5.	Documents provided by	Bank																														
6.	Name of the owner(s)	Partners: - Smt. Anita Marwah W/o Sh. Sanjay Marwah & Sh. Abhishek Marwah																														
	Address/ Phone no.	Address: 131 & 8, Bilkeshwar Colony, Haridwar Phone No.: ---																														
7.	<b>Brief description of the property</b>	<p>This Valuation is prepared for the poultry farm situated at the aforesaid address having total land area admeasuring 1.271 Hectare as per copy of TIR provided. However, as per google satellite measurement tool, the total land area is about 1.56 Hectare. Thus, minimum of the two is considered for valuation. As per copy of TIR shared, the subject land parcel is agriculture in nature (non-cultivation).</p> <p>As on date of site visit, the subject poultry farm was locked and no company representative was available at site. Thus, internal physical inspection couldn't be done by our surveyor. The plant was not operational.</p> <p>As per copy of Old Valuation Report dated the subject property is a poultry farm having total built-up area is about ~1,01,191 sq.ft. The construction year is 2012 &amp; 2016. Thus, the same is considered for valuation purpose.</p>																														

The subject property is located in rural area of Village-Kamgarpur. The subject property is situated on 20 ft wide Kachha Eastern Ganga Canal Road which further connects to 70 ft wide Haridwar road. All other basic civic amenities are within close vicinity.

This report only contains general assessment & opinion on the Guideline Value and the indicative, estimated Market Value of the property of which Bank/ customer asked us to conduct the Valuation for the property found on as-is-where basis as shown on the site by the Bank/ customer of which photographs is also attached with the report. No legal aspects in terms of ownership or any other legal aspect is taken into consideration. Even if any such information is mentioned in the report it is only referred from the information provided for which we do not assume any responsibility. Due care has been given while doing valuation assessment, but it doesn't contain any due-diligence or audit or verification of any kind other than the valuation computation of the property shown to us on site. Information/ data/ documents given to us by Bank/ client have been relied upon in good faith. This report doesn't contain any other recommendations of any sort.

In case of discrepancy in the address/ property number mentioned in the property documents and the property shown to us at the site due to change in zoning or administrative level at the site or the client misled the valuer by providing the fabricated/ incorrect document or information, the valuation should be considered of the property shown to us at the site by the client of which the photographs are also attached. In case of any doubt, best would be to contact the concerned authority/ district administration/ tehsil level for the identification of the property if the property depicted in the photographs in this report is same with the documents pledged.

8.	Total Lease period & remaining period (if leasehold)	---
9.	Location of the property	
	1. Plot No. / Survey No.	Khasra No. 91/2, 104, 108/3 (Of Chak No. 465), Khasra No. 91/2 & 104 (Of Chak No. 709), Khasra No. 91/2 & 104-M (Of Chak No. 643), Khasra No. 91/2 & 104-M (Of Chak No. 534), Khasra No. 104-M & 108/2-M (Of Chak No. 597)
	2. Door No.	---
	3. T. S. No. / Village	Kamgarpur
	4. Ward / Taluka	Pargana & Tehsil-Najibabad
	5. Mandal / District	District-Bijnor
	6. Postal address of the property	M/s A.D. farms, Village- Kamgarpur, Pargana & Tehsil-Najibabad, District-Bijnor

	7. Latitude, Longitude & Coordinates of the site	29°42'32.4"N 78°16'40.4"E					
	8. Nearby Landmark	Bhaguwala					
10.	Area Categorization	Village			Rural		
	Type of Area	Rural area and most of the nearby land is lying barron					
11.	Classification of the area	Lower Class (Poor)			Rural		
		Within backward village area					
12.	Local Government Body Category (Corporation limit / Village Panchayat / Municipality) - Type & Name	Rural			Village Panchayat (Gram Panchayat)		
		Gram panchayat					
13.	Whether covered under any prohibited/ restricted/ reserved area/ zone through State / Central Govt. enactments (e.g. Urban Land Ceiling Act) or notified under agency area / scheduled area / cantonment area/ heritage area/ coastal area	No as per general information available on public domain					
14.	In case it is an agricultural land, any conversion of land use done	As per TIR, it is an Agriculture land					
15.	Boundary schedule of the Property						
	Are Boundaries matched			No, boundaries are not mentioned in the documents.			
	Directions		As per Documents		Actually found at Site		
	North		---		Approach Road		
	South		---		Agriculture land		
	East		---		Agriculture land		
	West		---		Agriculture land		
16.	Dimensions of the site						
	Directions		As per Documents (A)		Actually found at Site (B)		
	North		Not mentioned in the documents provided		~215 ft.		
	South				~706 ft		
	East				~240 ft		
	West				~780 ft		
17.	Extent of the site	1.2710 Ha or 18.62 Bigha					
18.	Extent of the site considered for valuation (least of 14A & 14B)	1.2710 Ha or 18.62 Bigha					
19.	Property presently occupied/ possessed by	Couldn't visit inside the property since property was locked at the time of survey					
	If occupied by tenant, since how long?	Not applicable					
	Rent received per month	Not applicable					
II. CHARACTERISTICS OF THE SITE							
1.	Classification of the locality		Agricultural				
2.	Development of surrounding areas		Rural area				
3.	Possibility of frequent flooding / sub-merging		Can be submerged since it is a low lying area				
4.	Proximity to the Civic amenities & social infrastructure like school, hospital, bus stop, market, etc.						
	School	Hospital	Market	Bus Stop	Railway Station	Metro	Airport
	~ 2.5 km.	~ 10 km.	~ 2.5 km.	~ 2.5 km	~15 km.	---	---
5.	Level of land with topographical conditions		below road level/ Plain Land				
6.	Shape of land		Rectangle				
7.	Type of use to which it can be put		Best for industrial use (after taking CLU)				
8.	Any usage restriction		Presently rural area and can be converted to non agriculture				

