VALUATION REPORT OF

NATURE OF ASSETS	PLANT & MACHINERY
CATEGORY OF ASSETS	INDUSTRIAL
TYPE OF ASSETS	INDUSTRIAL PLANT & MACHINERY

SITUATED AT
KHASRA NO. 157, ROORKEE BYPASS, SITE MALHU MAJRA, ROORKEE,
HARIDWAR, UTTARAKHAND

OWNER/S

M/S. HIMSATTVA HARVEST PRIVATE LIMITED

REPORT PREPARED FOR

STATE BANK OF INDIA, SME BRANCH, ROORKEE, DISTRICT- HARIDWAR

- Corporate Valuers
- Business/ Enterprise/ Equity Valuations
- Lender's Independent Engineers (LIE)
- Techno Economic Valuers (TEV)
- Agency for Specialized Account Monitoring (ASM)

SUMMARY OF THE VALUATION REPORT

S.NO.	CONTENTS	DESCRIPTION		
1.	GENERAL DETAILS			
a.	Report prepared for	Bank		
b.	Name & Address of Organization	State Bank of India, SME Branch, Roorkee, District-Haridwar		
c.	Work Order No. & Date	Via email dated: 16.10.2023		
d.	Address at which machineries are located	Khasra No. 157, Roorkee Bypass, Site Malhu Majra, Roorkee, Haridwar, Uttarakhand		
e.	Google Map Location	29°52'41.9"N 77°57'28.4"E		
f.	Type of the Assets	Machinery & Equipments		
g.	Nature of Industry	Honey Processing		
h.	Type of Valuation	Industrial Plant & Machinery Valuation		
i.	Report Type	Plain Asset Valuation		
j.	Date of Appointment	16 October 2023		
k.	Date of Inspection of the Property	16 October 2023		
l.	Date of Valuation	20 October 2023		
m.	Date of Valuation Report	20 October 2023		
n.	Technical person name, contact number & designation assisted for Survey	Name	Relationship with Owner	Contact Number
		Mr. Sanjay Singh	Owner	+91-98970 73175
o.	Purpose of the Valuation	For Value assessment of the asset for creating collateral mortgage for Bank Loan purpose		
p.	Scope of the Assessment	Non Binding Opinion on General Prospective Valuation Assessment of the Machinery & equipments as found on site on as-is-where basis.		
q.	Out-of-Scope of the Assessment	i. Verification of authenticity of documents from originals or cross checking from any Govt. dept. is not done at our end. ii. Legal aspects & rights of the Machines are out-of-scope of this report. iii. Preparing list of machinery & equipments is out of scope of work. iv. Componentization of assets is out of scope of this report. v. Identification of the Assets is only limited to cross verification of major machines & equipments. vi. Technical/ mechanical/ operational testing of the machines is out-of-scope of the report. vii. Comment/ determination on technological aspect is out of scope of this report. viii. Any kind of machine/ process design is out of scope of the report.		
r.		Documents Requested	Documents Provided	

	Documents provided/ available for assessment	Detailed Fixed Asset Register	No details/ information provided
		List of Machinery	List of Machinery & equipments
		Invoices/ Bills	Invoices of few machines are available

		<input type="checkbox"/>	Identification of the machines could not be done properly
		<input type="checkbox"/>	Due to large number of assets, only major assets have been checked
		<input type="checkbox"/>	Physical inspection of the machines could not be done

