## ANNEXURE: I (DOCUMENTS REFERRED)

### About the Project

- ❖ The subject project consists upgrading/setting up of capacities **3,240 TCD for Sugar, 3,000 TCD for production of Raw Sugar Syrup for Ethanol Processing, Distillery Plant of 225 KLPD & 21.8 MW power plant at Sitarganj, Uttarakhand.**
- ❖ The said plant of **Kisan Sahakari Chini Mills Limited** is a unit of Uttarakhand Sahakari Chini Mills Limited. As per the details received from the company, the Sitarganj Project was commissioned in the year 1984-85 at a capacity of 1,250 TCD. It was later expanded to a capacity of 2,500 TCD in the year 1989-90. Furthermore, the performance of the Sitarganj unit has been steadily declining during the last few years and leading to financial problems. This has happened in particular as the Sitarganj mill is a standalone sugar plant and does not have the backend facilities to manufacture ethanol or availability of surplus power for export.
- ❖ With the sharp increase in sugarcane prices and in absence of the facilities for manufacture of ethanol and surplus power, the sugar mill has been unable to ensure timely payment of a remunerative sugarcane price thus, discouraging the sugarcane growers in the area to grow sugarcane. This is further accentuated with the bifurcation of the area into Uttarakhand and Uttar Pradesh. Thus, despite favorable soil and climate and abundant irrigation facilities yet the Sitarganj mill suffered from a very poor capacity utilization, leading to a steep fall in its profitability / economic viability causing economic hardships to the growers in the command area & financial strain on the Uttarakhand exchequer.
- ❖ The Uttarakhand Sahakari Chini Mills Sangh Limited of the Uttarakhand state therefore decided to lease the sugar mill to a concessioner on a long-term basis with the commitment to develop and expand the sugar mill as a sugar complex with backend facilities for manufacture of ethanol and produce surplus power for export, to achieve Techno-Financial viability.
- ❖ To achieve the above, Expression of Interest (EOI) were invited from eligible parties and after shortlisting the EOIs and protracted discussions and negotiations, the lease of Sitarganj unit has been granted to M/s. JGN Sugar & Biofuels Private Limited (herein after called "Concessioners"), on a mutually agreeable terms and conditions.
- ❖ As per the terms of Agreement, M/s JGN Sugar & Biofuels Pvt Ltd are required to infuse adequate capital to develop the Sitarganj sugar unit into an integrated sugar complex with facilities for manufacture of ethanol and export of surplus power.

- ❖ Incorporated in the year 1996, **Bahl Paper Mills Limited** has emerged as one of the leading Industrial Packing Papers Manufacturer Company, specializing in manufacturing a wide spectrum of eco-friendly grade paper such as Duplex board, M G Poster paper and Kraft paper in wide range of varieties. All their products of different grades are made from 100% recycle waste paper.
- ❖ **Gulshan Polyols Limited** is one of the manufacturer of Ethanol/Bio-fuel, Grain and Mineral based specialty products with three decades of experience. Their business portfolio broadly spans across three main segments, viz. grain processing, bio-fuel / distillery and mineral processing operations that allow them to produce specialty products such as starch and starch derivatives including sorbitol, ethanol (bio-fuel), calcium carbonate, country liquor and agro based animal feed.
- ❖ The Concessioners has planned to invest about INR 500 Crore during the next 3 years commencing from handover date of Sitarganj site to the Concessioners by Uttarakhand Sahkari Chini Mills Ltd. It is targeted to modernize and expand the existing facilities at Sitarganj by the season 2024-25.
- ❖ In the meantime, during the season 2023-24, the Concessioners plans to partly upgrade and de-bottleneck the existing facilities to achieve an overall improvement in performance in terms of better capacity utilization, minimum downtime, acceptable plant efficiency & self efficiency in fuel (bagasse).
- ❖ The Total Project Cost for the project works out to **INR 396.33 Crore** out of which **INR 89.93 Crore** will be funded from the **Equity Share Capital**, **INR 46.40 Crore** from **preference shares** and balance **INR 260.00 Crore** by **Term Loan** from **lenders**.
- ❖ The project is divided into **2 phases** – **Phase I** includes the **upgradation of the current sugar plant capacity from 2,500 TCD to 3,240 TCD** and setting up of **21.8 MW Co-generation plant** with **Phase II** involving the setting up of **3,000 TCD sugar syrup plant, 225 KLPD Ethanol processing plant**.
- ❖ **The date of Commercial operations (COD)** for the **phase I** of the plant shall be **October 2023** and that for the **phase II** from **October 2024**.
