#### 7. Brief description of the property

This Valuation report is prepared for the industrial Land & Building situated at the aforesaid address having total land area admeasuring 920 sq.mtr. as per the Old Valuation Report and Bank Notice provided to us. We have also crossed checked the area from google satellite measurement and it seems to match with the area mentioned in the document.

The owner of the subject property is Mr. Neeraj Agarwal S/o. Mr. K.L. Agarwal as per the old valuation report.

VALUATION ASSESSMENT

M/S. SUBH INDUSTRIES

As per site observation the subject property comprises of the one main shed and other 2 small RCC structure with covered area ~412 sq.mtr. Copy of sanction plan is not shared with us. Physical measurement of building/structure is conducted during site survey. Physical measured area is within permissible limited. Thus, built-up area as per physical measurement is considered for valuation.

The subject property is located in the well-developed industrial area. The property is located approx. 750m. away from the Haridwar Road and abutting the industrial area road. All other basic civic amenities are within approx. 5-6km vicinity.

This report only contains general assessment & opinion on the Guideline Value and the indicative, estimated Market Value of the property of which Bank/ customer asked us to conduct the Valuation for the property found on as-is-where basis as shown on the site by the Bank/ customer of which photographs is also attached with the report. No legal aspects in terms of ownership or any other legal aspect is taken into consideration. Even if any such information is mentioned in the report it is only referred from the information provided for which we do not assume any responsibility. Due care has been given while doing valuation assessment, but it doesn't contain any due-diligence or audit or verification of any kind other than the valuation computation of the property shown to us on site. Information/ data/ documents given to us by Bank/ client have been relied upon in good faith. This report doesn't contain any other recommendations of any sort.

In case of discrepancy in the address/ property number mentioned in the property documents and the property shown to us at the site due to change in zoning or administrative level at the site or the client misled the valuer by providing the fabricated/ incorrect document or information, the valuation should be considered of the property shown to us at the site by the client of which the photographs are also attached. In case of any doubt, best would be to contact the concerned authority/ district administration/ tehsil level for the identification of the property if the

M/S. SUBH INDUSTRIES

	marketability of the property	circumstances & situations. For eg. Valuation of a running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will fetch considerably lower value. Similarly, an asset sold directly by an owner in the open market through free market arm's length transaction then it will fetch better value and if the same asset/ property is sold by any financer or court decree or Govt. enforcement agency due to any kind of encumbrance on it then it will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing This Valuation report is prepared based on the facts of the property & market situation on the date of the survey. It is a well-known fact that the market value of any asset varies with time & socio-economic conditions prevailing in the region/ country. In future property market may go down, property conditions may change or may go worse, property reputation may differ, property vicinity conditions may go down or become worse, property market may change due to impact of Govt. policies or effect of domestic/ world economy, usability prospects of the property may change, etc. Hence before financing, Banker/ FI should take into consideration all such future risk while financing. <b>Adjustments (-/+):</b> 0%					
xxxii.	Final adjusted & weighted Rates considered for the subject property	Rs.3,750/- per sq.mtr.