2. VALUATION SUMMARY

VALUATION SUMMARY MACHINERY & OTHER EQUIPMENTS				
S. No.	Particulars	Invoice Amount (INR)	Gross Current Replacement Cost (INR)	Fair Market Value (INR)
1	Machinery	1,94,30,964	1,95,52,550	1,88,78,373
2	Fitting & Fixtures	19,01,779	19,05,900	18,39,702
Total		2,13,32,742	2,14,58,451	2,07,18,075
Notes:				
1. Asset like machinery and other equipments pertaining to M/s. Himsattva Harvest Private Limited located at Khasra No. 157, Roorkee Bypass, Site Malhu Majra, Roorkee, Haridwar, Uttarakhand, are considered in this section of valuation report.				
2. For evaluating useful life of assets, chart of Companies Act-2013 and generally accepted market standards are referred in this assessment to reach the final economical life of a particular asset.				
3. During the site visit conducted by our engineering team on 06/09/2023, the machinery & equipments were physically inspected. As per the information available in the public domain, such machinery & equipments have a useful life of 5-15 years.				
4. The gross amount is considered as per the list of machines & equipments shared by the bank/company. Date of capitalization is considered same as the invoice date for those machines & equipments whose invoices are provided. For the remaining machines & equipments, the date of capitalization is taken as 01-03-2023 and 01-09-2023.				
5. Rate of Inflation has been assessed with the help of price indices of commodities. Price indices have been referred from the Office of Economic Advisor (Government of India). Further Inflation in respective commodity has been evaluated and applied to the respective capitalization cost to reach its Gross Current Replacement Cost.				
6. Final valuation includes design, erection, procurement, installation & commissioning charges as well.				
7. The machinery and equipments were operational at the time of site inspection.				

PART C

CHARACTERISTICS DESCRIPTION OF ASSETS

S.NO.	CONTENTS	DESCRIPTION	
1.	TECHNICAL DESCRIPTION OF THE ASSETS		
a.	Nature of assets	Honey Processing Machinery & equipments	
b.	Size of the Plant	Small scale Plant	
c.	Type of the Plant	Honey Processing Plant	
d.	Year of Installation/ Commissioning/ COD (Commercial Operation Date)	March 2023	
e.	Production Capacity	40 MT per day (Bulk) 20 MT per day (if bottling)	
f.	Capacity at which Plant was running at the time of Survey	20 MT per day	
g.	Number of Production Lines	One.	
h.	Condition of assets	Good.	
i.	Status of the Plant/Asset	Operational	
j.	Products Manufactured in this Plant	Honey	
k.	Recent maintenance carried out on	Newly setup plant	
l.	Recent upgradation, improvements if done any	No	
m.	Total Gross Block & Net Block of Assets	Gross Block	Net Block
		Rs.2,13,32,742/- (As per the details provided)	---
n.	Any other Details if any	No	
2.	MANUFACTURING PROCESS		
	Manufacturing Process chart was not available.		
3.	TECHNOLOGY TYPE/ GENERATION USED AND TECHNOLOGICAL COLLABORATIONS IF ANY		
a.	Technology Type/ Generation Used in this Plant	Honey Processing Plant	
b.	Technological Collaborations If Any	No	
c.	Current Technology used for this Industry in Market	Similar	
4.	RAW MATERIALS REQUIRED & AVAILABILITY		
	Type of Raw Material	Raw Honey	
	Availability	Adequately available	
5.	AVAILABILITY & STATUS OF UTILITIES		
	Power/ Electricity	Available	
	Water	Available	
	Road/ Transport	Available	

6.	COMMENT ON AVAILABILITY OF LABOUR	
	Availability	Available
	Number of Labours working in the Factory	~12
7.	SALES TRANSACTIONAL PROSPECTS OF SUCH ASSETS	
	Strategic Sale as part of the ongoing concern company.	
	Reason: This is a small scale plant and all are general used machines which can be used in similar industry and cost of dismantling and transportation will not be very high. So, for fetching maximum value is through strategic sale to the players who are already into same or similar Industry who have plans for expansion or any large conglomerate who plans to enter into this new Industry	
8.	DEMAND OF SUCH ASSETS IN THE MARKET	
	Appears to be good as per general information available in public domain.	
9.	INSPECTION/ SURVEY DETAILS	
a.	The plant was surveyed by our authorized engineer Mr. Deepak Joshi on 16/10/2023.	
b.	Site inspection was done in the presence of respective owner who was available from the company to furnish any specific detail about the machineries.	
c.	Our team examined & verified the machines & equipments from the list provided by the company.	
d.	Photographs have also been taken of all the machines as identified by the owner.	
e.	Details have been cross checked as per the invoices provided to us by the company and what was observed at the site.	
f.	Condition of the machines is checked through visual observation only. No technical/ mechanical/ operational testing has been carried out to ascertain the condition and efficiency of machines.	
g.	Site Survey has been carried out on the basis of the physical existence of the assets rather than their technical expediency.	
h.	As per the overall site visit summary, the plant was operational and in good condition.	