		purpose	
9.	Is plot in town planning approved layout?/ Zoning regulation	No	Can't ascertain since zonal plan not available.
10.	Corner plot or intermittent plot?	It is not a corner plot	
11.	Road facilities		
	(a) Main Road Name & Width	Haridwar Road	~70 ft.
	(b) Front Road Name & width	Eastern Ganga Canal Road	~20 ft.
	(c) Type of Approach Road	Mud surfacing	
	(d) Distance from the Main Road	~2 Km.	
12.	Type of road available at present	Mud surfacing	
13.	Width of road – is it below 20 ft. or more than	Below 20 ft.	
14.	Is it a land – locked land?	No	
15.	Water potentiality	Yes available from borewell/ submersible	
16.	Underground sewerage system	Yes	
17.	Is power supply available at the site?	Yes	
18.	Advantages of the site	Near to Ganga canal.	
19.	Special remarks, if any, like:		
	a. Notification of land acquisition if any in the area	No such information came in front of us and could be found on public domain	
	b. Notification of road widening if any in the area	No such information came in front of us and could be found on public domain	
	c. Applicability of CRZ provisions etc. (Distance from sea-coast / tidal level must be incorporated)	No	
	d. Any other	None	

### III. VALUATION OF LAND

1.	Size of plot North & South East & West	Please refer to Part B – Area description of the Property.	
2.	Total extent of the plot		
3.	Prevailing market rate (Along with details/reference of at least two latest deals/ transactions with respect to adjacent properties in the areas)	Please refer to Part C - Procedure of Valuation Assessment section.	
4.	Guideline rate obtained from the Registrar's Office (an evidence thereof to be enclosed)		
5.	Assessed / adopted rate of valuation		
6.	Estimated Value of Land		

### IV. VALUATION OF BUILDING

1.	Technical details of the building		
	a. Type of Building (Residential / Commercial/ Industrial)	AGRICULTURE / POULTRY FARM	
	b. Type of construction (Load bearing / RCC/ Steel Framed)	Structure	Slab
		RCC Framed structure, Steel columns and trusses framed structure & Load bearing wall structure	Reinforced Cement Concrete & GI Shed
			Walls
			Brick walls

	c. Architecture design & finishing	<table border="1"> <tr> <th>Interior</th> <th>Exterior</th> </tr> <tr> <td colspan="2">Internal inspection was not done</td> </tr> </table>		Interior	Exterior	Internal inspection was not done	
	Interior	Exterior					
	Internal inspection was not done						
	d. Class of construction	Class of construction: Not Applicable					
	e. Year of construction/ Age of construction	Please refer to the attached building sheet	Please refer to the attached building sheet				
	f. Number of floors and height of each floor including basement, if any	Please refer to the attached building sheet					
	g. Plinth area floor-wise	Please refer to the attached building sheet					
	h. Condition of the building	<table border="1"> <tr> <th>Interior</th> <th>Exterior</th> </tr> <tr> <td colspan="2">No information available since internal survey of the property couldn't be carried out</td> </tr> </table>		Interior	Exterior	No information available since internal survey of the property couldn't be carried out	
	Interior	Exterior					
	No information available since internal survey of the property couldn't be carried out						
	i. Maintenance issues	No information available since internal survey of the property couldn't be carried out.					
	j. Visible damage in the building if any	No information available since internal survey couldn't be carried out					
k. Type of flooring	No information available since survey couldn't be done from inside						
a. Class of electrical fittings	No information available since internal survey couldn't be carried out						
b. Class of plumbing, sanitary & water supply fittings	No information available since internal survey couldn't be carried out						
<b>2. Map approval details</b>							
a. Status of Building Plans/ Maps and Date of issue and validity of layout of approved map / plan	Cannot comment since no approved map provided to us on our request.						
b. Approved map / plan issuing authority	Cannot comment						
c. Whether genuineness or authenticity of approved map / plan is verified	No, not done at our end.						
d. Any other comments on authenticity of approved plan	Verification of authenticity of documents with the respective authority can be done by a legal/ liasoning person and same is not done at our end.						
e. Is Building as per copy of approved Map provided to Valuer?	Cannot comment since internal survey couldn't be carried out.						
f. Details of alterations/ deviations/ illegal construction/ encroachment noticed in the structure from the approved plan	<input type="checkbox"/> Permissible alterations  <input type="checkbox"/> Non permissible alterations	Cannot comment since no approved map provided to us on our request.					
g. Is this being regularized							
<b>V. SPECIFICATIONS OF CONSTRUCTION (FLOOR-WISE) IN RESPECT OF</b>							
1. Foundation	<p>This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. These points are covered in totality in lumpsum basis under Technical details of the building under "Class of construction, architecture design &amp; finishing" point.</p>						
2. Basement							
3. Superstructure							
4. Joinery / Doors & Windows (please furnish details about size of frames, shutters, glazing, fitting etc. and specify the species of timber)							
5. RCC works							
6. Plastering							
7. Flooring, Skirting, dadoing							
8. Special finish as marble, granite, wooden paneling, grills, etc							