M/S. SUBH INDUSTRIES

- Secondary/ Tertiary costs related to asset transaction like Stamp Duty, Registration charges, Brokerage, Commission, Bank interest, Selling cost, Marketing cost, etc. pertaining to the sale/ purchase of this property are not considered while assessing the indicative estimated Market Value.
- This report includes both, Govt. Guideline Value and Indicative Estimated Prospective Market Value as described above. As per the current market practice, in most of the cases, formal transaction takes place for an amount less than the actual transaction amount and rest of the payment is normally done informally.
- Area measurements considered in the Valuation Report pertaining to asset/ property is adopted from relevant approved documents or sample site measurement whichever is less unless otherwise mentioned. All area measurements are on approximate basis only.
- Verification of the area measurement of the property is done based on sample random checking only.
- Area of the large land parcels of more than 2500 sq.mtr or of uneven shape in which there can be practical
  difficulty in sample measurement, is taken as per property documents which has been relied upon unless
  otherwise stated.
- Drawing, Map, design & detailed estimation of the property/ building is out of scope of the Valuation services.
- Construction rates are adopted based on the present market replacement cost of construction and calculating applicable depreciation & deterioration factor as per its age, existing condition & specifications based on visual observation only of the structure. No structural, physical tests have been carried out in respect of it. No responsibility is assumed for latent defects of any nature whatsoever, which may affect value, or for any expertise required to disclose such conditions.
- Construction rates are adopted based on the plinth area rates prevailing in the market for the structure as a whole and not based on item wise estimation or Bills of Quantity method unless otherwise stated.
- The condition assessment and the estimation of the residual economic life of the structure are only based on the visual observations and appearance found during the site survey. We have not carried out any structural design or stability study; nor carried out any physical tests to assess structural integrity & strength.
- Any kind of unpaid statutory, utilities, lease, interest or any other pecuniary dues on the asset or on its owners has not been factored in the Valuation.
- This Valuation is conducted based on the macro analysis of the asset/ property considering it in totality and not based on the micro, component or item wise analysis. Analysis done is a general assessment and is neither investigative in nature nor an audit activity.
- Valuation is done for the asset found on as-is-where basis which owner/owner representative/ client/ bank
  has shown to us on site of which some reference has been taken from the information/ data given in the
  copy of documents provided to us which have been relied upon in good faith and we have assumed that it
  to be true and correct.

XXXV.	AS	SUMPTIONS
	a.	Documents/ Information/ Data provided by the client/ property owner or his representative both written & verbally is true and correct without any fabrication and has been relied upon in good faith.
	b.	Local verbal enquiries during micro market research came to our knowledge are assumed to be taken on record as true & factual.
	C.	The assets and interests therein have been valued free and clear of any liens or encumbrances unless stated otherwise. No hidden or apparent conditions regarding the subject assets or their ownership are assumed to exist. No opinion of title is rendered in this report and a good title is assumed unless stated otherwise.
	d.	It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that property after satisfying the authenticity of the documents given to us and for which the legal verification has been already taken and cleared by the competent Advocate before requesting for the Valuation report. I/ We assume no responsibility for the legal matters including, but not limited to, legal or title concerns.
	е.	Payment condition during transaction in the Valuation has been considered on all cash bases which includes both formal & informal payment components as per market trend.
	f.	Sale transaction method of the asset is assumed as Free market transaction without any compulsion unless otherwise mentioned while assessing Indicative & Estimated Fair Prospective Market Value of the asset unless otherwise stated.
	g.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or

M/S. SUBH INDUSTRIES

Integrating Valuation Life Cycle -A product of R.K. Associates www.valuationintelligentsystem.com

- f. The valuation of an asset is an estimate of the worth of that asset which is arrived at by the Valuer in his expert opinion after factoring in multiple parameters and externalities. This may not be the actual price of that asset and the market may discover a different price for that asset.
- g. This report only contains opinion based on technical & market information which came to our knowledge during the course of the assignment. It doesn't contain any recommendations.
- h. This report is prepared following our Standard Operating Procedures & Best Practices and will be subject to Limitations, Conditions, Valuer's Remarks, Important Notes, Valuation TOS and basis of computation & working as described above.
- i. The use of this report will become valid only after payment of full fees as per the Payment Terms. Using this report or any part content created in this report without payment of charges will be seen as misuse and unauthorized use of the report.

## 14. IMPORTANT KEY DEFINITIONS

**Fair Value** suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of the assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Fair Value without using the term "Market" in it describes that the value suggested by the Valuer may not mandatorily follow or may not be in complete consonance to the established Market in his expert opinion. It may or may not follow market dynamics. But if the suggested value by the valuer is not within the prevailing Market range or is assessed for an asset is located in an un-established Market then the valuer will give reasonable justification & reasoning that for what reasons the value suggested by him doesn't follow the prevailing market dynamics.