PART D

PROCEDURE OF VALUATION ASSESMENT

1.		GENERAL INFORMATION			
i.	Important Dates	Date of Appointment	Date of Inspection of the Property	Date of Valuation Assessment	Date of Valuation Report
		16 October 2023	16 October 2023	20 October 2023	20 October 2023
ii.	Client	M/s. Himsattva Harvest Private Limited			
iii.	Intended User	M/s. Himsattva Harvest Private Limited			
iv.	Intended Use	To know the general idea on the market valuation trend of the machines as per free market transaction. This report is not intended to cover any other internal mechanism, criteria, and considerations of any organization as per their own need, use & purpose.			
v.	Purpose of Valuation	For Value assessment of the asset for creating collateral mortgage for Bank Loan purpose			
vi.	Scope of the Assessment	Non binding opinion on the assessment of Plain Physical Asset Valuation of the property identified to us by the owner or through his representative.			
vii.	Restrictions	This report should not be referred for any other purpose, by any other user and for any other date other then as specified above.			
viii.	Manner in which identification of the Assets is done	✓	Cross checked from the name of the machines mentioned in the machine list name plate displayed on the machine		
		✓	Identified by the owner		
		□	Identified from the available Invoices		
		□	Identification of the machines could not be done properly		
		□	Due to large number of machines, only major assets have been checked		
		□	Enquired from local residents/ public		
		□	Physical inspection of the machines could not be done		
ix.	Type of Survey conducted	Full survey (inside-out with verification & photographs).			

2.		ASSESSMENT FACTORS		
i.	Valuation Standards considered	Mix of standards such as IVS and others issued by Indian authorities & institutions and improvised by the RKA internal research team as and where it is felt necessary to derive at a reasonable, logical & scientific approach. In this regard proper basis, approach, working, definitions considered is defined below which may have certain departures to IVS.		
ii.	Nature of the Valuation	Fixed Assets Valuation		
iii.	Nature/ Category/ Type/ Classification of Asset under	Nature	Category	Type
		MACHINERY &	INDUSTRIAL	SMALL/ MID-SCALE

	Valuation	EQUIPMENTS		MANUFACTURING UNIT	
		Classification		Only business use asset	
iv.	Type of Valuation (Basis of Valuation as per IVS)	Primary Basis		Fair Market Value	
		Secondary Basis		On-going concern basis	
v.	Present market state of the Asset assumed (Premise of Value as per IVS)	Under Normal Marketable State			
		Reason: Asset under free market transaction state			
vi.	Physical Infrastructure availability factors of the locality	Water Supply	Sewerage/ sanitation system	Electricity	Road and Public Transport connectivity
		Yes	Underground	Yes	Easily available
		Availability of other public utilities nearby		Availability of communication facilities	
		Available		Major Telecommunication Service Provider & ISP connections are available	
vii.	Neighbourhood amenities	Good			
viii.	Any New Development in surrounding area	None			
ix.	Any specific advantage/ drawback in the assets	The plant was operational at the time of site survey.			
x.	Machines overall usability/ utility Factor	Good			
xi.	Subject Industrial sector/ product manufactured outlook	Fair			
xii.	Best Sale procedure to realize maximum Value (in respect to Present market state or premise of the Asset as per point (iv) above)	Fair Market Value			
		Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.			
xiii.	Hypothetical Sale transaction method assumed for the computation of valuation	Fair Market Value			
		Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.			
xiv.	Approach & Method of Valuation Used	Asset Type	Approach of Valuation	Method of Valuation	
		Plant & Machinery	Cost Approach	Depreciated Replacement Cost Method	
xv.	Type of Source of Information	Level 3 Input (Tertiary)			
xvi.	Any other aspect which has relevance on the value or marketability of the machines	The marketability for the machines depends upon the industry outlook, make, market condition, maintenance, usability, capacity.			

