-iated building race vi (a)	Rs. 1171.5/- per Sft.
Rate for Land & other V (3) ii	Rs. 5,928.5/- per Sft.
Total Composite Rate	Rs. 7,100/- Per Sft

Sr. No.	f Valuation: Description	Qty. (Area in Sft.)	Rate per unit Rs.	Estimated Value Rs.
1	Present value of Flat on 2 th & 3 RD floor (Area is taken as per Agreement to Sell & Sub Lease Deed)		Rs.7,100/- Per Sft	Rs. 1,74,24,749/-

Valuation: Here, the approved Valuer should discuss in details his approach to valuation of property and indicate how the value has been arrived at, supported by necessary calculation. Also, such aspects as impending threat of acquisition by government for road widening / public service purposes, sub merging & applicability of CRZ provisions (Distance from sea-coast / tidal level must be incorporated) and their effect on i) salability ii) likely rental value in future and iii) any likely income it may generate may be discussed)

As a result of my appraisal and analysis, it is my considered opinion that the present market value of the above property in prevailing condition with aforesaid specifications is Rs. 1.74.74.74.01. (In words) in prevailing condition with aforesaid specifications is Rs. 1,74,24,749/- (In words: - One Crore Seventy-Four Lacs Twenty-Four Thousands Seven Hundred Forty-Nine Only/-) (Prevailing market rate along with details /reference of at least two latest deals/transactions with respect to adjacent properties in the areas. The reference should be of properties/plots of similarsize/area and same use as the land being valued). The other details are as below:

The above valued residential property is situated in the developed Sector and availability of the flat in this area is less in comparison to demand of the flats. That is why, the market rate of the property is higher in comparison to demand of the flats. rates of the district. So, due to the above reason difference in guideline value and market value is More than 20%.