9.	Roofing including weather proof course	
10.	Drainage	
11.	Compound wall	Yes
	Height	~8-10 ft.
	Length	~ 595 mtr.
	Type of construction	Brick Wall
12.	Electrical installation	Please refer to "Class of electrical fittings" under Technical details of the building above in totality and lumpsum basis. This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis.
	Type of wiring	
	Class of fittings (superior / ordinary / poor)	
	Number of light points	
	Fan points	
	Spare plug points	
	Any other item	
13.	Plumbing installation	Please refer to "Class of plumbing, sanitary & water supply fittings" under Technical details of the building above in totality and lumpsum basis. This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis.
	No. of water closets and their type	
	No. of wash basins	
	No. of urinals	
	No. of bath tubs	
	No. of water closets and their type	
	Water meter, taps, etc.	
	Any other fixtures	
14.	<b>EXTRA ITEMS</b>	This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. These points are covered in totality in lumpsum basis under Technical details of the building under "Class of construction, architecture design & finishing" point.
	Portico	
	Ornamental front door	
	Sit out/ Verandah with steel grills	
	Overhead water tank	
	Extra steel/ collapsible gates	
15.	<b>AMENITIES</b>	This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. These points are covered in totality in lumpsum basis under Technical details of the building under "Class of construction, architecture design & finishing" point.
	Wardrobes	
	Glazed tiles	
	Extra sinks and bath tub	
	Marble / Ceramic tiles flooring	
	Interior decorations	
	Architectural elevation works	
	Paneling works	
	Aluminum works	
	Aluminum hand rails	
	False ceiling	
16.	<b>MISCELLANEOUS</b>	This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. These points are covered in totality in lumpsum basis under Technical details of the building under "Class of construction, architecture design & finishing" point.
	Separate toilet room	
	Separate lumber room	
	Separate water tank/ sump	
	Trees, gardening	
17.	<b>SERVICES</b>	This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. These points are covered in totality in lumpsum basis under Technical details of the building under "Class of construction, architecture design & finishing" point.
	Water supply arrangements	
	Drainage arrangements	
	Compound wall	
	C. B. deposits, fittings etc.	
	Pavement	

**TOTAL ABSTRACT OF THE ENTIRE PROPERTY**

1. CONSOLIDATED VALUATION ASSESSMENT OF THE ASSET

viii.	Manner in which the proper is identified	<input type="checkbox"/> Identified by owner's representative <input type="checkbox"/> Done from the name plate displayed on the property <input type="checkbox"/> Cross checked from boundaries or address of the property mentioned in the deed <input checked="" type="checkbox"/> Identification of the property was done from the GPS co-ordinates mentioned in Old Valuation Report.			
ix.	Is property name/number/ survey number displayed on the property for proper identification?	No.			
x.	Type of Survey conducted	Only photographs taken from outside (No sample measurement verification),			

3.		ASSESSMENT FACTORS		
i.	Valuation Standards considered	Mix of standards such as IVS and others issued by Indian authorities & institutions and improvised by the RKA internal research team as and where it is felt necessary to derive at a reasonable, logical & scientific approach. In this regard proper basis, approach, working, definitions considered is defined below which may have certain departures to IVS.		
ii.	Nature of the Valuation	Fixed Assets Valuation		
iii.	Nature/ Category/ Type/ Classification of Asset under Valuation	<b>Nature</b>	<b>Category</b>	<b>Type</b>
		LAND & BUILDING	AGRICULTURE (non-Cultivated)	POULTRY FARM
		<b>Classification</b>	Non - Income/ Revenue Generating Asset	

iv.	Type of Valuation (Basis of Valuation as per IVS)	Primary Basis	Market Value & Govt. Guideline Value			
		Secondary Basis	On-going concern basis			
v.	Present market state of the Asset assumed (Premise of Value as per IVS)	Under Normal Marketable State				
		Reason: Asset under free market transaction state				
vi.	Property Use factor	Current/ Existing Use	Highest & Best Use <i>(in consonance to surrounding use, zoning and statutory norms)</i>		Considered for Valuation purpose	
		Agricultural	Industrial		Agricultural	
vii.	Legality Aspect Factor	Assumed to be fine as per copy of the documents & information produced to us.  However Legal aspects of the property of any nature are out-of-scope of the Valuation Services. In terms of the legality, we have only gone by the documents provided to us in good faith.  Verification of authenticity of documents from originals or cross checking from any Govt. deptt. have to be taken care by Legal expert/ Advocate.				
viii.	Class/ Category of the locality	Lower Class (Poor)				
ix.	Property Physical Factors	Shape	Size		Layout	
		Rectangle	Medium		Normal Layout	
x.	Property Location Category Factor	City Categorization	Locality Characteristics	Property location characteristics	Floor Level	
		Village	Ordinary	Road Facing	Refer to the attached sheet	
		Rural	Normal	Average location within locality		
			Within good village area	Near to Canal		
		Property Facing				
		North Facing				
xi.	Physical Infrastructure availability factors of the locality	Water Supply	Sewerage/ sanitation system	Electricity	Road and Public Transport connectivity	
		Cannot comment as internal inspection couldn't be not done				
		Availability of other public utilities nearby		Availability of communication facilities		
		Transport, Market, Hospital etc. are not available in close vicinity		Only few Telecommunication Service Provider & ISP connections are available		
xii.	Social structure of the area (in terms of population,	Rural Area				

	social stratification, regional origin, age groups, economic levels, location of slums/ squatter settlements nearby, etc.)									
xiii.	Neighbourhood amenities	Average								
xiv.	Any New Development in surrounding area	None								
xv.	Any specific advantage in the property	Not as such								
xvi.	Any specific drawback in the property	Proper road facilities are not available								
xvii.	Property overall usability/ utility Factor	Low								
xviii.	Do property has any alternate use?	No								
xix.	Is property clearly demarcated by permanent/ temporary boundary on site	Demarcated with permanent boundary								
xx.	Is the property merged or colluded with any other property	No Comments: None								
xxi.	Is independent access available to the property	Clear independent access is available								
xxii.	Is property clearly possessable upon sale	Yes								
xxiii.	Best Sale procedure to realize maximum Value (in respect to Present market state or premise of the Asset as per point (iv) above)	Fair Market Value Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.								
xxiv.	Hypothetical Sale transaction method assumed for the computation of valuation	Fair Market Value Free market transaction at arm's length wherein the parties, after full market survey each acted knowledgeably, prudently and without any compulsion.