**Fair Market Value** suggested by the competent Valuer is that prospective estimated amount in his expert & prudent opinion of the subject asset/ property without any prejudice in consonance to the Market dynamics after he has carefully & exhaustively evaluated the facts & information came in front of him or which he could reasonably collect during the course of assessment related to the subject asset on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities which is just & equitable at which the subject asset/ property should be exchanged between a willing buyer and willing seller at an arm's length transaction in an open & unrestricted market, in an orderly transaction after proper marketing, wherein the parties, each acted knowledgeably, prudently without any compulsion on the date of the Valuation.

Here the words "in consonance to the established Market" means that the Valuer will give opinion within the realms & dynamics of the prevailing market rates after exhaustively doing the micro market research. However due to the element of "Fair" in it, valuer will always look for the factors if the value should be better than the market realms which is just & equitable backed by strong justification and reasoning.

**Market Value** suggested by the competent Valuer is that prospective estimated amount which is average price of the similar comparable assets prevailing in an open & established market during the near period of the date of valuation at which the subject asset/ property should be exchanged between a willing buyer and willing seller on an as-is, where-is basis in its existing conditions, with all its existing advantages & disadvantages and its potential possibilities at an arm's length transaction in an open, established & unrestricted market, in an orderly transaction, wherein the parties, each acted without any compulsion on the date of the Valuation.

Using the term "Market Value" without "Fair" omits the elements of proper marketing, acting knowledgeably & prudently.

Market and market participants can be sentimental, inclined towards the transaction without the element of complete knowledge & prudence about facts or due diligence of the asset therefore "each acted knowledgeably,

M/S. SUBH INDUSTRIES

prudently" has been removed from the marker Value definition.

**Realizable Value** is that minimum prospective estimated value of the asset/ property which it may be able to fetch at the time of actual property transaction factoring in the element of discount due to the prospects of deep negotiations between the buyer & seller when the parties in-principally find Fair Market Value reasonable and sits together to close the deal and the transaction across the table. Discount percentage on the Fair Market Value due to negotiation will depend on the nature, size, various salability prospects of the subject asset, the needs of the buyer & the seller and kind of payment terms. In some of the cases Realizable and Fair Market Value may also be equal.

**Distress Sale Value**\* is that value when the property is attached with any process such as mortgaged financing, financial or operational dues which is under any stress condition or situation and the stakeholders are under process of finding resolution towards it to save the property from being attached to a formal recovery process. In this type of sale, minimum fetch value assessed will always be less than the estimated Fair Market Value where the discount of percentage will depend upon various circumstances and factors such as nature, size, salability prospects of the property and kind of encumbrance on the property. In this type of sale, negotiation power of the buyer is always more than the seller and eagerness & pressure of selling the property will be more on the seller than the buyer.

**Liquidation Value** is the amount that would be realized when an asset or group of assets are sold due to any compulsion or constraints such as in a recovery process guided by statute, law or legal process, clearance sale or any such condition or situation thereof where the pressure of selling the asset/ property is very high to realize whatever maximum amount can be from the sale of the assets in a limited time for clearance of dues or due to closure of business. In other words, this kind of value is also called as forced sale value.

**Difference between Cost, Price & Value:** Generally, these words are used and understood synonymously. However, in reality each of these has a completely different meaning, premise and also having different definitions in professional & legal terms. Therefore, it is our professional responsibility to describe the definitions of these words to avoid ambiguity & confusion in the minds of the user of this report.

The Cost of an asset represents the actual amount spend in the construction/ actual creation of the asset.

The Price is the amount paid for the procurement of the same asset.

The **Value** is defined as the present worth of future rights in the property/ asset and is a hypothetical or notional price that buyers and sellers are most likely to conclude for a good or service. Value is not a fact, but an estimate of the likely price to be paid for a good or service at a given time in accordance with a particular definition of value.

Therefore, in actual for the same asset/ property, cost, price & value remain different since these terms have different usage & meaning.

