Notes →

As per TIR land area is around 32.24 Acres.
But During Site Inspection when we demarcated
the factory on Google Earth with the help of
representative we got factory area as 63.9 Acre.

When we asked representative about the difference in
land area he is unable to answer any of our queries
also when asked to demarcate only 32.24 acre as
land area of TIR he was unable to do the same and
ask to clarify all this by their Head office (Slippu!).

So property can may merged with other properties.

For Building we have taken sample measurements as
such a big 63.9 acre factory ~~is~~ cannot be measured
practically.

Though requesting file preparation to consider only those buildings
which lies upon 32.24 acre land after clarification by the
Company.

client representative did not sign in our survey form
saying He cannot sign any papers all this will be
taken care by their HO.