xxviii.	<b>Adopted Rates Justification</b>	<p>As per our discussion with the property dealers and habitants of the subject location and research through public domain we have gathered the following information:-</p> <ol style="list-style-type: none"><li>1. There is very ample availability of land (having similar size as our subject property).</li><li>2. The subject property is situated on Eastern Ganga Canal Road which is about 2 km from Haridwar road.</li><li>3. There is no other economic activity observed in the locality except one more Poultry Farm and road construction yard.</li><li>4. All the other land in locality, are agriculture in nature.</li><li>5. We have made secondary market research to fetch the information for agriculture land in the locality. But other reference was available. Thus, we had to rely upon the inquiry/information gathered from the local villagers who were available nearby.</li><li>6. Land parcel near to highway shall fetch higher value than compared to land which are away from highway.</li><li>7. As per the discussion with local villager, the agriculture land rates in the locality are in range of Rs. 4,00,000/- to Rs. 5,00,000/- per bigha depending upon shape, size, availability and distance from main road.</li></ol> <p>Based on the above information and keeping in mind in subject locality we are of the view to adopt a rate of <b>Rs. 4,50,000/- per Bigha</b> for the purpose of this valuation assessment.</p> <p><b>NOTE:</b> We have taken due care to take the information from reliable sources. The given information above can be independently verified from the provided numbers to know its authenticity. However due to the nature of the information most of the market information came to knowledge is only through verbal discussion with</p>																																		

	market participants which we have to rely upon where generally there is no written record. Related postings for similar properties on sale are also annexed with the Report wherever available.		
xxix.	Other Market Factors		
	Current Market condition	Normal	
		Remarks: ---	
		Adjustments (-/+): 0%	
	Comment on Property Salability Outlook	Since this property is mortgaged under NPA account therefore its salability outlook in the market will be low.	
		Adjustments (-/+): -5%	
	Comment on Demand & Supply in the Market	Demand	Supply
		Moderate	Adequately available
		Remarks: Demand will be low for such properties since the property is in remote area also approached road is through kachha rasta (mud surfacing)	
		Adjustments (-/+): -5%	
xxx.	Any other special consideration	Reason: ----	
		Adjustments (-/+): 0%	
xxxi.	Any other aspect which has relevance on the value or marketability of the property	NA  Valuation of the same asset/ property can fetch different values under different circumstances & situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will fetch considerably lower value. Similarly, an asset sold directly by an owner in the open market through free market arm's length transaction then it will fetch better value and if the same asset/ property is sold by any financier or court decree or Govt. enforcement agency due to any kind of encumbrance on it then it will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing.  This Valuation report is prepared based on the facts of the property & market situation on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the region/ country. In future property market may go down, property conditions may change or may go worse, property reputation may differ, property vicinity conditions may go down or become worse, property market may change due to impact of Govt. policies or effect of domestic/ world economy, usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk while financing.	
		Adjustments (-/+): 0%	
xxxii.	Final adjusted & weighted Rates considered for the subject property	Rs. 4,05,000/- per Bigha	
xxxiii.	Considered Rates Justification	As per the thorough property & market factors analysis as described above, the considered estimated market rates appears to be reasonable in our opinion.	

xxxiv.

**Basis of computation & working**

- Valuation of the asset is done as found on as-is-where basis on the site as identified to us by client/ owner/ owner representative during site inspection by our engineer/s unless otherwise mentioned in the report.
- Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work and based on the Standard Operating Procedures, Best Practices, Caveats, Limitations, Conditions, Remarks, Important Notes, Valuation TOR and definition of different nature of values.
- For knowing comparable market rates, significant discreet local enquiries have been made from our side based on the hypothetical/ virtual representation of ourselves as both buyer and seller for the similar type of properties in the subject location and thereafter based on this information and various factors of the property, rate has been judiciously taken considering the factors of the subject property, market scenario and weighted adjusted comparison with the comparable properties unless otherwise stated.
- References regarding the prevailing market rates and comparable are based on the verbal/ informal/ secondary/ tertiary information which are collected by our team from the local people/ property consultants/ recent deals/ demand-supply/ internet postings are relied upon as may be available or can be fetched within the limited time & resources of the assignment during market survey in the subject location. No written record is generally available for such market information and analysis has to be derived mostly based on the verbal information which has to be relied upon.
- Market Rates are rationally adopted based on the facts of the property which came to our knowledge during the course of the assessment considering many factors like nature of the property, size, location, approach, market situation and trends and comparative analysis with the similar assets. During comparative analysis, valuation metrics is prepared and necessary adjustments are made on the subject asset.
- The indicative value has been suggested based on the prevailing market rates that came to our knowledge during secondary & tertiary market research and is not split into formal & informal payment arrangements. Most of the deals takes place which includes both formal & informal payment components. Deals which takes place in complete formal payment component may realize relatively less actual transaction value due to inherent added tax, stamp registration liabilities on the buyer.
- Secondary/ Tertiary costs related to asset transaction like Stamp Duty, Registration charges, Brokerage, Commission, Bank interest, Selling cost, Marketing cost, etc. pertaining to the sale/ purchase of this property are not considered while assessing the indicative estimated Market Value.
- This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Market Value as described above. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.
- Area measurements considered in the Valuation Report pertaining to asset/ property is adopted from relevant approved documents or sample site measurement whichever is less unless otherwise mentioned. All area measurements are on approximate basis only.
- Verification of the area measurement of the property is done based on sample random checking only.
- Area of the large land parcels of more than 2500 sq.mtr or of uneven shape in which there can be practical difficulty in sample measurement, is taken as per property documents which has been relied upon unless otherwise stated.
- Drawing, Map, design & detailed estimation of the property/ building is out of scope of the Valuation services.
- Construction rates are adopted based on the present market replacement cost of construction and calculating applicable depreciation & deterioration factor as per its age, existing condition & specifications based on visual observation only of the structure. No structural, physical tests have been carried out in respect of it. No responsibility is assumed for latent defects of any nature whatsoever, which may affect value, or for any expertise required to disclose such conditions.
- Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method unless otherwise stated.
- The condition assessment and the estimation of the residual economic life of the structure are only based on the visual observations and appearance found during the site survey. We have not carried out any structural design or stability study; nor carried out any physical tests to assess structural integrity & strength.
- Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset or on its