This Valuation report is prepared based on the facts of the assets & market situation on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the region/ country. In future assets market may go down, asset conditions may change or may go worse, plant vicinity conditions may go down or become worse, plant sector outlook may change due to impact of Govt. policies or effect of domestic/ world economy, usability prospects of the Plant may change, etc. Hence user of this report should take into consideration all such future risk while taking any business decision.

xvii. **Basis of computation & working**

xviii. **Main Basis:**

- a. **Basic Methodology:** For arriving at fair market value of machines, our engineering team has applied 'Cost approach (Depreciated Replacement Cost Approach) and Market Approach (Market Comparable Approach)'. The fair market value of the assets on the date of valuation is its depreciated cost of replacement depending upon their Technical, Economic, Functional specifications.
- b. Valuation is done keeping in mind various factors like technology used, machines availability, its condition, average age, maintenance & service and parts replacement availability of the machines and more importantly demand in the market.
- c. Provided purchase cost via the machinery list and invoices shared with us. On our request we have not got break-up of hard & soft cost separately hence we have to go by the given figure.
- d. For calculating Replacement Cost of the machines as on date, Cost Inflation Index is taken into consideration.
- e. On the Depreciated Replacement Cost (DRC) deduction for obsolescence/ deterioration for additional depletion has been taken to arrive at the Estimated Prospective Fair Market Value of the machinery and equipments.
- f. **Underline assumption** for the evaluation of this asset is that it can be sold individually in market since demand of used & second hand machinery of this type is available in the market.
- g. Valuation of the asset is done as found on as-is-where basis on the visited sites as identified to us by the site representatives during site inspection by our engineer/s unless otherwise mentioned in the report.

Other Basis:

- h. Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work and based on the Standard Operating Procedures, Best Practices, Caveats, Limitations, Conditions, Remarks, Important Notes, Valuation TOR and definition of different nature of values.
- i. The indicative value has been suggested based on the prevailing market rates that came to our knowledge during secondary & tertiary market research and is not split into formal & informal payment arrangements. Most of the deals takes place which includes both formal & informal payment components. Deals which takes place in complete formal payment component may realize relatively less actual transaction value due to inherent added tax, stamp registration liabilities on the buyer.
- j. Secondary/ Tertiary costs related to asset transaction like Installation, maintenance and Logistics costs pertaining to the sale/ purchase of the assets are not considered separately while assessing the indicative estimated Market Value and is assumed to be included in the Cost of capitalization provided by the client.
- k. The condition assessment and the estimation of the residual economic life of the machinery and assets are only based on the visual observations and appearance found during the site survey.

	We have not carried out any physical tests to assess the working and efficiency of the machines and assets.		
	<p>l. Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset or on its owners has not been factored in the Valuation.</p> <p>m. Valuation is done for the asset found on as-is-where basis which owner/ owner representative/ client/ bank has shown to us on site of which some reference has been taken from the information/ data given in the copy of documents provided to us which have been relied upon in good faith and we have assumed that it to be true and correct.</p>		
xix.	ASSUMPTIONS		
	<p>a. Information/ Data provided by the client/ property owner or his representative both written & verbally is true and correct without any fabrication and has been relied upon in good faith.</p> <p>b. The assets and interests therein have been valued free and clear of any liens or encumbrances unless stated otherwise. No hidden or apparent conditions regarding the subject assets or their ownership are assumed to exist. No opinion of title is rendered in this report and a good title is assumed unless stated otherwise.</p> <p>c. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property after satisfying the authenticity of the documents given to us and for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report. I/ We assume no responsibility for the legal matters including, but not limited to, legal or title concerns.</p> <p>d. Payment condition during transaction in the Valuation has been considered on all cash basis which includes both formal & informal payment components as per market trend.</p> <p>e. Sale transaction method of the asset is assumed as Free market transaction without any compulsion unless otherwise mentioned while assessing Indicative & Estimated Fair Prospective Market Value of the asset unless otherwise stated.</p>		
xx.	SPECIAL ASSUMPTIONS		
	None		
xxi.	LIMITATIONS		
	None

