No artificial light capable of igniting flammable vapour shall at any time be present within nine metres of the vehicle and the loading or unloading points during the transfer of the compressed gas and no person engaged in such transfer shall smoke.
- 22. All electrically equipment such as motors, switches, starters used for transfer of liquefied petroleum gas shall be of flameproof construction conforming to IS 1044 (parts 9, 10 & 11) or of a type approved by the Chief Controller.
- 23. Smoking, naked lights, lamps, source of fire or any other stimulant capable of igniting flammable vapours shall not be allowed inside the premises. Every person managing or employed on or in connection with licensed premises shall abstain from any act whatsoever which tends to cause fire or explosion and which is not reasonably necessary and to the best of his ability, shall prevent any other person from doing such act.
- 24. Any accident, fire, explosion or untoward incident occurred within the licensed premises shall be immediately reported to the Chief Controller of Explosives, Nagpur, Chief Controller, nearest police station and District Magistrate by quickest mode of communication.