	<p>owners has not been factored in the Valuation.</p> <ul style="list-style-type: none"> <li>This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is neither investigative in nature nor an audit activity.</li> <li>Valuation is done for the asset found on as-is-where basis which owner/ owner representative/ client/ bank has shown to us on site of which some reference has been taken from the information/ data given in the copy of documents provided to us which have been relied upon in good faith and we have assumed that it to be true and correct.</li> </ul>
xxxv.	<b>ASSUMPTIONS</b> <ol style="list-style-type: none"> <li>Documents/ Information/ Data provided by the client/ property owner or his representative both written &amp; verbally is true and correct without any fabrication and has been relied upon in good faith.</li> <li>Local verbal enquiries during micro market research came to our knowledge are assumed to be taken on record as true &amp; factual.</li> <li>The assets and interests therein have been valued free and clear of any liens or encumbrances unless stated otherwise. No hidden or apparent conditions regarding the subject assets or their ownership are assumed to exist. No opinion of title is rendered in this report and a good title is assumed unless stated otherwise.</li> <li>It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property after satisfying the authenticity of the documents given to us and for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report. I/ We assume no responsibility for the legal matters including, but not limited to, legal or title concerns.</li> <li>Payment condition during transaction in the Valuation has been considered on all cash bases which includes both formal &amp; informal payment components as per market trend.</li> <li>Sale transaction method of the asset is assumed as Free market transaction without any compulsion unless otherwise mentioned while assessing Indicative &amp; Estimated Fair Prospective Market Value of the asset unless otherwise stated.</li> <li>If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report. This valuation report is prepared for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township is approved and complied with all relevant laws and the subject unit is also approved within the Group Housing Society/ Township.</li> </ol>
xxxvi.	<b>SPECIAL ASSUMPTIONS</b> None
xxvii.	<b>LIMITATIONS</b> Property was locked at the time of site survey and no company representative was available at site.

4.	VALUATION OF LAND		
	Particulars	Govt. Circle/ Guideline Value	Indicative & Estimated Prospective Fair Market Value
a.	Prevailing Rate range	Rs. 40,00,000/- per Hectare	Rs. 4,00,000/- - Rs. 4,50,000/- per Bigha
b.	Rate adopted considering all characteristics of the property	Rs. 40,00,000/- per Hectare	Rs. 4,05,000/- per Bigha (after discounting)
c.	Total Land Area considered (documents vs site survey whichever is less)	1.2710 Ha or 18.62 Bigha	1.2710 Ha or 18.62 Bigha
d.	Total Value of land (A)	1.271 Ha x Rs. 40,00,000/- per Ha	18.62 bigha x Rs. 4,05,000/- per bigha
		<b>Rs. 50,84,000/-</b>	<b>Rs. 75,41,100/-</b>

12.	Percentage difference between Circle Rate and Fair Market Value	~ 33%	
13	Concluding Comments/ Disclosures if any		
	<p>a. We are independent of client/ company and do not have any direct/ indirect interest in the property.</p> <p>b. This valuation has been conducted by R.K Associates Valuers &amp; Techno Engineering Consultants (P) Ltd. and its team of experts.</p> <p>c. This Valuation is done for the property found on as-is-where basis as shown on the site by the Bank/ customer of which photographs is also attached with the report.</p> <p>d. Reference of the property is also taken from the copies of the documents/ information which interested organization or customer could provide to us out of the standard checklist of documents sought from them and further based on our assumptions and limiting conditions. All such information provided to us has been relied upon in good faith and we have assumed that it is true and correct. However, we do not vouch the absolute correctness of the property identification, exact address, physical conditions, etc. based on the documents provided to us since property shown to us may differ on site Vs as mentioned in the documents or incorrect/ fabricated documents may have been provided to us.</p> <p>e. Legal aspects for eg. investigation of title, ownership rights, lien, charge, mortgage, lease, verification of documents from originals or from any Govt. department, etc. has to be taken care by legal experts/ Advocates and same has not been done at our end.</p> <p>f. The valuation of an asset is an estimate of the worth of that asset which is arrived at by the Valuer in his expert opinion after factoring in multiple parameters and externalities. This may not be the actual price of that asset and the market may discover a different price for that asset.</p> <p>g. This report only contains opinion based on technical &amp; market information which came to our knowledge during the course of the assignment. It doesn't contain any recommendations.</p>		

- h. This report is prepared following our Standard Operating Procedures & Best Practices and will be subject to Limitations, Conditions, Valuer's Remarks, Important Notes, Valuation TOS and basis of computation & working as described above.
- i. The use of this report will become valid only after payment of full fees as per the Payment Terms. Using this report or any part content created in this report without payment of charges will be seen as misuse and unauthorized use of the report.