## **ENCLOSURE IX**

# PART E

#### VALUER'S IMPORTANT REMARKS

	Valuation is done for the asset found on as-is-where basis which owner/ owner representative/ client/ bank has shown/ identified to us
	on the site unless otherwise mentioned in the report of which some reference has been taken from the information/ data given in the
	copy of documents provided to us and informed verbally or in writing out of the standard checklist of documents sought from the client
	& its customer which they could provide within the reasonable expected time out of the standard checklist of documents sought from
	them and further based on certain assumptions and limiting conditions. The information, facts, documents, data which has become
	primary basis of the report has been supplied by the client which has been relied upon in good faith and is not generated by the Valuer.
2.	The client/ owner and its management/ representatives warranted to us that the information they have supplied was complete, accurate
	and true and correct to the best of their knowledge. All such information provided to us either verbally, in writing or through documents
	has been relied upon in good faith and we have assumed that it is true & correct without any fabrication or misrepresentation. I/We
	shall not be held liable for any loss, damages, cost or expenses arising from fraudulent acts, misrepresentations, or willful default on
	part of the owner, company, its directors, employee, representative or agents.
3.	Legal aspects for eg. Investigation of title, ownership rights, lien, charge, mortgage, lease, sanctioned maps, verification of documents
З.	
	provided to us such as title documents, Map, etc. from any concerned Govt. office etc. have to be taken care by legal expert/ Advocate
	and same is not done at our end. It is assumed that the concerned Lender/ Financial Institution has asked for the valuation of that
	property after satisfying the authenticity of the documents given to us for which the legal verification has been already taken and
	cleared by the competent Advocate before requesting for the Valuation report. I/ We assume no responsibility for the legal matters
	including, but not limited to, legal or title concerns.
4.	In the course of the valuation, we were provided with both written and verbal information. We have however, evaluated the information
	provided to us through broad inquiry, analysis and review but have not carried out a due diligence or audit of the information provided
	for the purpose of this engagement. Our conclusions are based on the assumptions and other information provided to us by the client
	during the course of the assessment.
5.	Getting cizra map or coordination with revenue officers for site identification is a separate activity and is not part of the Valuation
	services and same has not been done in this report unless otherwise stated.
6.	Wherever any details are mentioned in the report in relation to any legal aspect of the property such as name of the owner, leases,
	etc. is only for illustration purpose and should not be construed as a professional opinion. Legal aspects are out of scope of this report.
	Details mentioned related to legal aspect are only based on the copy of the documents provided to us and whatever we can interpret
	as a non-legally trained person. This should be cross validated with a legal expert. We do not vouch any responsibility regarding the
	same

M/S. SUBH INDUSTRIES

World's first fully digital Automated Platform for Integrating Valuation Life Cycle -A product of R.K. Associates www.valuationintelligentsystem.com

