**KUNAL STRUCTURE (INDIA) PVT.LTD.**

**Notes:**

1. The above information should be unit-wise in the case of multi-unit undertakings and should cover the entire operations of the individual unit.
2. The data given against various items of the statement should relate to the same period or the same data, as the case may be. As for example, if the statement is for the month of, say, December, the figures of net sales and production during the month, stock-in and stock-out should relate to the month of December, while the figures of closing stocks of inventories and outstanding receivables, etc., should be as at the end of the same month, i.e., December.
3. All the expressions used in this form such as current accounting year, net sales, etc., have the same connotation as similar expressions used in forms FFR I and FFR II statements.
4. The basis of valuation of various items in this form should be the same as that adopted for the purpose of balance sheet and should be applied on a consistent basis.
5. The following additional information may be furnished in brackets below the respective items :-
  - i) Closing stock of raw materials expressed as so many months' consumption.
  - ii) Stocks-in-process expressed as so many months' cost of production.
  - iii) Closing stock of finished goods expressed as so many months' cost of sales.
  - iv) Receivables expressed as so many months' sales.
  - v) Sundry creditors for purchases expressed as so many months' purchases.
6. The closing stocks of raw materials, stocks-in-process and finished goods and receivables should be examined to see whether the levels are within the norms, if any, prescribed. If there is any excess, suitable explanation should be given.
7. The borrower should continue to submit the stock statements, as at present, in the usual format indicating the quantities, rate of valuation, movement and location of stocks, etc., to facilitate physical verification.