#### 14. IMPORTANT KEY DEFINITIONS

**Fair Value** suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of the assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Fair Value without using the term "Market" in it describes that the value suggested by the Valuer may not mandatorily follow or may not be in complete consonance to the established Market in his expert opinion. It may or may not follow market dynamics. But if the suggested value by the valuer is not within the prevailing Market range or is assessed for an asset is located in an un-established Market then the valuer will give reasonable justification & reasoning that for what reasons the value suggested by him doesn't follow the prevailing market dynamics.

**Fair Market Value** suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice in consonance to the Market dynamics after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Here the words "in consonance to the established Market" means that the Valuer will give opinion within the realms & dynamics of the prevailing market rates after exhaustively doing the micro market research. However due to the element of "Fair" in it, valuer will always look for the factors if the value should be better than the market realms which is just & equitable backed by strong justification and reasoning.

**Market Value** suggested by the competent Valuer is that prospective estimated amount which is average price of the similar comparable assets prevailing in an open & established market during the near period of the date of valuation at which the subject asset/ property should be exchanged between a willing buyer and willing seller on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities at an arm's length transaction in an open, established & unrestricted market, in an orderly transaction, wherein the parties, each acted without any compulsion on the date of the Valuation.

Using the term "Market Value" without "Fair" omits the elements of proper marketing, acting knowledgeably & prudently.

Market and market participants can be sentimental, inclined towards the transaction without the element of complete knowledge & prudence about facts or due diligence of the asset therefore "each acted knowledgeably, prudently" has been removed from the market Value definition.

**Realizable Value** is that minimum prospective estimated value of the asset/ property which it may be able to fetch at the time of actual property transaction factoring in the element of discount due to the prospects of deep negotiations between the buyer & seller when the parties in-principally find Fair Market Value reasonable and sits together to close the deal and the transaction across the table. Discount percentage on the Fair Market Value due to negotiation will depend on the nature, size, various salability prospects of the subject asset, the needs of the buyer & the seller and kind of payment terms. In some of the cases Realizable and Fair Market Value may

also be equal.

**Distress Sale Value\*** is that value when the property is attached with any process such as mortgaged financing, financial or operational dues which is under any stress condition or situation and the stakeholders are under process of finding resolution towards it to save the property from being attached to a formal recovery process. In this type of sale, minimum fetch value assessed will always be less than the estimated Fair Market Value where the discount of percentage will depend upon various circumstances and factors such as nature, size, salability prospects of the property and kind of encumbrance on the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness & pressure of selling the property will be more on the seller than the buyer.

**Liquidation Value** is the amount that would be realized when an asset or group of assets are sold due to any compulsion or constraints such as in a recovery process guided by statute, law or legal process, clearance sale or any such condition or situation thereof where the pressure of selling the asset/ property is very high to realize whatever maximum amount can be from the sale of the assets in a limited time for clearance of dues or due to closure of business. In other words, this kind of value is also called as forced sale value.

**Difference between Cost, Price & Value:** Generally, these words are used and understood synonymously. However, in reality each of these has a completely different meaning, premise and also having different definitions in professional & legal terms. Therefore, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.

The **Cost** of an asset represents the actual amount spend in the construction/ actual creation of the asset.

The **Price** is the amount paid for the procurement of the same asset.

The **Value** is defined as the present worth of future rights in the property/ asset and is a hypothetical or notional price that buyers and sellers are most likely to conclude for a good or service. Value is not a fact, but an estimate of the likely price to be paid for a good or service at a given time in accordance with a particular definition of value.

Therefore, in actual for the same asset/ property, cost, price & value remain different since these terms have different usage & meaning.

**15. Enclosures with the Report:**

- Enclosure: III- Google Map

**IMPORTANT NOTES**

**DEFECT LIABILITY PERIOD** - In case of any query/ issue or escalation you may please contact Incident Manager by writing at [valuers@rkassociates.org](mailto:valuers@rkassociates.org). We try our level best to ensure maximum accuracy in the Calculations done, Rates adopted and various other data points & information mentioned in the report but still can't rule out typing, human errors, assessment or any other mistakes. In case you find any mistake, variation, discrepancy or inaccuracy in any data point mentioned in the report, please help us by bringing all such points into our notice in writing at [valuers@rkassociates.org](mailto:valuers@rkassociates.org) within 30 days of the report delivery, to get these rectified timely, failing which R.K Associates shouldn't be held responsible for any inaccuracy in any manner. Also, if we do not hear back anything from you within 30 days, we will assume that the report is correct in all respect and no further claim of any sort will be entertained thereafter. We would welcome and appreciate your feedback & suggestions in order to improve our services.

Our **DATA RETENTION POLICY** is of **ONE YEAR**. After this period we remove all the concerned records related to the assignment from our repository. No clarification or query can be answered after this period due to unavailability of the data.

**COPYRIGHT FORMAT** - This report is prepared on the copyright format of R.K Associates to serve our clients in the best possible way. Legally no one can copy or distribute this format without prior approval from R.K Associates. It is meant only for the organization as mentioned on the cover page of this report. Distribution or use of this format or any content of this report wholly or partially other than R.K Associates will be seen as unlawful act and necessary legal action can be taken against the defaulters.

**IF REPORT IS USED FOR BANK/ FIs**

**NOTE:** As per IBA Guidelines in case the valuation report submitted by the valuer is not in order, the banks / FIs shall bring the same to the notice of the valuer within 15 days of submission for rectification and resubmission. In case no such communication is received, it shall be presumed that the valuation report has been accepted.

