## 1600 TYPE 5-LAYER CORRUGATED PAPERBOARD

### PRODUCTION LINE

### DESIGN SPEED:-100MTR/ MIN

Designed speed:100m/ min		Economic speed:50-60m/ min	
NO.	Machine names	Quantity	Configuration
1	hydraulic millroll stand	5sets	Trolley for carry paper and track, expansion chuck
2	Double layer heavy-type conveyor bridge	1 set	Electrical deviation-rectifying device, adsorption tension
3	Landing type pre-heater	4sets	diameter 600mm, electrical adjust the dimension of pre-heater
4	Adsorption heavy type single facer	2 sets	Corrugated roller diameter 320mm, 48CrMo high quality alloy steel, gimbal transmission, inverter control, electrical adjust the glue application amount, heavy board.
5	Triple pre-heater	1 set	Diameter 600mm, electrical adjust the dimension of pre-heater
6	Double gluer Machine	1 set	Press roller pneumatic pressing, inverter control

7	Double facer	1 set	Heater plates 520mm, 16 pieces, heavy body, double tension pneumatic, adopt press plate and press roller together for pressure
8	Main transmission Machine	1 set	Belt roller face with glue, rubber roller diameter: 630mm, 22kw inverter motor,
9	High speed thin blade slitter Machine	1 set	electric deviation-rectifying device, alloy blade, 5 blades 8 scorers
10	NC. Cutoff with helical blade	1 set	Servo computer servo control, change order automatically, cutting paper range: 500-9999mm
11	Glue making system	1 set	Glue making station, electrical making glue, electrical feed glue, electrical cycle
12	Right angle horizontal transmit stacker	1 set	Feed paper trolley 2 sets, counting automatically, transmission automatically
13	Electrical control system	1 set	3 sets of controlled electric cabinets, all of that adopt famous brands, touch screen.
14	Baker and finalizing design system	1 set	Adopt press roller, pressure can be adjustment
15	BOILER	1 SET	BOILER FOR STEAM AND HEATING
15	LEADGE Double colour printer with rotary die cutter with slotting attachment	1 set	LEDAGE Double colour printer with rotary die cutter with slotting attachment