Notes:

1. Asset like machinery and other equipments pertaining to M/s. Himsattva Harvest Private Limited located at Khasra No. 157, Roorkee Bypass, Site Malhu Majra, Roorkee, Haridwar, Uttarakhand, are considered in this section of valuation report.
2. For evaluating useful life of assets, chart of Companies Act-2013 and generally accepted market standards are referred in this assessment to reach the final economical life of a particular asset.
3. During the site visit conducted by our engineering team on 06/09/2023, the machinery & equipments were physically inspected. As per the information available in the public domain, such machinery & equipments have a useful life of 5-15 years.
4. The gross amount is considered as per the list of machines & equipments shared by the bank/company. Date of capitalization is considered same as the invoice date for those machines & equipments whose invoices are provided. For the remaining machines & equipments, the date of capitalization is taken as 01-03-2023 and 01-09-2023.
5. Rate of Inflation has been assessed with the help of price indices of commodities. Price indices have been referred from the Office of Economic Advisor (Government of India). Further Inflation in respective commodity has been evaluated and applied to the respective capitalization cost to reach its Gross Current Replacement Cost.
6. Final valuation includes design, erection, procurement, installation & commissioning charges as well.
7. The machinery and equipments were operational at the time of site inspection.

	<p>a. We are independent of client/ company and do not have any direct/ indirect interest in the property/assets.</p> <p>b. This valuation has been conducted by R.K Associates Valuers & Techno Engineering Consultants (P) Ltd. and its team of experts.</p> <p>c. This valuation is done for the property/assets found on as-is-where basis as shown on the site by the Bank/ customer of which photographs is also attached with the report.</p> <p>d. Reference of the property/assets is also taken from the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. However, we do not vouch the absolute correctness of the property/asset identification, exact address, physical conditions, etc. based on the documents provided to us since property/assets shown to us may differ on site Vs as mentioned in the documents or incorrect/ fabricated documents may have been provided to us.</p> <p>e. Legal aspects for eg. Investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents from originals or from any Govt. department, etc. has to be taken care by legal experts/ Advocates and same has not been done at our end.</p> <p>f. The valuation of an asset is an estimate of the worth of that asset which is arrived at by the Valuer in his expert opinion after factoring in multiple parameters and externalities. This may not be the actual price of that asset and the market may discover a different price for that asset.</p> <p>g. This report only contains opinion based on technical & market information which came to our knowledge during the course of the assignment. It doesn't contain any recommendations.</p> <p>h. This report is prepared following our Standard Operating Procedures & Best Practices and will be subject to Limitations, Conditions, Valuer's Remarks, Important Notes, Valuation TOS and basis of computation & working as described above.</p>		

- i. The use of this report will become valid only after payment of full fees as per the Payment Terms. Using this report or any part content created in this report without payment of charges will be seen as misuse and unauthorized use of the report.

i. **IMPORTANT KEY DEFINITIONS**

Fair Value suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of the assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Fair Value without using the term "Market" in it describes that the value suggested by the Valuer may not mandatorily follow or may not be in complete consonance to the established Market in his expert opinion. It may or may not follow market dynamics. But if the suggested value by the valuer is not within the prevailing Market range or is assessed for an asset is located in an un-established Market then the valuer will give reasonable justification & reasoning that for what reasons the value suggested by him doesn't follow the prevailing market dynamics.