	in the market based on the site inspection and documents/ data/ information provided by the client. The suggested indicative
15	prospective estimated value should be considered only if transaction is happened <u>as free market transaction.</u> The sale of the subject property is assumed to be on an all cash basis. Financial arrangements would affect the price at which the
15.	property may sell for if placed on the market.
16.	The actual realizable value that is likely to be fetched upon sale of the asset under consideration shall entirely depend on the demand
10.	and supply of the same in the market at the time of sale.
17.	While our work has involved an analysis & computation of valuation, it does not include detailed estimation, design/ technical/
	engineering/ financial/ structural/ environmental/ architectural/ compliance survey/ safety audit & works in accordance with generally
	accepted standards of audit & other such works. The report in this work in not investigative in nature. It is mere an opinion on the likely
	estimated valuation based on the facts & details presented to us by the client and third party market information came in front of us
	within the limited time of this assignment, which may vary from situation to situation.
18.	Where a sketched plan is attached to this report, it does not purport to represent accurate architectural plans. Sketch plans and
	photographs are provided as general illustrations only.
19.	Documents, information, data including title deeds provided to us during the course of this assessment by the client is reviewed only
	upto the extent required in relation to the scope of the work. No document has been reviewed beyond the scope of the work. These
	are not reviewed in terms of legal rights for which we do not have expertise. Wherever any information mentioned in this report is
	mentioned from the documents like owners name, etc., it is only for illustration purpose and may not necessary represent accuracy.
20.	The report assumes that the borrower/company/business/asset complies fully with relevant laws and regulations applicable in its area
	of operations and usage unless otherwise stated, and that the companies/business/assets is managed in a competent and responsible
	manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a legal nature, including
	issues of legal title and compliance with relevant laws, and litigations and other contingent liabilities that are not recorded/reflected in
	the documents/ details/ information/ data provided to us.
21.	This valuation report is not a qualification for accuracy of land boundaries, schedule (in physical terms), dimensions & identification.
	For this land/ property survey report can be sought from a qualified private or Govt. surveyor.
22.	This Valuation report is prepared based on the facts of the property on the date of the survey. Due to possible changes in market
	forces, socio-economic conditions, property conditions and circumstances, this valuation report can only be regarded as relevant as
	at the valuation date. Hence before financing, Banker/ FI should take into consideration all such future risk and should loan
	conservatively to keep the advanced money safe in case of the downward trend of the property value.
23.	Valuation of the same asset/ property can fetch different values under different circumstances & situations. For eg. Valuation of a
	running/ operational shop/ hotel/ factory will fetch better value and in case of closed shop/ hotel/ factory it will have considerable lower
	value. Similarly, an asset sold directly by an owner in the open market through free market transaction then it will fetch better value
	and if the same asset/ property is sold by any financer due to encumbrance on it, will fetch lower value. Hence before financing, Lender/ FI should take into consideration all such future risks while financing and take decision accordingly.
24.	Valuation is done for the property identified to us by the owner/ owner representative. At our end we have just visually matched the
27.	land boundaries, schedule (in physical terms) & dimensions of the property with reference to the documents produced for perusal.
	Method by which identification of the property is carried out is also mentioned in the report clearly. Responsibility of identifying the
	correct property to the Valuer/ its authorized surveyor is solely of the client/ owner for which Valuation has to be carried out. It is
	requested from the Bank to cross check from their own records/ information if this is the same property for which Valuation has to be
	carried out to ensure that owner has not misled the Valuer company or misrepresented the property due to any vested interest. Where
	there is a doubt about the precision position of the boundaries, schedule, dimensions of site & structures, it is recommended that a
	Licensed Surveyor be contacted.
25.	In India more than 70% of the geographical area is lying under rural/ remote/ non municipal/ unplanned area where the subject property
	is surrounded by vacant lands having no physical demarcation or having any display of property survey or municipal number / name
	plate on the property clearly. Even in old locations of towns, small cities & districts where property number is either not assigned or
	not displayed on the properties clearly and also due to the presence of multiple/ parallel departments due to which ownership/ rights/
	illegal possession/ encroachment issues are rampant across India and due to these limitations at many occasions it becomes tough
	to identify the property with 100% surety from the available documents, information & site whereabouts and thus chances of error,
	misrepresentation by the borrower and margin of chances of error always persists in such cases. To avoid any such chances of error
	it is advised to the Bank to engage municipal/ revenue department officials to get the confirmation of the property to ensure that the
	property shown to Valuer/ Banker is the same as for which documents are provided.
26.	If this Valuation Report is prepared for the Flat/ dwelling unit situated in a Group Housing Society or Integrated Township then
	approvals, maps of the complete group housing society/ township is out of scope of this report and this report will be made for the
	specific unit based on the assumption that complete Group Housing Society/ Integrated Township and the subject unit must be
27.	approved in all respect. Due to fragmented & frequent change in building/ urban planning laws/ guidelines from time to time, different laws/ guidelines between
21.	regions/ states and no strict enforceability of Building Bye-Laws in India specially in non-metro and scale b & c cities & Industrial areas,
	property owners many times extend or make changes in the covered area/ layout from the approved/ applicable limits. There are also
	situations where properties are decades old when there was no formal Building Bye-Laws applicable the time when the construction
	must have been done. Due to such discrete/ unplanned development in many regions sometimes it becomes tough for the Valuer to
	determine the exact lawful situation on ground. Unless otherwise mentioned in the report, the covered area present on the site as per
L	determine the exact lawid statution on ground. Onless difference mentioned in the report, the covered area present of the site as per