At our end we have not verified the authenticity of any documents provided to us. Bank is advised to verify the genuineness of the property documents before taking any credit decision.

Valuation Terms of Services & Valuer's Important Remarks are available at [www.rkassociates.org](http://www.rkassociates.org) for reference.

**ENCLOSURE IX**

**PART E**

**VALUER'S IMPORTANT REMARKS**

1.	Valuation is done for the asset found on as-is-where basis which owner/ owner representative/ client/ bank has shown/ identified to us on the site unless otherwise mentioned in the report of which some reference has been taken from the information/ data given in the copy of documents provided to us and informed verbally or in writing out of the standard checklist of documents sought from the client & its customer which they could provide within the reasonable expected time out of the standard checklist of documents sought from them and further based on certain assumptions and limiting conditions. The information, facts, documents, data which has become primary basis of the report has been supplied by the client which has been relied upon in good faith and is not generated by the Valuer.
2.	The client/ owner and its management/ representatives warranted to us that the information they have supplied was complete, accurate and true and correct to the best of their knowledge. All such information provided to us either verbally, in writing or through documents has been relied upon in good faith and we have assumed that it is true & correct without any fabrication or misrepresentation. I/We shall not be held liable for any loss, damages, cost or expenses arising from fraudulent acts, misrepresentations, or willful default on part of the owner, company, its directors, employee, representative or agents.
3.	Legal aspects for eg. Investigation of title, ownership rights, lien, charge, mortgage, lease, sanctioned maps, verification of documents provided to us such as title documents, Map, etc. from any concerned Govt. office etc. have to be taken care by legal expert/ Advocate and same is not done at our end. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property after satisfying the authenticity of the documents given to us for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report. I/ We assume no responsibility for the legal matters including, but not limited to, legal or title concerns.
4.	In the course of the valuation, we were provided with both written and verbal information. We have however, evaluated the information provided to us through broad inquiry, analysis and review but have not carried out a due diligence or audit of the information provided for the purpose of this engagement. Our conclusions are based on the assumptions and other information provided to us by the client during the course of the assessment.
5.	Getting cizra map or coordination with revenue officers for site identification is a separate activity and is not part of the Valuation services and same has not been done in this report unless otherwise stated.
6.	Wherever any details are mentioned in the report in relation to any legal aspect of the property such as name of the owner, leases, etc. is only for illustration purpose and should not be construed as a professional opinion. Legal aspects are out of scope of this report. Details mentioned related to legal aspect are only based on the copy of the documents provided to us and whatever we can interpret as a non-legally trained person. This should be cross validated with a legal expert. We do not vouch any responsibility regarding the same
7.	We have made certain assumptions in relation to facts, conditions & situations affecting the subject of, or approach to this exercise that has not been verified as part of the engagement rather, treated as "a supposition taken to be true". If any of these assumptions prove to be incorrect then our estimate on value will need to be reviewed.
8.	This is just an opinion report based on technical & market information having general assessment & opinion on the indicative, estimated Market Value of the property for which Bank has asked to conduct the Valuation. It doesn't contain any other recommendations of any sort including but not limited to express of any opinion on the suitability or otherwise of entering into any transaction with the borrower.
9.	We have relied on the data from third party, external sources & information available on public domain to conclude the valuation. These sources are believed to be reliable and therefore, we assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. Where we have relied on the data, opinions or estimates from external sources, reasonable care has been taken to ensure that such data is extracted from authentic sources, however we still can't vouch its authenticity, correctness, or accuracy.
10.	Analysis and conclusions adopted in the report are limited to the reported assumptions, conditions and information came to our knowledge during the course of the work and based on the Standard Operating Procedures, Best Practices, Caveats, Limitations, Conditions, Remarks, Important Notes, Valuation TOR and definition of different nature of values.
11.	Value varies with the Purpose/ Date/ Asset Condition & situation/ Market condition, demand & supply, asset utility prevailing on a particular date/ Mode of sale. The indicative & estimated prospective Value of the asset given in this report is restricted only for the purpose and other points mentioned above prevailing on a particular date as mentioned in the report. If any of these points are different from the one mentioned aforesaid in the Report then this report should not be referred.
12.	Our report is meant ONLY for the purpose mentioned in the report and should not be used for any other purpose. The Report should not be copied or reproduced for any purpose other than the purpose for which it is prepared for. I/we do not take any responsibility for the unauthorized use of this report.
13.	We owe responsibility only to the authority/client that has appointed us as per the scope of work mentioned in the report. We will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions or advice given by any other person. In no event shall we be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on part of the client or companies, their directors, employees or agents.
14.	This report is having limited scope as per its fields & format to provide only the general basic idea of the value of the property prevailing in the market based on the site inspection and documents/ data/ information provided by the client. The suggested indicative prospective estimated value should be considered only if transaction is happened as free market transaction.
15.	The sale of the subject property is assumed to be on an all cash basis. Financial arrangements would affect the price at which the