Fair Market Value suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice in consonance to the Market dynamics after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Here the words "in consonance to the established Market" means that the Valuer will give opinion within the realms & dynamics of the prevailing market rates after exhaustively doing the micro market research. However due to the element of "Fair" in it, valuer will always look for the factors if the value should be better than the market realms which is just & equitable backed by strong justification and reasoning.

Market Value suggested by the competent Valuer is that prospective estimated amount which is average price of the similar comparable assets prevailing in an open & established market during the near period of the date of valuation at which the subject asset/ property should be exchanged between a willing buyer and willing seller on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities at an arm's length transaction in an open, established & unrestricted market, in an orderly transaction, wherein the parties, each acted without any compulsion on the date of the Valuation.

Using the term "Market Value" without "Fair" omits the elements of proper marketing, acting knowledgeably & prudently.

Market and market participants can be sentimental, inclined towards the transaction without the element of complete knowledge & prudence about facts or due diligence of the asset therefore "each acted knowledgeably, prudently" has been removed from the marker Value definition.

Realizable Value is that minimum prospective estimated value of the asset/ property which it may be able to fetch at the time of actual property transaction factoring in the element of discount due to the prospects of deep negotiations between the buyer & seller when the parties in-principally find Fair Market Value

reasonable and sits together to close the deal and the transaction across the table. Discount percentage on the Fair Market Value due to negotiation will depend on the nature, size, various salability prospects of the subject asset, the needs of the buyer & the seller and kind of payment terms. In some of the cases Realizable and Fair Market Value may also be equal.

Distress Sale Value* is that value when the property is attached with any process such as mortgaged financing, financial or operational dues which is under any stress condition or situation and the stakeholders are under process of finding resolution towards it to save the property from being attached to a formal recovery process. In this type of sale, minimum fetch value assessed will always be less than the estimated Fair Market Value where the discount of percentage will depend upon various circumstances and factors such as nature, size, salability prospects of the property and kind of encumbrance on the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness & pressure of selling the property will be more on the seller than the buyer.

Liquidation Value is the amount that would be realized when an asset or group of assets are sold due to any compulsion or constraints such as in a recovery process guided by statute, law or legal process, clearance sale or any such condition or situation thereof where the pressure of selling the asset/ property is very high to realize whatever maximum amount can be from the sale of the assets in a limited time for clearance of dues or due to closure of business. In other words, this kind of value is also called as forced sale value.

Difference between Cost, Price & Value: Generally, these words are used and understood synonymously. However, in reality each of these has a completely different meaning, premise and also having different definitions in professional & legal terms. Therefore, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.

The **Cost** of an asset represents the actual amount spend in the construction/ actual creation of the asset.

The **Price** is the amount paid for the procurement of the same asset.

The **Value** is defined as the present worth of future rights in the property/ asset and is a hypothetical or notional price that buyers and sellers are most likely to conclude for a good or service. Value is not a fact, but an estimate of the likely price to be paid for a good or service at a given time in accordance with a particular definition of value.

Therefore, in actual for the same asset/ property, cost, price & value remain different since these terms have different usage & meaning.