	property may sell for if placed on the market.
16.	The actual realizable value that is likely to be fetched upon sale of the asset under consideration shall entirely depend on the demand and supply of the same in the market at the time of sale.
17.	While our work has involved an analysis & computation of valuation, it does not include detailed estimation, design/ technical/ engineering/ financial/ structural/ environmental/ architectural/ compliance survey/ safety audit & works in accordance with generally accepted standards of audit & other such works. The report in this work is not investigative in nature. It is mere an opinion on the likely estimated valuation based on the facts & details presented to us by the client and third party market information came in front of us within the limited time of this assignment, which may vary from situation to situation.
18.	Where a sketched plan is attached to this report, it does not purport to represent accurate architectural plans. Sketch plans and photographs are provided as general illustrations only.
19.	Documents, information, data including title deeds provided to us during the course of this assessment by the client is reviewed only upto the extent required in relation to the scope of the work. No document has been reviewed beyond the scope of the work. These are not reviewed in terms of legal rights for which we do not have expertise. Wherever any information mentioned in this report is mentioned from the documents like owners name, etc., it is only for illustration purpose and may not necessary represent accuracy.
20.	The report assumes that the borrower/company/business/asset complies fully with relevant laws and regulations applicable in its area of operations and usage unless otherwise stated, and that the companies/business/assets is managed in a competent and responsible manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a legal nature, including issues of legal title and compliance with relevant laws, and litigations and other contingent liabilities that are not recorded/reflected in the documents/ details/ information/ data provided to us.
21.	This valuation report is not a qualification for accuracy of land boundaries, schedule (in physical terms), dimensions & identification. For this land/ property survey report can be sought from a qualified private or Govt. surveyor.
22.	This Valuation report is prepared based on the facts of the property on the date of the survey. Due to possible changes in market forces, socio-economic conditions, property conditions and circumstances, this valuation report can only be regarded as relevant as at the valuation date. Hence before financing, Banker/ FI should take into consideration all such future risk and should loan conservatively to keep the advanced money safe in case of the downward trend of the property value.
23.	Valuation of the same asset/ property can fetch different values under different circumstances & situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower value. Similarly, an asset sold directly by an owner in the open market through free market transaction then it will fetch better value and if the same asset/ property is sold by any financier due to encumbrance on it, will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing and take decision accordingly.
24.	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just visually matched the land boundaries, schedule (in physical terms) & dimensions of the property with reference to the documents produced for perusal. Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be carried out. It is requested from the Bank to cross check from their own records/ information if this is the same property for which Valuation has to be carried out to ensure that owner has not misled the Valuer company or misrepresented the property due to any vested interest. Where there is a doubt about the precision position of the boundaries, schedule, dimensions of site & structures, it is recommended that a Licensed Surveyor be contacted.
25.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject property is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name plate on the property clearly. Even in old locations of towns, small cities & districts where property number is either not assigned or not displayed on the properties clearly and also due to the presence of multiple/ parallel departments due to which ownership/ rights/ illegal possession/ encroachment issues are rampant across India and due to these limitations at many occasions it becomes tough to identify the property with 100% surety from the available documents, information & site whereabouts and thus chances of error, misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error it is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to ensure that the property shown to Valuer/ Banker is the same as for which documents are provided.
26.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made for the specific unit based on the assumption that complete Group Housing Society/ Integrated Township and the subject unit must be approved in all respect.
27.	Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ guidelines between regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas, property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also situations where properties are decades old when there was no formal Building Bye-Laws applicable the time when the construction must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough for the Valuer to determine the exact lawful situation on ground. Unless otherwise mentioned in the report, the covered area present on the site as per site survey will be considered in the Valuation.
28.	Area of the large land parcels of more than 2500 sq.mtr or of uneven shape in which there can be practical difficulty in sample measurement, is taken as per property documents which has been relied upon unless otherwise stated.
29.	Drawing Map, design & detailed estimation of the property/ building is out of scope of the Valuation services.
30.	Valuation is a subjective field and opinion may differ from consultant to consultant. To check the right opinion, it is important to evaluate

	the methodology adopted and various data point/ information/ factors/ assumption considered by the consultant which became the basis for the Valuation report before reaching to any conclusion.
31.	Although every scientific method has been employed in systematically arriving at the value, there is, therefore, no indisputable single value and the estimate of the value is normally expressed as falling within a likely range.
32.	Value analysis of any asset cannot be regarded as an exact science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. Given the same set of facts and using the same assumptions, expert opinions may differ due to the number of separate judgment decisions, which have to be made. Therefore, there can be no standard formula to establish an indisputable exchange ratio. In the event of a transaction, the actual transaction value achieved may be higher or lower than our indicative analysis of value depending upon the circumstances of the transaction. The knowledge, negotiability and motivations of the buyers and sellers, demand & supply prevailing in the market and the applicability of a discount or premium for control will also affect actual price achieved. Accordingly, our indicative analysis of value will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. However, our Valuation analysis can definitely help the stakeholders to take informed and wise decision about the Value of the asset and can help in facilitating the arm's length transaction.
33.	This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component, or item wise analysis. Analysis done is a general assessment and is not investigative in nature.
34.	This report is prepared on the RKA V-L1 (Basic) Valuation format as per the client requirement and scope of work. This report is having limited scope as per its fields & format to provide only the general estimated & indicative basic idea of the value of the property prevailing in the market based on the information provided by the client. No detailed analysis, audit or verification has been carried out of the subject property. There may be matters, other than those noted in this report, which might be relevant in the context of the transaction and which a wider scope might uncover.
35.	This is just an opinion report and doesn't hold any binding on anyone. It is requested from the concerned Client/ Bank/ Financial Institution which is using this report for mortgaging the property that they should consider all the different associated relevant & related factors & risks before taking any business decision based on the content of this report.
36.	All Pages of the report including annexures are signed and stamped from our office. In case any paper in the report is without stamp & signature then this should not be considered a valid paper issued from this office.
37.	As per IBA Guidelines & Bank Policy, in case the valuation report submitted by the valuer is not in order, the banks / FIs shall bring the same to the notice of the valuer within 15 days of submission for rectification and resubmission. In case no such communication is received, it shall be presumed that the valuation report has been accepted.