ENCLOSURE: 4 – VALUER’S IMPORTANT REMARKS

1.	Valuation is done for the asset found on as-is-where basis which owner/ owner representative/ client/ bank has shown/ identified to us on the site unless otherwise mentioned in the report of which some reference has been taken from the information/ data given in the copy of documents provided to us and informed verbally or in writing out of the standard checklist of documents sought from the client & its customer which they could provide within the reasonable expected time out of the standard checklist of documents sought from them and further based on certain assumptions and limiting conditions. The information, facts, documents, data which has become primary basis of the report has been supplied by the client which has been relied upon in good faith and is not generated by the Valuer.
2.	The client/ owner and its management/ representatives warranted to us that the information they have supplied was complete, accurate and true and correct to the best of their knowledge. All such information provided to us either verbally, in writing or through documents has been relied upon in good faith and we have assumed that it is true & correct without any fabrication or misrepresentation. I/We shall not be held liable for any loss, damages, cost or expenses arising from fraudulent acts, misrepresentations, or willful default on part of the owner, company, its directors, employee, representative or agents.
3.	Legal aspects for eg. Investigation of title, ownership rights, lien, charge, mortgage, lease, sanctioned maps, verification of documents provided to us such as title documents, Map, etc. from any concerned Govt. office etc. have to be taken care by legal expert/ Advocate and same is not done at our end. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property/assets after satisfying the authenticity of the documents given to us for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report. I/ We assume no responsibility for the legal matters including, but not limited to, legal or title concerns.
4.	In the course of the valuation, we were provided with both written and verbal information. We have however, evaluated the information provided to us through broad inquiry, analysis and review but have not carried out a due diligence or audit of the information provided for the purpose of this engagement. Our conclusions are based on the assumptions and other information provided to us by the client during the course of the assessment.
5.	Getting cizra map or coordination with revenue officers for site identification is a separate activity and is not part of the Valuation services and same has not been done in this report unless otherwise stated.
6.	Wherever any details are mentioned in the report in relation to any legal aspect of the property/assets such as name of the owner, leases, etc. is only for illustration purpose and should not be construed as a professional opinion. Legal aspects are out of scope of this report. Details mentioned related to legal aspect are only based on the copy of the documents provided to us and whatever we can interpret as a non-legally trained person. This should be cross validated with a legal expert. We do not vouch any responsibility regarding the same.
7.	We have made certain assumptions in relation to facts, conditions & situations affecting the subject of, or approach to this exercise that has not been verified as part of the engagement rather, treated as "a supposition taken to be true". If any of these assumptions prove to be incorrect then our estimate on value will need to be reviewed.
8.	This is just an opinion report based on technical & market information having general assessment & opinion on the indicative, estimated Market Value of the property/assets for which Bank has asked to conduct the Valuation. It doesn't contain any other recommendations of any sort including but not limited to express of any opinion on the suitability or otherwise of entering into any transaction with the borrower.
9.	We have relied on the data from third party, external sources & information available on public domain to conclude the valuation. These sources are believed to be reliable and therefore, we assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. Where we have relied on the data, opinions or estimates from external sources, reasonable care has been taken to ensure that such data is extracted from authentic sources, however we still can't vouch its authenticity, correctness, or accuracy.
10.	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work and based on the Standard Operating Procedures, Best Practices, Caveats, Limitations, Conditions, Remarks, Important Notes, Valuation TOR and definition of different nature of values.
11.	Value varies with the Purpose/ Date/ Asset Condition & situation/ Market condition, demand & supply, asset utility prevailing on a particular date/ Mode of sale. The indicative & estimated prospective Value of the asset given in this report is restricted only for the purpose and other points mentioned above prevailing on a particular date as mentioned in the report. If any of these points are different from the one mentioned aforesaid in the Report then this report should not be referred.
12.	Our report is meant ONLY for the purpose mentioned in the report and should not be used for any other purpose. The Report should not be copied or reproduced for any purpose other than the purpose for which it is prepared for. I/we do not take any responsibility for the unauthorized use of this report.
13.	We owe responsibility only to the authority/client that has appointed us as per the scope of work mentioned in the report. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions or advice given by any other person. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on part of the client or companies, their directors, employees or agents.
14.	This report is having limited scope as per its fields & format <u>to provide only the general basic idea of the value of the property/assets prevailing in the market</u> based on the site inspection and documents/ data/ information provided by the client. The suggested indicative prospective estimated value should be considered only if transaction is happened <u>as free market transaction</u> .
15.	The sale of the subject property/assets is assumed to be on an all cash basis. Financial arrangements would affect the price at which the property/assets may sell for if placed on the market.

16.	The actual realizable value that is likely to be fetched upon sale of the asset under consideration shall entirely depend on the demand and supply of the same in the market at the time of sale.
17.	While our work has involved an analysis & computation of valuation, it does not include detailed estimation, design/ technical/ engineering/ financial/ structural/ environmental/ architectural/ compliance survey/ safety audit & works in accordance with generally accepted standards of audit & other such works. The report in this work is not investigative in nature. It is mere an opinion on the likely estimated valuation based on the facts & details presented to us by the client and third party market information came in front of us within the limited time of this assignment, which may vary from situation to situation.
18.	Where a sketched plan is attached to this report, it does not purport to represent accurate architectural plans. Sketch plans and photographs are provided as general illustrations only.
19.	Documents, information, data including title deeds provided to us during the course of this assessment by the client is reviewed only upto the extent required in relation to the scope of the work. No document has been reviewed beyond the scope of the work. These are not reviewed in terms of legal rights for which we do not have expertise. Wherever any information mentioned in this report is mentioned from the documents like owners name, etc., it is only for illustration purpose and may not necessary represent accuracy.
20.	The report assumes that the borrower/company/business/asset complies fully with relevant laws and regulations applicable in its area of operations and usage unless otherwise stated, and that the companies/business/assets is managed in a competent and responsible manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a legal nature, including issues of legal title and compliance with relevant laws, and litigations and other contingent liabilities that are not recorded/reflected in the documents/ details/ information/ data provided to us.
21.	This valuation report is not a qualification for accuracy of land boundaries, schedule (in physical terms), dimensions & identification. For this land/ property survey report can be sought from a qualified private or Govt. surveyor.
22.	This Valuation report is prepared based on the facts of the property on the date of the survey. Due to possible changes in market forces, socio-economic conditions, property conditions and circumstances, this valuation report can only be regarded as relevant as at the valuation date. Hence before financing, Banker/ FI should take into consideration all such future risk and should loan conservatively to keep the advanced money safe in case of the downward trend of the property value.
23.	Valuation of the same asset/ property can fetch different values under different circumstances & situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly, an asset sold directly by an owner in the open market through free market transaction then it will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it, will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing and take decision accordingly.
24.	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just visually matched the land boundaries, schedule (in physical terms) & dimensions of the property with reference to the documents produced for perusal. Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be carried out. It is requested from the Bank to cross check from their own records/ information if this is the same property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or misrepresented the property due to any vested interest. Where there is a doubt about the precision position of the boundaries, schedule, dimensions of site & structures, it is recommended that a Licensed Surveyor be contacted.
25.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities & districts where property number is either not assigned or not displayed on the properties clearly and also due to the presence of multiple/ parallel departments due to which ownership/ rights/ illegal possession/ encroachment issues are rampant across India and due to these limitations at many occasions it becomes tough to identify the property with 100% surety from the available documents, information & site whereabouts and thus chances of error, misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error it is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents are provided.
26.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township and the subject unit must be approved in all respect.
27.	Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable the time when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough for the Valuer to determine the exact lawful situation on ground. Unless otherwise mentioned in the report, the covered area present on the site as per site survey will be considered in the Valuation.
28.	Area of the large land parcels of more than 2500 sq.mtr or of uneven shape in which there can be practical difficulty in sample measurement, is taken as per property documents which has been relied upon unless otherwise stated.
29.	Drawing Map, design & detailed estimation of the property/ building is out of scope of the Valuation services.

30.	Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion.
31.	Although every scientific method has been employed in systematically arriving at the value, there is, therefore, no indisputable single value and the estimate of the value is normally expressed as falling within a likely range.
32.	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers, demand & supply prevailing in the market and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However, our Valuation analysis can definitely help the stakeholders to take informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction.
33.	This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component, or item wise analysis. Analysis done is a general assessment and is not investigative in nature.
